If the Issuer does not meet the terms set out in any Green Bond Framework in relation to a certain Loan, such as failure to meet any of the green components or principles or failure to obtain an evaluation by independent analysts, it does not constitute an Event of Default under the General Terms and Conditions. The green finance reports include an allocation report and an impact report and are available at www.np3fastigheter.se/hallbarhet/gron-finansiering.</p> <p>The Issuer has published a Green Bond Framework dated September 2023 for issues of Green Notes under this MTN Programme which is available at www.np3fastigheter.se/hallbarhet/gron-finansiering (the “Green Bond Framework (2023)”). The Green Bond Framework (2023) applies to the outstanding Green Notes issued under the final terms for loan no. 103 dated 8 September 2023, loan no. 104 dated 16 February 2024 and 16 May 2024 and loan no. 105 dated 30 September 2024 and 12 March 2025 and any other Loan if it is stated in the Final Terms of such Loan that the Green Notes and the Green Bond Framework dated September 2023 are applicable.</p>

The Green Bond Framework (2023) is aligned with the four recommended components of the Green Bond Principles from 2021 (the “**GBP (2021)**”) and the Green Loan Principles from 2023 (the “**GLP**”) being: use of proceeds; process for project/asset evaluation and selection; management of proceeds; and reporting. The GBP (2021) have been established by the International Capital Market Association and the GLP have been established by among others the Loan Market Association, and are voluntary guidelines for issuing green bonds. The Green Bond Framework (2023) was found to be in alignment with the components of GBP (2018) and was rated as “Medium Green” by Shades of Green, formerly part of CICERO, now a part of S&P Global, on 1 September 2023.

An amount equivalent to the net proceeds from such Green Notes shall be used to finance or re-finance, in part or in full, new and/or existing projects with clear environmental benefits (“**Green Eligible Projects (2023)**”). Green Eligible Projects (2023) eligible projects are both capital expenditures (CAPEX) and operational expenditures (OPEX). CAPEX do not have any requirement for any look-back period, while OPEX do have a requirement of a maximum three-year look-back period from the time of issuance of the Green Notes. Green Eligible Projects (2023) must relate to one of the following categories:

- (i) new buildings (built after 31 December 2020) with *inter alia* (a) primary energy demand 10 per cent. lower than the threshold set for nearly zero-energy buildings according to national building regulations, (b) EPC A or B, (c) minimum certification of GreenBuilding or Miljöbyggnad Silver or (d) minimum certification of LEED Gold and with an energy consumption of at least 25 per cent. below national building requirements (Swedish BBR) or other equivalent certification standards in terms of energy use. Buildings larger than 5,000 m² shall also undergo testing for air-tightness and thermal integrity upon completion and the life-cycle Global Warming Potential (GWP) of the building resulting from the construction shall have been calculated for each stage in the life cycle;
- (ii) existing buildings (built before 31 December 2020) with *inter alia* (a) EPC A or being within top 15 per cent. of the national or regional building stock expressed as operational primary energy demand and demonstrated by adequate evidence, (b) minimum certification of GreenBuilding or Miljöbyggnad Silver or (c) improvements in EPC label by a minimum 2 levels;
- (iii) major renovations and re-construction leading to primary energy savings of at least 30 per cent.; or
- (iv) direct costs for energy efficiency measures, including for *inter alia* installation of onsite solar panels, conversion to LED lighting, heat pumps, improvements in ventilation systems, extensions of district heating and cooling systems and installation of infrastructure for electric cars.

The net proceeds from an issue of such Green Notes may not be used to finance fossil fuel energy generation, nuclear energy generation, the weapons industries, potentially environmentally negative resource extraction, gambling or tobacco.

The selection of Green Eligible Projects (2023) is managed by a committee consisting of the COO, the CFO and the group controller. All committee decisions are made in consensus. A list of Green Eligible Projects (2023) is kept by the finance department who is also responsible for keeping it up to date. All relevant Green Notes will be managed on a portfolio level, meaning that a Green Note will not be linked directly to one (or more) pre-determined Green Eligible Projects (2023). Any unallocated proceeds may temporarily be placed in the liquidity reserve or any other treasury business and managed accordingly by the Issuer.

Sustainability-Linked Notes The Issuer may issue Sustainability-Linked Notes under the MTN Programme. The Issuer will issue the Sustainability-Linked Progress Reports on its website (www.np3fastigheter.se) which describes the Issuer's performance in relation to the relevant Sustainability Performance Target(s) and includes the External Verifier's review and confirmation if the relevant Sustainability Performance Target(s) has been met on the relevant Target Observation Date(s).

If the Issuer does not meet the terms set out in the applicable Sustainability-Linked Bond Framework in relation to a certain Loan, it does not constitute an Event of Default under the General Terms and Conditions.

Form of the Notes.....	The Notes constitute debt instruments (Sw. <i>skuldförbindelser</i>), each of the type set forth in Chapter 1 Section 3 of the Swedish Central Securities Depositories and Financial Instruments Accounts Act (Sw. <i>lag (1998:1479) om värdepapperscentraler och kontoföring av finansiella instrument</i>).
Clearing and settlement	The Notes are issued in dematerialised book-entry form and registered on a Securities Account on behalf of the relevant Noteholder. The Notes are maintained by the CSD pursuant to the Central Securities Depositories and Financial Instruments Accounts Act. Registration requests relating to the Notes shall be directed to an Account Operator.

Any Notes issued are connected to the account-based system of Euroclear Sweden AB (“**Euroclear**”). No physical Notes have been or will be issued. Payment of principal, interest and, if applicable any withholding tax will be made through Euroclear’s book-entry system. Euroclear’s addresses are included in the Section “*Addresses*” below.

Status The Notes constitute direct, unconditional, unsubordinated and unsecured debt obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves and shall rank at least *pari passu* with all other present and future unsubordinated and unsecured obligations (except those obligations preferred by law) of the Issuer.

Green Notes The Issuer may issue Green Notes under the MTN Programme pursuant to the Issuer’s Green Bond Framework applicable as per the date of each issue of Green Notes under this MTN Programme. Any Green Bond Framework may from time to time be updated by the Issuer. Changes in any Green Bond Framework that occur after the relevant Issue Date for a certain Loan will not benefit Noteholders under the Loan. If the Issuer does not meet the terms set out in any Green Bond Framework in relation to a certain Loan, such as failure to meet any of the green components or principles or failure to obtain an evaluation by independent analysts, it does not constitute an Event of Default under the General Terms and Conditions. The relevant Noteholders are in such case not entitled to early repayment or repurchase of MTN or other compensation.

To enable Noteholders and other stakeholders to follow the development of the projects funded by Green Notes, a green finance report will be published as long as there are any Green Notes outstanding. The green finance reports include an allocation report and an impact report and are available at www.np3fastigheter.se/hallbarhet/gron-finansiering.

