Preface

Finansinspektionen (FI) publishes on a quarterly basis the capital requirements of all Swedish banks and credit market companies under its supervision that have been categorised as Categories 1 or 2.^{1,2} This memorandum discloses these companies' capital requirements, Pillar 2 guidance and own funds at the end of third quarter 2025.

In this publication, the term *capital requirement* is used instead of the legal term *own funds requirement*. Note also that the Pillar 2 guidance is included in figures and tables that show the banks' capital requirements even though the Pillar 2 guidance does not constitute a formal requirement.

The capital requirements are based on the capital adequacy regulations, FI's application of the buffer requirements, and FI's latest review and evaluation of the companies. For all the companies included in this memorandum the most recent evaluation was completed in September 2025. FI has decided on Pillar 2 requirements for these companies and has also communicated the own funds that FI considers they should keep (Pillar 2 guidance).

As of fourth quarter 2024, FI started publishing the effective CET 1 capital headroom. For more information about the method, see the memorandum *Effective CET 1 capital headroom of banks*.³

Further information on the capital requirements and their application to Swedish banks can be found in the memorandum *Nya kapitalkrav för svenska banker* and on FI's website.⁴

¹ FI categorises all credit institutions under its supervision on an annual basis. This categorisation enables FI to apply the guidelines issued by the European Banking Authority (EBA). A list of the credit institutions' supervisory categories is available in Swedish at the following link: <https://www.fi.se/contentassets/de7c031f115f48ebb87648ac879e8af9/tillsynskategorisering-kreditinstitut-filialer-2026.pdf>

² Swedish subsidiaries to foreign bank groups are not included in this memorandum. Hence, Nordea Hypotek's capital requirements are not included even though Nordea is categorised as a Category 1 institution.

³ For more information on the methodology and underlying calculations, see the memorandum "Bankernas faktiska kärnprimärkapitalutrymme", FI Ref. 25-3319 or <https://www.fi.se/sv/publicerat/nyheter/2025/fi-publicerar-bankernas-faktiska-kapitalutrymme/>. An English translation is available on FI's website.

Capital requirements, third quarter 2025

In this chapter, we present the capital requirements for Swedish banks as per the third quarter 2025.

Capital requirements in per cent

1. Own funds and capital requirements, three major banks (per cent of REA)

2. Own funds and capital requirements, Category 2 (per cent of REA)

3. Common Equity Tier 1 capital and Common Equity Tier 1 capital requirements, three major banks (per cent of REA)

4. Common Equity Tier 1 capital and Common Equity Tier 1 capital requirements, Category 2 (per cent of REA)

5. Capital requirements in Pillar 2, three major banks (per cent of REA)

6. Capital requirements in Pillar 2, Category 2 (per cent of REA)

Note: None of the companies in Category 2 have a Pillar 2 requirement for pension risk.

7. Leverage ratio and leverage ratio requirements, three major banks (per cent of leverage ratio exposure)

8. Leverage ratio and leverage ratio requirements, Category 2 (per cent of leverage ratio exposure)

Note: Kommuninvest's Pillar 2 guidance for leverage ratio is calculated so that the company's leverage ratio requirement is 1 percent of the total leverage ratio exposure amount before the deduction Kommuninvest makes according to the regulation for public development credit institutions. The leverage ratio exposure amount before the deduction was SEK 633 billion and after the deduction SEK 79 billion SEK. The leverage ratio after the deduction was 15.0 per cent.

Capital requirements in SEK

Table 1. Capital requirements and Pillar 2 guidance in SEK million, major banks, 2025-09-30

SEB	Total	Tier 1	CET 1
Capital	218 345	193 399	178 748
Risk-based capital requirements	183 901	159 800	143 636
Leverage ratio requirements		118 732	5 654

SHB	Total	Tier 1	CET 1
Capital	181 003	155 427	146 041
Risk-based capital requirements	150 280	131 363	117 978
Leverage ratio requirements		114 129	5 435

Swedbank	Total	Tier 1	CET 1
Capital	216 038	192 284	177 051
Risk-based capital requirements	171 231	148 891	133 397
Leverage ratio requirements		91 160	4 341

Note 1: The Pillar 2 guidance is included in the risk-based capital requirement and the leverage ratio requirement in the tables even though it does not constitute a formal requirement.

