

Ett stabilt finansiellt system

Martin Andersson
5 februari 2013

”FI ska bidra till ett stabilt och väl fungerande finansiellt system och till konsumentskyddet inom det finansiella systemet.”

Lessons from the crisis

”Need to restrict leverage in the financial system

Lack of market discipline

Need for more transparency

Better monitoring and transparency regarding OTC derivatives

Underestimated the impact of contagion due to interlinkages in the financial system””