The Issuer has published a Green Bond Framework dated September 2023 for issues of Green Notes under this MTN Programme which is available at www.np3fastigheter.se/hallbarhet/gron-finansiering (the “**Green Bond Framework (2023)**”). The Green Bond Framework (2023) applies to the outstanding Green Notes issued under the final terms for loan no. 103 dated 8 September 2023, loan no. 104 dated 16 February 2024 and 16 May 2024 and loan no. 105 dated 30 September 2024 and 12 March 2025 and any other Loan if it is stated in the Final Terms of such Loan that the Green Notes and the Green Bond Framework dated September 2023 are applicable.

The Green Bond Framework (2023) is aligned with the four recommended components of the Green Bond Principles from 2021 (the “**GBP (2021)**”) and the Green Loan Principles from 2023 (the “**GLP**”) being: use of proceeds; process for project/asset evaluation and selection; management of proceeds; and reporting. The GBP (2021) have been established by the International Capital Market Association and the GLP have been established by among others the Loan Market Association, and are voluntary guidelines for issuing green bonds. The Green Bond Framework (2023) was found to be in alignment with the components of GBP (2018) and was rated as “Medium Green” by Shades of Green, formerly part of CICERO, now a part of S&P Global, on 1 September 2023.

An amount equivalent to the net proceeds from such Green Notes shall be used to finance or re-finance, in part or in full, new and/or existing projects with clear environmental benefits (“**Green Eligible Projects (2023)**”). Green Eligible Projects (2023) eligible projects are both capital expenditures (CAPEX) and operational expenditures (OPEX). CAPEX do not have any requirement for any look-back period, while OPEX do have a requirement of a maximum three-year look-back period from the time of issuance of the Green Notes. Green Eligible Projects (2023) must relate to one of the following categories:

- (i) new buildings (built after 31 December 2020) with *inter alia* (a) primary energy demand 10 per cent. lower than the threshold set for nearly zero-energy buildings according to national building regulations, (b) EPC A or B, (c) minimum certification of GreenBuilding or Miljöbyggnad Silver or (d) minimum certification of LEED Gold and with an energy consumption of at least 25 per cent. below national building requirements (Swedish BBR) or other equivalent certification standards in terms of energy use. Buildings larger than 5,000 m² shall also undergo testing for air-tightness and thermal integrity upon completion and the life-cycle Global Warming Potential (GWP) of the building resulting from the construction shall have been calculated for each stage in the life cycle;
- (ii) existing buildings (built before 31 December 2020) with *inter alia* (a) EPC A or being within top 15 per cent. of the national or regional building stock expressed as operational primary energy demand and demonstrated by adequate evidence, (b) minimum certification of GreenBuilding or Miljöbyggnad Silver or (c) improvements in EPC label by a minimum 2 levels;
- (iii) major renovations and re-construction leading to primary energy savings of at least 30 per cent.; or
- (iv) direct costs for energy efficiency measures, including for *inter alia* installation of onsite solar panels, conversion to LED lighting, heat pumps, improvements in ventilation systems, extensions of district heating and cooling systems and installation of infrastructure for electric cars.

The net proceeds from an issue of such Green Notes may not be used to finance fossil fuel energy generation, nuclear energy generation, the weapons industries, potentially environmentally negative resource extraction, gambling or tobacco.

The selection of Green Eligible Projects (2023) is managed by a committee consisting of the COO, the CFO and the group controller. All committee decisions are made in consensus. A list of Green Eligible Projects (2023) is kept by the finance department who is also responsible for keeping it up to date. All relevant Green Notes will be managed on a portfolio level, meaning that a Green Note will not be linked directly to one (or more) pre-determined Green Eligible Projects (2023). Any unallocated proceeds may

temporarily be placed in the liquidity reserve or any other treasury business and managed accordingly by the Issuer.

Sustainability-Linked Notes The Issuer may issue Sustainability-Linked Notes under the MTN Programme. Prior to any issue of Sustainability-Linked Notes under this MTN Programme, the Issuer shall have published the Sustainability-Linked Bond Framework applicable in relation to the relevant issue of Sustainability-Linked Notes on its website www.np3fastigheter.se. The Sustainability-Linked Bond Framework apply to a certain Loan if it is stated in the Final Terms of such Loan that the Sustainability-Linked Notes are applicable. The Sustainability-Linked Bond Framework may from time to time be updated by the Issuer. Changes in the Sustainability-Linked Bond Framework that occur after the Issue Date for a certain Loan will not benefit Noteholders under the Loan.

If the Final Terms of a Loan in respect to Sustainability-Linked Notes specify Sustainability-Linked Interest Rate Increase as applicable to it, the Interest Rate (for Loans with fixed interest rate) or the Margin (for Loans with floating interest rate) shall be increased with the Sustainability-Linked Interest Rate Increase as set out in the Final Terms, from (and including) the Interest Period that begins immediately following the relevant Sustainability-Linked Report Date until (and excluding) the Interest Period that begins immediately following the next Sustainability-Linked Report Date or until the relevant Redemption Date (as applicable), unless (i) the applicable Sustainability Performance Target(s) has been met as of the relevant Target Observation Date, (ii) the External Verifier has issued a confirmation on or before the relevant Sustainability-Linked Report Date confirming that the applicable Sustainability Performance Target(s) has been met as of the relevant Target Observation Date, and (iii) the Sustainability-Linked Progress Report has been published on or before the relevant Sustainability-Linked Report Date.

If the Final Terms of a Loan in respect to Sustainability-Linked Notes specify Sustainability-Linked Interest Rate Decrease as applicable to it, the relevant Interest Rate (for Loans with fixed interest rate) or the Margin (for Loans with floating interest rate) shall be decreased with the Sustainability-Linked Interest Rate Decrease as set out in the Final Terms, from (and including) the Interest Period that begins immediately following the relevant Sustainability-Linked Report Date until (and excluding) the Interest Period that begins immediately following the next Sustainability-Linked Report Date or until the relevant Redemption Date (as applicable), if (i) the applicable Sustainability Performance Target(s) has been met on the relevant Target Observation Date, (ii) the External Verifier has issued a confirmation on or before the relevant Sustainability-Linked Report Date confirming that the applicable Sustainability Performance Target(s) has been met as of the relevant Target Observation Date, and (iii) the Sustainability-Linked Progress Report has been published on or before the relevant Sustainability-Linked Report Date.

If the Final Terms of a Loan in respect to Sustainability-Linked Notes specify Sustainability-Linked Redemption Premium as applicable to it, the

relevant price for an early total redemption in accordance with Clause 8.2 (Voluntary total redemption (call option)) or a repayment in full on the relevant Maturity Date of the Loan shall be increased with the Sustainability-Linked Redemption Premium as set out in the Final Terms unless (i) the applicable Sustainability Performance Target(s) has been met as of the relevant Target Observation Date, (ii) the External Verifier has issued a confirmation on or before the relevant Sustainability-Linked Report Date confirming that the applicable Sustainability Performance Target(s) has been met as of the relevant Target Observation Date, and (iii) the Sustainability-Linked Progress Report has been published on or before the relevant Sustainability-Linked Report Date.