Note 2: Rounding may lead to differences when comparing the above amounts to the banks' public reports.

Table 2. Capital requirements and Pillar 2 guidance in SEK million,
Category 2 banks, 2025-09-30

Länsförsäkringar	Total	Tier 1	CET 1
Capital	27 939	24 849	20 799
Risk-based capital requirements	20 191	16 714	14 103
Leverage ratio requirements		17 030	811
SBAB	Total	Tier 1	CET 1
Capital	31 388	29 381	22 381
Risk-based capital requirements	21 506	17 825	15 079
Leverage ratio requirements		21 411	1 020
Nordnet	Total	Tier 1	CET 1
Capital	4 967	4 967	4 067
Risk-based capital requirements	2 950	2 444	2 065
Leverage ratio requirements		3 207	458
Avanza	Total	Tier 1	CET 1
Capital	5 088	5 088	4 288
Risk-based capital requirements	2 789	2 270	1 882
Leverage ratio requirements		3 678	525
Kommuninvest	Total	Tier 1	CET 1
Capital	11 861	11 861	11 861
Risk-based capital requirements	2 022	1 590	1 265
Leverage ratio requirements		6 335	3 967
Svensk Exportkredit	Total	Tier 1	CET 1
Capital	23 053	23 053	23 053
Risk-based capital requirements	15 989	13 253	11 194
Leverage ratio requirements		7 997	381
Klarna	Total	Tier 1	CET 1
Capital	17 574	15 862	14 207
Risk-based capital requirements	14 536	12 659	11 248
Leverage ratio requirements		10 167	4 357

Note 1: The Pillar 2 guidance is included in the risk-based capital requirement and leverage ratio requirement in the tables even though it does not constitute a formal requirement.

Note 2: Rounding may lead to differences when comparing the above amounts to the banks' public reports.

Note 3: Kommuninvest's leverage ratio guidance applies a special calculation (see the footnote to Figure 8).

Exposure amounts

Table 3. REA and leverage ratio exposure amount, 2025-09-30

SEK million	Risk exposure amount	Leverage ratio exposure amount
SEB	979 686	3 769 281
SHB	801 540	3 623 144
Swedbank	900 821	2 893 956
Länsförsäkringar	139 633	540 642
SBAB	150 856	679 723
Nordnet	20 349	91 614
Avanza	15 918	105 077
Kommuninvest	3 060	78 919
Svensk Exportkredit	99 484	253 885
Klarna	83 044	193 650

Note: Kommuninvest's leverage ratio exposure amount is presented after the deduction of exposures in accordance with the regulation for public development credit institutions.

Effective CET 1 capital headroom

In this chapter, we present the effective CET 1 capital headroom as per the third quarter 2025.⁵

9. Effective CET 1 capital headroom (per cent of REA)

Source: FI and Swedish National Debt Office

Note: The orange box shows the size of a bank's headroom to its CET 1 capital requirement and Pillar 2 guidance. The turquoise bar shows the percentage of the total requirement that is effectively available for the bank to use without the bank breaching any of its requirements. This considers each bank's individual capital requirements, Pillar 2 guidance, and, if applicable, MREL.⁶ The turquoise bar is impacted by the extent to which a bank meets its requirement using additional Tier 1 capital, Tier 2 capital, and eligible liabilities, if applicable. Requirements that are calculated as a per cent of the leverage ratio exposure amount have been recalculated to a per cent of REA.

⁵ For more information on the methodology and underlying calculations, see the memorandum "Bankernas faktiska kärnprimärkapitalutrymme", FI Ref. 25-3319 or <https://www.fi.se/sv/publicerat/nyheter/2025/fi-publicerar-bankernas-faktiska-kapitalutrymme/>. An English translation is available on FI's website.