The Issuer will issue the Sustainability-Linked Progress Reports on its website (www.np3fastigheter.se) which describes the Issuer's performance in relation to the relevant Sustainability Performance Target(s) and includes the External Verifier's review and confirmation if the relevant Sustainability Performance Target(s) has been met on the relevant Target Observation Date(s).

If the Issuer does not meet the terms set out in the applicable Sustainability-Linked Bond Framework in relation to a certain Loan, it does not constitute an Event of Default under the General Terms and Conditions.

Product description

This section contains a general description of the constructions and terms applicable to an issue of Notes under this MTN Programme. The final constructions and terms of each Notes are set out in the applicable Final Terms.

Repayment and redemption..... The Nominal Amount of the Notes (together with accrued interest, if any) falls due for repayment on the Maturity Date as specified in the Final Terms. Should the Maturity Date fall on a date which is not a Business Day, the Notes will be repaid on the following Business Day.

Interest construction Under this MTN Programme and in accordance with Clause 6 (*Interest*) of the General Terms and Conditions, the Notes may be issued with fixed interest rate or floating interest rate. The applicable interest rate is specified in the applicable Final Terms.

Fixed interest rate For Notes with a fixed interest rate, interest accrues in accordance with the rate specified in the applicable Final Terms from (but excluding) the Interest Commencement Date, up to (and including) the relevant Maturity Date.

Accrued interest for Notes with a fixed interest rate shall be paid in arrears on each Interest Payment Date and is calculated using the Day Count Convention specified in the applicable Final Terms.

Floating interest rate	<p>For Notes with a floating interest rate, interest accrues in accordance with the rate specified in the applicable Final Terms from (but excluding) the Interest Commencement Date, up to (and including) the relevant Maturity Date.</p> <p>The interest rate for Notes with a floating interest rate is calculated by the Agent on each Quotation Day as the Base Rate for such period plus the applicable Margin (and adjusted by Clause 18 (<i>Replacement of base Rate</i>)). If the Base Rate and the Margin for the relevant period is below zero (0), the Interest Rate shall be deemed to be zero (0). Accrued interest for Notes shall be paid in arrears on each Interest Payment Date and is calculated using the Day Count Convention specified in the applicable Final Terms.</p>
European Benchmark Regulation	<p>Floating interest payable on Notes issued under this MTN Programme may be calculated by reference to certain benchmarks, being STIBOR and EURIBOR, as defined in the General Terms and Conditions (however subject to Clause 18 (<i>Replacement of Base Rate</i>)). EURIBOR is provided by the European Money Market Institute and STIBOR is provided by Swedish Financial Benchmark Facility AB.</p> <p>Should a Base Rate Event occur in accordance with Clause 18 (<i>Replacement of base Rate</i>), certain fall-back provisions will be effectuated securing that an Alternative Base Rate or Successor Base Rate is appointed in order to maintain transparency and predictability in the calculation metrics of relevant benchmarks for Notes bearing floating rate interest.</p> <p>The European Money Market Institute and Swedish Financial Benchmark Facility are registered in the register of administrators and benchmarks maintained by the European Securities and Markets Authority (ESMA) pursuant to Article 36 of Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the “Benchmark Regulation”).</p>
Day Count Convention	<p>Unless otherwise specified in the relevant Final Terms, the following Day Count Conventions will be used for the calculation of interest under this MTN Programme.</p> <p>30/360: The calculation is based on a year of 360 days divided into twelve (12) months of thirty (30) days each and in case of a fraction of a month using the actual number of days of the month that have passed.</p> <p>Actual/360: The calculation is based on the actual number of days elapsed in the relevant Interest Period, divided by 360.</p>

Undertakings

Each of these undertakings is subject to significant exceptions and qualifications. See the General Terms and Conditions for more information.

RISK FACTORS

The purpose of this section is to enable a potential investor to assess the relevant risks related to their potential investment in the Notes in order to make an informed investment decision. The risk factors set forth below are therefore limited to risks that are material and specific to the Issuer, the Group and the Notes in the opinion of the Issuer in accordance with Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017. The manner in which the Issuer, the Group and the Notes are affected by each risk factor is illustrated by way of an evaluation of the materiality of the relevant risk factor based on the probability of it occurring and the expected magnitude of its negative impact, for the purpose of which the probability and the magnitude of negative impact if it would occur is estimated as “low”, “medium” or “high” and the magnitude of negative impact if it would occur as “low”, “medium” or “high”. The most material risk factor in a category is presented first under that category, whereas subsequent risk factors in the same category are not purported to be ranked in order of materiality.

RISK FACTORS SPECIFIC AND MATERIAL TO THE ISSUER AND THE GROUP

Risks related to the Issuer's business activities and industry

Macroeconomic and regional specific factors

The Issuer's property portfolio is particularly exposed to macroeconomic factors that affect northern Sweden, as the Group's main sphere of operations. The Group's properties are divided into eight geographical areas with the following representation of the Group's total property value as per 31 December 2024: Sundsvall (SEK 4,398 million), Gävle (SEK 2,946 million), Dalarna (SEK 2,994 million), Östersund (SEK 3,367 million), Umeå (SEK 2,302 million), Skellefteå (SEK 2,607 million), Luleå (SEK 2,758 million) and Middle Sweden (SEK 2,011 million). Supply and demand for real estate and thus the yield on real estate investments between different geographical markets can be developed in different ways within different geographical markets. NP3 Fastigheter currently sees that interest in real estate investments in northern Sweden is increasing, which during the last years has driven up the prices of the properties and thus could affect the Issuer's competitive position. Furthermore, the Issuer has experienced that the Issuer's recent real estate transactions have led to a downward trend regarding the yield on the Group's properties, at the same time as real estate transaction liquidity in the Issuer's geographic market has increased. Larger regional actors changing their scope of operations or otherwise ceasing their operations may also affect the property values. If one or more of these factors were to develop negatively, the Issuer believes that it could have a high negative impact on NP3 Fastigheter's operations, earnings and financial position as this could lead to increased vacancy rates, lower future rental levels or declining yield on real estate investments. The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *high*.

Changes in value of the properties

NP3 Fastigheter's investment properties are accounted for in the balance sheet at market value and the changes in value are accounted for in the income statement. The properties are reported at fair value (Sw. *verkligt värde*) in accordance with the reporting standard IFRS, which means that each property's consolidated carrying amount corresponds to its estimated market value. Generally, the market value of a property is displayed in a value range of +/- 5-10 per cent. to reflect the uncertainty in the assumptions. As per 31 December 2024, the Group owned 554 properties and the market value of the Group's property holdings amounted to SEK 23,384 million. With an uncertainty interval of +/-10 per cent., this value is affected by SEK 2,338.4 million. The value of the properties is affected by a number of factors, partly property specific such as vacancy rate, the rental level and operating costs, partly market specific such as yield requirements and cost of capital derived from comparable transactions on the real estate market. In addition, changes in interest rates and inflation also affect yield requirements and thus the market value of the properties. If the Swedish Central Bank delays lowering its policy rate in accordance with market expectations, there is a risk that it will take longer for the market value of the properties and income from

property management to recover. The market value of the properties may also be affected by the general market conditions, where for example market deteriorations caused by tariffs and retaliatory tariffs could negatively affect the investment appetite and expected value appreciations. Both property specific deteriorations such as lower rental levels and increased vacancy rate and market specific deteriorations such as higher yield requirements may cause the Group to write-down the actual value of its properties, which would have a material adverse effect on the Issuer's financial position. The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

Rental income and the development of rents

The Issuer's property holdings accommodate a large number of tenants with approximately 2,700 lease agreements as per 31 December 2024. The majority of the rental income derive from tenants that run a commercial business. Rental income for commercial properties is in the long term affected by, for example, supply and demand in the commercial property market. The economic occupancy rate, the agreed rent level and the tenant's ability to pay will affect NP3 Fastigheter's rental income. If the economic occupancy rate or rent levels decline, for any reason, NP3 Fastigheter's earnings will be adversely affected.

The risk of fluctuations in vacancies and loss of rental income increases with the more individual large tenants a property Issuer has. On 31 December 2024, the weighted average unexpired lease term (WAULT) of the Group amounted to 4.0 years and the rental income from the ten (10) largest tenants, spread over a total of 119 agreements, corresponded to 11 per cent. of the Group's contracted rental income. The total contracted annual rental income during the financial year 2024 amounted to SEK 2,154 million corresponding to an economic occupancy rate of 93 per cent. Should one or more of NP3 Fastigheter's most important tenants not renew or extend their lease agreements after expiration, or not fulfil their obligations pursuant to the lease agreements due to for instance bankruptcy, liquidation proceedings or other unexpected events, it may lead to a decrease in rental income and an increase in vacancies, unless NP3 Fastigheter is able to receive corresponding rental income from new tenants. Rent-level risk is attributable to trends in current market rents. A long-term negative development of the market rents may have a negative impact on the Issuer. In addition, NP3 Fastigheter is dependent on that its tenants pay the rents on time, and it is thus exposed to the risk that the tenants do not fulfil their obligations, which could lead to decreased rental income. The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

Acquisitions, divestments and other transaction related risks

Acquisitions of properties are a large part of NP3 Fastigheter's ongoing business and expansion strategy. In order to carry out such acquisitions, and thereby meet its expansion strategy and make value creating property investments, NP3 Fastigheter is dependent on suitable properties being for sale on terms acceptable to the Issuer. If the demand is high for the investment objects focused on by NP3 Fastigheter, the number of companies, properties and property portfolios for sale may be limited or only available on terms that are disadvantageous to NP3 Fastigheter. Furthermore, competitors with investment strategies similar to that of NP3 Fastigheter may have access to larger financial resources and lower capital costs compared to NP3 Fastigheter. During the financial year 2024, NP3 Fastigheter acquired 50 properties with a total property value of SEK 2,087 million and in addition thereto, invested approximately SEK 569 million in its existing properties and approximately SEK 162 million in new construction projects. During the period, the Group disposed of properties with a total property value of SEK 33 million.

Acquisitions are inherently associated with risks connected to the acquired business. For example, tenants may leave, the accounting of the acquired business may be deficient and/or the operations may be subject to unforeseen environmental or tax requirements. Furthermore, other circumstances which may affect the value negatively may materialize, which in turn may negatively affect NP3 Fastigheter's operations.

Acquisitions may also be connected with risks associated with the seller. If a seller is, or ends up in, financial distress, the possibility to be successful with warranty claims may be limited. In addition, such possibility may be limited in time. Should the above risks related to the seller materialise, it could negatively affect NP3 Fastigheter's

ability to receive compensation from the seller, which could have a low negative effect on NP3 Fastigheter's earnings.

Some property acquisitions that the Issuer carries out involve estate agents or other parties acting on behalf of another party. Should disputes arise concerning commission to such intermediaries, that they act outside the scope of their assignment and/or that they provide incorrect information, it could result in increased costs for NP3 Fastigheter and have a negative effect on the Group's reputation.

In connection with property acquisitions, NP3 Fastigheter may enter into purchase agreements without having in advance secured that it has sufficient financing for the acquisition. In such event, there is a risk that funding can only be obtained at heavily increased costs, or not at all, in which case NP3 Fastigheter cannot access the acquisition and may be held liable to reimburse the seller for any damage caused.

NP3 Fastigheter's possibilities to divest parts of its property holdings on advantageous terms are dependent on the development on the property and transaction market. Should NP3 Fastigheter be required to divest parts of its property holdings to finance its operations, there is a risk that the Issuer would not be successful in divesting properties to advantageous terms or at all. In the event NP3 Fastigheter would be forced to divest all or parts of its property holdings, for example if its creditors would enforce security, it is likely that the consideration would be less than what NP3 Fastigheter would obtain in a voluntary divestment, which could have a negative effect on NP3 Fastigheter's earnings.

In connection with divestments, NP3 Fastigheter may grant a respite for payment by promissory notes. If a buyer, against which NP3 Fastigheter holds a claim, is or ends up in financial difficulties, NP3 Fastigheter's possibility to be reimbursed decreases, especially where there is no security for the claim or where the value of such security has decreased.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

Operational and maintenance costs

Operational costs, which is a material cost for NP3 Fastigheter, mainly consist of costs which are fare related, such as cost for electricity, cleaning, water, heating, property maintenance and insurance. To illustrate, for the financial year ended 31 December 2024, the Group's property operating costs amounted to SEK 385 million. Several of these goods and services can only be bought from a single operator on the market, which may affect the price. The operational costs are also subject to seasonal variations and weather conditions, such as prolonged colder periods resulting in increased costs for heating, as well as other similar unpredictable events entailing increased operational costs in relation to the Group's property portfolio. To the extent any increase in costs cannot be compensated through regulation in lease agreements, or rental increases through renegotiations of lease agreements, it may have a negative impact on NP3 Fastigheter's result.