Note: The table specifies the regulatory requirement - and the Pillar 2 guidance, if applicable - for the bank to which the CET 1 capital headroom is smallest. In other words, the requirement that is the binding requirement in Figure 9. Gray-marked cells entail that the bank is not subject to these requirements.

Description of the calculations

Own funds, the risk exposure amount (REA), the leverage ratio exposure amount, the countercyclical buffer, the systemic risk buffer, and eligible liabilities are based on the companies' third quarter reporting in 2025. The reporting was submitted to FI on 18 November 2025. The rounding of each component of the capital requirements may result in a discrepancy between the sum of all parts and the total capital requirement. The data is reported at group level.

Risk-based capital requirement

Minimum requirement, Pillar 1

The Pillar 1 minimum requirement amounts to 8 percent of the total risk exposure amount and must be covered by at least 75 percent Tier 1 capital, whereof at least 75 percent must be Common Equity Tier 1 capital.

Pillar 2 requirement

FI decides on a Pillar 2 requirement in conjunction with its supervisory review and evaluation of the companies. In support of the decision, FI uses a number of methods that disclose how it assesses and calculates the requirement for specific risks.⁷ FI can also decide on Pillar 2 requirements based on other assessments that we make.

Pillar 2 requirements must be covered by at least 75 per cent Tier 1 capital, of which at least 75 per cent must be CET 1 capital, but FI can also decide on a higher percentage of Tier 1 or CET 1 capital.

Systemic risk buffer

The systemic risk buffer amounts to 3 percent of the total risk-weighted exposure amount for the major banks and must be covered by CET 1 capital. FI may also recognize systemic risk buffers implemented by other countries, which can lead to a buffer that exceeds 3 percent.

Buffer for other systemically important institutions (O-SII buffer)

The O-SII buffer amounts to 1 per cent of the total risk-weighted exposure amount for the major banks and must be covered by CET 1 capital.

Countercyclical capital buffer

The countercyclical buffer rate is currently set to 2 per cent on exposures in Sweden (as of 22 June 2023). The buffer rate that the banks report is an average value, weighted by the risk exposure amount, of the countercyclical buffer rates applied in the countries to which the company has exposures. The countercyclical capital buffer must be covered by CET 1 capital.

⁷ For more information, see <https://www.fi.se/sv/bank/kapitalkrav/kapitalkrav-for-svenska-banker/>. An English translation is available at FI's website.

Capital conservation buffer

The capital conservation buffer amounts to 2.5 per cent of the total risk-weighted exposure amount and must be covered by CET 1 capital.

Pillar 2 guidance

FI communicates a risk-based guidance in conjunction with its supervisory review and evaluation process. The guidance is not a formally decided requirement for the company.

Leverage ratio requirement

Minimum requirement for leverage ratio

The minimum requirement for the leverage ratio amounts to 3 percent of the leverage ratio exposure amount and must be covered by Tier 1 capital.

Pillar 2 requirement

FI has not decided on a Pillar 2 requirement for any of the companies included in the memorandum. However, FI can decide on a Pillar 2 requirement in a similar way as for the risk-based requirement. The Pillar 2 requirement must be covered by Tier 1 capital unless FI decides otherwise.

Pillar 2 guidance

FI communicates a leverage ratio guidance in conjunction with its a supervisory review and evaluation process. The guidance is not a formally decided requirement for the company.

Effective CET 1 capital headroom

A bank's effective CET 1 capital headroom is defined as the amount in SEK – recalculated to a per cent of the risk exposure amount (REA) – for which the headroom between the bank's available capital and eligible liabilities and its regulatory requirement and Pillar 2 guidance is smallest. The Pillar 2 guidance is included in this case in the bank's regulatory capital requirement in accordance with how the guidance is illustrated in this memorandum even though the Pillar 2 guidance does not constitute a formal requirement.