Maintenance costs are attributable to measures required to maintain the standard of the property in the long term or to modernise it. For the financial year ended 31 December 2024, the maintenance costs amounted to SEK 43 million. The maintenance costs are also subject to seasonal variations and weather conditions, such as unexpected heavy rainfall resulting in flooding and/or water damages as well as other similar unpredictable events entailing increased maintenance costs in relation to the Group's property portfolio. Such expenses may, in order to comply with market, governmental or other legal requirements, be substantial and unexpected, and as a consequence have a material negative impact on the NP3 Fastigheter's net operating income, which is affected negatively if operational and maintenance costs are increased.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

Property development project risks

The operations of NP3 Fastigheter also comprise property development projects. As of 31 December 2024, NP3 Fastigheter had active projects with an aggregate budget of SEK 746 million. In the case of new builds or

development or refinement of existing properties, certain risks arise. Larger projects may entail major investments which may lead to an increased credit risk should the tenants be unable to fulfil their obligations towards NP3 Fastigheter, and NP3 Fastigheter in turn would be unable to find other tenants for the premises in question, or should the demand or the price of the property alter during the project. Projects may also be delayed or may entail higher costs than foreseen, which may lead to increased costs or decreased earnings. Further, NP3 Fastigheter is dependent on receiving the proper authority decisions and permits to carry out property development projects. The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

Legal and regulatory risks

Changes in tax laws

Changes in legislation regarding Issuer and property taxation, VAT, as well as other tax rules, government charges, contributions and subsidies, may affect the conditions for NP3 Fastigheter's business activities. Since these rules have historically been subject to frequent changes, further changes are expected in the future, potentially with retroactive effect. Such changes may have a significant negative effect on NP3 Fastigheter's earnings and financial position.

For example, as of 1 January 2019, a general limitation of interest deductions in the corporate sector was introduced by way of an EBITDA-rule. Under the EBITDA-rule, net interest expenses, i.e. the difference between the taxpayer's interest income and deductible interest expenses, is only deductible up to 30 per cent. of the taxpayer's EBITDA for tax purposes. The interest deductibility limitation is applied for each legal entity separately, even though there are certain possibilities to consolidate within a group, and accordingly the rules apply to all Swedish entities within the Group. In connection with the changes in the interest deduction rules, the corporate tax rate was initially reduced from 22.0 per cent. to 21.4 per cent. and, as of 1 January 2021, further reduced from 21.4 per cent. to 20.6 per cent. If the Swedish entities within NP3 Fastigheter's net interest expenses represent a substantial portion in relation to their tax EBITDA, NP3 Fastigheter's tax burden could, despite of the lowering of the corporate income tax rate, increase which would have a low negative impact on NP3 Fastigheter's operations, earnings and financial position.

Also, on 30 March 2017, a committee appointed by the Swedish government presented a law proposal that, if enacted, is likely to affect the future taxation of real estate investments. The proposal includes, inter alia, that the deferred tax liability related to the difference between tax residual value and market value on properties will be triggered upon a change of control of a real estate owning Issuer and that such a change of control should also trigger a taxable notional income in the real estate owning Issuer (to compensate for the fact that indirect sales of properties are not subject to stamp duty). The Swedish government has communicated that the law proposal is subject to further review and it is currently unclear if, and to what extent, the proposal will result in new legislation. If the proposal is enacted, it could have a medium negative effect on the tax burden of NP3 Fastigheter and therefore negatively affect its operations.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

Environmental risks and requirements

Property acquisitions, which is an important part of NP3 Fastigheter's ongoing business and expansion strategy, entail the risk of acquisition of contaminated properties. The starting point for the responsibility with respect to contaminations and other environmental damage is, according to the current environmental laws, that the business operator, current and former, bears the responsibility. The Group does not conduct any business that requires a permit according to the Environmental Code, but the Group has a small number of properties located at sites registered in the County Administrative Board's inventory of potentially contaminated and polluted areas (Sw. *EBH-stödet*). Furthermore, operations that require permit have previously been conducted at some of the Group's properties and NP3 Fastigheter may have tenants who carries out operations that require a permit.

According to the Environmental Code, a person who has contributed to pollution has a responsibility for remediation. If the operator is unable to perform or defray post-treatment of a property, the party who acquired the property, and who at the time of the acquisition knew of or should have detected the pollution is to assume responsibility. This means that claims under certain circumstances may be directed at NP3 Fastigheter for land remediation or post-treatment in the event of an occurrence or suspicion of contamination of land, catchment area or ground water for the purpose of returning the property to the condition required according to the Environmental Code. It cannot be ruled out that current or previously operated activities on the properties could incur environmental risks which would materially affect NP3 Fastigheter negatively and also result in difficulties to divest such property. Should NP3 Fastigheter be imposed to pay for cleaning-up or after treatment, it could result in increased costs and therefore have an adverse negative impact on NP3 Fastigheter's earnings.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

Dependence of laws, permits and decisions

The Issuer's business is regulated and affected by a large number of laws and regulations such as the Planning and Building Act (Sw. *Plan- och bygglagen*), building standards, security regulations, rules regarding permitted construction materials, antiquarian building classification and various forms of cultural labelling, lettings and rent regulations. The Issuer conducts its business and real estate development in accordance with its interpretation of current laws and regulations. There is a risk that the Issuer's interpretation of applicable laws and regulations is incorrect or that the interpretations may change in the future. In order for the Group's properties to be used and developed as desired, various permits and decisions can be required, including local plans and various kinds of property registrations, which are approved and given by, for instance, municipalities and authorities, and which are resolved on both a political and a civil servant level. There is a risk that NP3 Fastigheter in the future is not granted the permits or obtain the decisions necessary to conduct and develop its business in a desired manner. Further, decisions may be appealed and, as a result thereof, delayed significantly and the established decision-making practice or the political will or direction in the future may change in an adverse manner for NP3 Fastigheter. There is a risk that changed laws, regulations and requirements from authorities regarding the environmental area applicable to the Group's or its tenant's operations could result in increased costs and that properties can not be utilised in the intended manner, which could have a material negative impact on NP3 Fastigheter's operations and earnings.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

Risks related to the Issuer's financial situation

Interest rate risks and risks related to changes in value of interest rate derivatives

The interest expense for interest-bearing debt is one of the Issuer's largest cost items. Interest rate risk is defined as the risk that changes in interest rates affecting NP3 Fastigheter's financing costs. The interest rate risk is attributable to the development of current interest rates. The average interest rate of the Issuer's interest-bearing liabilities was 4.38 per cent. as of 31 December 2024.

Several of the Issuer's credit agreements bear floating interest rates. As part of managing the interest rate risk, the Issuer uses derivatives in the form of interest rate swaps. The derivatives are accounted for in the balance sheet at actual value and the changes in value are accounted for in the income statement. As of 31 December 2024, the Issuer's derivative portfolio amounted to SEK 8,425 million.

As the market interest rate changes, a theoretical surplus or undervaluation of the interest rate derivatives arises, which does not affect the cash flow. A negative development in interest rates for NP3 Fastigheter and/or if the market interest rates fall leading to a decrease of the market value of NP3 Fastigheter's interest rate derivatives, could have a material negative effect on NP3 Fastigheter's earnings and financial position. The Group estimates

that an increase of 1 percentage point of STIBOR as of 31 December 2024, would increase the Group's interest expense by SEK 42 million, based on existing credit agreements as per 31 December 2024.

The Issuer considers that the probability of the above risks occurring is *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

Refinancing risks

Refinancing risk refers to the risk of not being able to obtain financing or only obtaining financing on terms that are disadvantageous for the Issuer. Property companies often have significant levels of indebtedness. The Issuer finances its business primarily through a combination of borrowings from credit institutions, listed Notes, other liabilities and deferred tax liabilities as well as shareholder's equity. As of 31 December 2024, the Issuer's interest-bearing debt amounted to in total SEK 12,587 million, which primarily related to bank loans (SEK 10,145 million), commercial papers (SEK 875 million) and corporate bond loans (SEK 1,601 million).

There is a risk that NP3 Fastigheter cannot secure sufficient funds to refinance its debts that are due, or that such refinancing can only be obtained on terms that are disadvantageous to NP3 Fastigheter. Should the Issuer fail to obtain necessary capital in the future, it could increase the Group's costs and therefore have a negative impact on the Issuer's result.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

Liquidity risks

Liquidity risk refers to the risk that the Issuer does not have cash or credit facilities to cover their payment commitments, including interest payments, without the cost of obtaining cash increasing significantly. NP3 Fastigheter is in a phase of expansion, which means that the Issuer's liquidity requirements will increase. NP3 Fastigheter's available liquidity as of 31 December 2024 amounted to SEK 97 million in the form of liquid assets. In addition, the Issuer's credit facilities as of 31 December 2024 amounted to SEK 383 million of which SEK 0 (zero) was utilized as of 31 December 2024. There is a risk that the Issuer's liquidity sources prove to be insufficient, which would have a material negative impact on the Issuer's financial position and NP3 Fastigheter's ability to fulfill its obligations under the Notes.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

Credits risks

The Issuer carries a credit risk that its counterparties cannot fulfil their obligations. In addition to the Issuer's tenants, such counterparties exist in connection with placement of excess liquidity, interest swap arrangements, issuing of buyer promissory notes and short term and long-term credit facility arrangements. If NP3 Fastigheter cannot successfully mitigate its credit risk or if its counterparties cannot fulfill their obligations towards NP3 Fastigheter this could negatively affect the Issuer's liquidity and therefore increase NP3 Fastigheter's need for financing. There is a risk that NP3 Fastigheter's counterparties cannot fulfil its financial obligations towards the Group, which could have a negative impact on NP3 Fastigheter's earnings and financial position.

The Issuer considers that the probability of the above risks occurring is *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

RISK FACTORS SPECIFIC AND MATERIAL TO THE NOTES

Risks relating to the nature of the Notes

Unsecured obligations and structural subordination

The Notes constitute unsecured debt obligations of the Company. If the Company will be subject to any foreclosure, dissolution, winding-up, liquidation, bankruptcy or other insolvency proceedings, the Noteholders normally receive payment after any prioritised creditors, including those which are mandatorily preferred by law, have been paid in full. Further, following prioritised creditors receiving payment in full, the Noteholders will have

an unsecured claim against the Company for the amounts due under or in respect of the Notes, which means that the Noteholders normally would receive payment *pro rata* with other unsecured creditors.

The Group has, as part of its financing, incurred debts to credit institutions and other lenders, and security over e.g. Group Companies and certain real properties in form of share pledges and pledges over mortgage certificates has been provided in relation thereto. Such secured loans normally constitute a preferential claim on the relevant member of the Group. Subject to the provisions set out in the terms and conditions of the Notes, the Issuer or any member of the Group may seek further financing in which case further pledges, as part of such new loans, may be provided. In addition, the Issuer may retain, provide or renew security over certain of its current or future assets to secure, *inter alia*, bank loans, either via the Issuer itself or any other member of the Group, with security interests normally constituting a preferential claim on the borrower. No present or future shareholder or subsidiary of the Issuer will guarantee the Issuer's obligations under the Notes.

Furthermore, the terms and conditions of the Notes allow the Group to incur certain additional debt. If the Issuer's subsidiaries incur debt, the right to payment under the Notes will be structurally subordinated to the right of payment relating to debt incurred by subsidiaries of the Issuer, which could have a negative impact on the Noteholders' recovery under the Notes.

The Issuer considers that the probability of the risks occurring is low. If the risks would materialise, the Issuer considers the potential negative impact to be high.

Dependence on subsidiaries and joint ventures

A significant part of the Group's assets and revenues relate to the Issuer's subsidiaries and joint ventures. Accordingly, the Issuer is dependent upon receipt of sufficient income related to the operation of and the ownership in such entities to enable it to make payments under the Notes. The Issuer's subsidiaries and joint ventures are legally separate and distinct from the Issuer and have no obligation to pay amounts due with respect to the Issuer's obligations and commitments, including the Notes, or to make funds available for such payments. The ability of the Issuer's subsidiaries and joint ventures to make such payments to the Issuer is subject to, among other things, the availability of funds.

Should the value of the business conducted in the subsidiaries or the associated companies decrease, and/or should the Issuer not receive sufficient income from its subsidiaries and associated companies, an investor's ability to receive payment under the Terms and Conditions may be adversely affected. The Issuer considers the probability of the risk occurring to be low. If the risk were to occur, the Company considers the potential negative impact to be high.

Notes with floating interest rate

Notes issued with a floating interest rate are normally issued as FRNs (Floating Rate Notes). The coupon is calculated on the basis of an interest rate corresponding to the Base Rate plus the applicable Margin, where the Base Rate is adjusted before each interest rate period whilst the Margin is fixed throughout the term. If the Base Rate, for example, is constituted of STIBOR 3 months, it is the market's perception of the development of the 3-month interest rates, in connection with the Margin, that constitutes the basis for calculating the market value of the placement. A changed expectation in the market regarding at what level the Base Rate will be set at when determining the interest rate in the future will, hence, risk lowering the market value on Notes with a floating rate.

The Issuer considers that the probability of the above risks occurring is medium. If the risks would materialise, the Issuer considers the potential negative impact to be medium.

Notes with fixed interest rate

Investments in Notes with fixed interest rate involve a risk that the market price of the Notes may be negatively affected as a result of changes in the market interest rates. Generally, longer term of the securities means a higher risk. The Issuer considers that the probability of the above risks occurring is medium. If the risks would materialise, the Issuer considers the potential negative impact to be medium.

Currency risks

The Notes are denominated and payable in SEK or EUR. If Noteholders measure their investment return by reference to a currency other than SEK or EUR (as applicable), an investment in the Notes will entail foreign exchange-related risks. For example, possible significant changes in the value of SEK or EUR (as applicable) relative to the currency by reference to which investors measure the return on their investments could cause a decrease in the effective yield of the Notes below their stated coupon rates and could result in a loss to investors when the return on the Notes is translated into the currency by reference to which the investors measure the return on their investments. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, there is a risk that investors may receive less interest or principal than expected, or no interest or principal at all. The Issuer considers that the probability of the above risks occurring is medium. If the risks would materialise, the Issuer considers the potential negative impact to be medium.

Risks related to the use of proceeds from an issue of Green Notes

The Issuer may issue Green Notes under the MTN Programme and in such case the net proceeds of such issue shall be used in accordance with the applicable Green Bond Framework. There is a risk that an amount equal to the net proceeds from Green Notes can only partially or not at all be used to finance or refinance projects that fulfil the conditions under the Green Bond Framework applicable to certain Green Notes due to circumstances beyond NP3 Fastigheter's control. If an asset is disposed of that has been financed with net proceeds from Green Notes for which the Green Bond Framework (2023) is applicable, NP3 Fastigheter may reinvest an amount equal to the funds originally allocated to such asset if such reinvestment fulfils the criteria of the applicable Green Bond Framework. There is a risk that funds for such reinvestment can only partially or not at all be used to finance assets which at that time fulfil the criteria of the applicable Green Bond Framework on terms that are financially favourable to NP3 Fastigheter.

Regardless of whether or not all net proceeds from Green Notes can be used to finance or refinance projects according to the Green Bond Framework (2023), respectively, interest will continue to accrue on the Loan. If NP3 Fastigheter is incapable of using the entire net proceeds from the Green Notes for such financing or refinancing, for example if the requirements under a certificate such as GreenBuilding are materially amended after the issue of Green Notes so as to demand financially unmotivated investments by NP3 Fastigheter, it may have a negative impact on NP3 Fastigheter's ability to pay interest. There is also a risk that projects financed by the net proceeds from Green Notes only partially or not at all achieve the environmental benefits that motivated the investment, which risks deteriorating NP3 Fastigheter's reputation and may contravene the purpose of an investment in Green Notes. Further, a failure to apply the proceeds in accordance with the applicable Green Bond Framework could result in Noteholders in Green Notes being in breach of investment criteria or guidelines with which an investor is required to comply, which could result in remedies under the relevant investment criteria or guidelines, leading to claims or reputational damage.

The Issuer considers that the probability of the above risks occurring is low. If the risks would materialise, the Issuer considers the potential negative impact to be medium.

Risks related to the classification of Green Notes as green

The Green Bond Framework (2023) is aligned with the GBP (2021) issued by the International Capital Market Association and the GLP issued by *inter alios* the International Capital Market Association. As there is currently no clear definition of as to what constitutes, a "green" or an equivalently-labelled project, there is a risk that any projects, asset or uses defined in the applicable Green Bond Framework will not meet current or future investor expectations regarding such "green" or other equivalently-labelled performance objectives. There is also a risk that the definition of what constitutes Green Eligible Projects (2023) changes as a result of changes in laws, regulations or industry standards such as EPC A or B, GreenBuilding or Miljöbyggnad Silver. If an asset is disposed of that was financed with net proceeds from Green Notes to which the Green Bond Framework (2023) apply, the Issuer may reinvest an amount equal to the funds originally allocated to the asset if such reinvestment pertains to Green Eligible Projects (2023). There is a risk that funds for such reinvestment can only partially be

used to finance assets that at that time constitute Green Eligible Projects (2023) on commercially viable terms, if at all.

The European Commission has adopted the taxonomy regulation (Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment) which entered into force in full on 1 January 2023 (the “**Taxonomy Regulation**”). In addition, and the European Commission also adopted the EUGB regulation (Regulation (EU) 2023/2631 on European Green Bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds) in November 2023 (the “**EUGB Regulation**”). The EUGB Regulation aims to create a voluntary EU standard for green bonds. As of the date of this Prospectus, there is uncertainty as to how the Taxonomy Regulation and the EUGB Regulation will fully affect green bond frameworks and the classification of bonds as “green”. The Taxonomy Regulation and EUGB Regulation may affect the assessment of the Green Bond Framework (2023) and the Green Notes and should the Issuer not comply with the requirements under the Taxonomy Regulation and/or EUGB Regulation with respect to the Green Notes, the Green Notes may no longer qualify to be classified as “green”. As the market conditions for green bonds is rapidly changing, there is a risk that current or future investor expectations will not be met which could negatively affect the secondary trading of the Notes. This could lead to Noteholders being unable to trade its Notes at attractive terms, or at all, or that any possession of Notes is connected to reputational damage.

If the Issuer does not meet the terms set out in the applicable Green Bond Framework in relation to a certain Loan or if a certain Loan ceases to be classified as “green” under the Taxonomy Regulation or EUGB Regulation, it does not constitute an Event of Default under the General Terms and Conditions. The relevant Noteholders are in such case not entitled to early repayment or repurchase of MTN or other compensation, which may result in the value of such Loans decreasing. Further, neither the Issuer nor the Dealers have any obligation or responsibility to provide the Noteholders with an updated or revised Green Bond Framework after the date of publication of the applicable Green Bond Framework.

The Issuer considers that the probability of the above risks occurring is low. If the risks would materialise, the Issuer considers the potential negative impact to be medium.

Risks related to Sustainability-Linked Notes

The Issuer may issue Sustainability-Linked Notes in accordance with the Loan Terms under this MTN Programme. Sustainability-Linked Notes shall follow the criteria set out in the relevant Sustainability-Linked Bond Framework in respect of a Loan and are linked to certain sustainability performance targets (Sustainability Performance Targets). If the Sustainability-Linked Interest Increase or Sustainability-Linked Redemption Premium is applicable to certain Sustainability-Linked Notes and the applicable Sustainability Performance Targets in respect of that Loan are met, the interest rate will not be increased and no premium will be applicable to the relevant redemption amount, which could have a negatively effect on an investment in the Notes. Correspondingly, if the Sustainability-Linked Interest Decrease is applicable to certain Sustainability-Linked Notes and the Sustainability Performance Targets in respect of that Loan are met, the interest rate will be decreased.

Furthermore, there are no guarantees that an investment in Sustainability-Linked Notes will meet an investor’s requirements, preferences or specific investment mandates regarding investments in green or sustainability-linked assets. Neither the Issuer nor any other person provide any assurances or declarations as to the Group’s future performance in relation to any relevant Sustainability Performance Targets and the proceeds from any issuance of Sustainability-Linked Notes may be applied towards general corporate purposes. If the Issuer does not meet the relevant Sustainability Performance Targets as set out in the applicable Sustainability-Linked Bond Framework in relation to a certain Loan, it does not constitute an Event of Default under the General Terms and Conditions. Failure to meet the Sustainability Performance Targets could also have a negative impact on the Group’s reputation and in turn affect the Group’s opportunities to attract future investors.

There is an uncertainty to what extent the Taxonomy Regulation and EUGB Regulation may affect the Sustainability-Linked Bond Framework and the classification of any Sustainability-Linked Notes. Investors should note that the EUGB Regulation, as it currently stands, includes optional reporting templates for sustainability-

linked bonds, and ongoing legislative developments within the EU may result in further regulation applicable to such instruments, which may supersede or otherwise not be aligned with the relevant Sustainability-Linked Bond Framework. Should the Taxonomy Regulation, EUGB Regulation or other future rules or regulations no longer classify Sustainability-Linked Notes in the same way as per the date of this Prospectus due to e.g. the type of Sustainability Performance Targets the Issuer chooses to include in the Sustainability-Linked Bond Framework, it could have a material adverse effect on an investment in the Notes. This could also lead to Noteholders being unable to trade its Notes at attractive terms, or at all, or that any possession of Notes is connected to reputational damage.

If the Issuer does not meet the terms set out in the applicable Sustainability-Linked Bond Framework in relation to a certain Loan or if a certain Loan ceases to be classified in the same way as per the relevant issue date of such Loan under the Taxonomy Regulation, it does not constitute an Event of Default under the General Terms and Conditions. The relevant Noteholders are in such case not entitled to early repayment or repurchase of MTN or other compensation, which may result in the value of such Loans will be decreased.

The Issuer considers that the probability of the above risks occurring is low. If the risks would materialise, the Issuer considers the potential negative impact to be medium.

Other risks relating to the Notes

Risks relating to benchmarks

The Notes' value depends on several factors, one of the more significant over time being the level of market interest. The Notes may bear a floating rate interest comprising a base rate such as STIBOR and EURIBOR plus a certain margin and the interest rate is therefore adjusted for changes in the level of the general interest rate. Hence, there is a risk that increased general interest rate levels significantly affect the market value of the Notes. The determining interest rate benchmarks, such as STIBOR and EURIBOR has been subject to regulatory changes such as the Benchmarks Regulation. The implementation of the Benchmarks Regulation has led to that certain previously used benchmarks, such as LIBOR has been discontinued, resulting in that, among others, existing financing arrangements will have to be renegotiated or terminated. There is a risk that also these Base Rates will be discontinued, or that alternative benchmark rates will dominate market practice, leading to uncertainties in relation to the interest rate payable in relation to the Notes. In accordance with the Loan Terms, Base Rates may be replaced following certain events, e.g. if such base rate ceases to be calculated or administrated (defined in the Loan Terms as a Base Rate Event). Increased or altered regulatory requirements and risks associated with any replacement of a Base Rate following a Base Rate Event involve inherent risks, as the effects cannot be fully assessed at this point in time which could result in an adverse negative effect on an investment in the Notes.

The Issuer considers that the probability of the above risks occurring is medium. If the risks would materialise, the Issuer considers the potential negative impact to be medium.

Risks related to the Noteholders' rights and representation

The agent's right to represent noteholders in formal proceedings in Sweden (such as bankruptcies, company reorganisations or upon enforcement of security) has recently been questioned and there has been a case where a court has held that such right does not exist, meaning that the noteholders, through the agent, were unable to take actions against the issuer. Although the relevant case law on this subject is, as of now, non-precedential, if such judgments should continue to be upheld by the justice system and/or if the regulators should not intervene and include the agent's right to represent noteholders in relevant legislation, it may become more difficult for noteholders to protect their rights under the terms of the Notes in formal court proceedings.

- (a) if at a Noteholders' Meeting, attend the meeting in person or by telephone conference (or appear through duly authorised representatives); or
 - (b) if in respect of a Written Procedure, reply to the request.
- 14.8 If a quorum does not exist at a Noteholders' Meeting or in respect of a Written Procedure, the Agent or the Issuer shall convene a second Noteholders' Meeting (in accordance with Clause 15.1) or initiate a second Written Procedure (in accordance with Clause 16.1), as the case may be, provided that the relevant proposal has not been withdrawn by the person(s) who initiated the procedure for Noteholders' consent. The quorum requirement in Clause 14.7 shall not apply to such second Noteholders' Meeting or Written Procedure.
- 14.9 If a quorum exists for some but not all of the matters to be dealt with at a Noteholders' Meeting or by a Written Procedure, decisions may be taken in the matters for which a quorum exists.
- 14.10 Any decision which extends or increases the obligations of the Issuer, the Agent or the relevant Issuing Dealer, or limits, reduces or extinguishes the rights or benefits of the Issuer, the Agent or the relevant Issuing Dealer, under the Loan Terms shall be subject to the Issuer's, the Agent's or the relevant Issuing Dealer's consent, as appropriate.
- 14.11 A Noteholder holding more than one Note under a Loan need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- 14.12 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Noteholder under a Loan for or as inducement to any consent under the Loan Terms, unless such consideration is offered to all Noteholders that consent at the relevant Noteholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.

- 14.13 A matter decided at a duly convened and held Noteholders' Meeting or by way of Written Procedure is binding on all Noteholders under a Loan, irrespective of them being present or represented at the Noteholders' Meeting or responding in the Written Procedure. The Noteholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other Noteholders.
- 14.14 All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Noteholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- 14.15 If a decision shall be taken by the Noteholders on a matter relating to the Loan Terms, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Notes owned by Group Companies or (to the knowledge of the Issuer) Affiliates, irrespective of whether such person is directly registered as owner of such Notes. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible to determine whether a Note is owned by a Group Company or an Affiliate.
- 14.16 Information about decisions taken at a Noteholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the Noteholders under the Loan and published on the website of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Noteholders' Meeting or Written Procedure shall at the request of a Noteholder under the Loan be sent to it by the Issuer or the Agent, as applicable.

15 NOTEHOLDERS' MEETING

- 15.1 The Agent shall convene a Noteholders' Meeting by sending a notice thereof to each Noteholder of the Loan no later than five (5) Business Days after receipt of a request from the Issuer or the Noteholder(s) (or such later date as may be necessary for technical or administrative reasons). If the Noteholders' Meeting has been requested by the Noteholder(s), the Agent shall send a copy of the notice to the Issuer.
- 15.2 Should the Issuer want to replace the Agent, it may (i) convene a Noteholders' Meeting in accordance with Clause 15.1 or (ii) instigate a Written Procedure by sending communication in accordance with Clause 16.1. After a request from the Noteholders pursuant to Clause 19.4.3, the Issuer shall no later than five (5) Business Days after receipt of such request (or such later date as may be necessary for technical or administrative reasons) convene a Noteholders' Meeting in accordance with Clause 15.1. The Issuer shall inform the Agent before a notice for a Noteholders' Meeting or communication relating to a Written Procedure where the Agent is proposed to be replaced is sent and supply to the Agent a copy of the dispatched notice or communication.
- 15.3 The notice pursuant to Clause 15.1 shall include (i) time for the meeting, (ii) place for the meeting, (iii) a specification of the Business Day on which a person must be registered as a Noteholder (or other beneficial owner pursuant to Clause 4 (*Right to act on behalf of a Noteholder*)) in order to be entitled to exercise voting rights (such Business Day not to fall earlier than the effective date of the notice pursuant to Clause 15.1) (iv) agenda for the meeting (including each request for a decision by the Noteholders) and (v) a form of power of attorney. The reasons for, and contents of, each proposal as well as any applicable conditions and conditions precedent shall be specified in the notice. If a proposal concerns an amendment to any Loan Terms, such proposed amendment must always be set out in detail. Only matters that have been included in the notice may be resolved upon at the Noteholders' Meeting. Should prior notification by the Noteholders be required in order to attend the Noteholders' Meeting, such requirement shall be included in the notice.
- 15.4 The Noteholders' Meeting shall be held no earlier than ten (10) Business Days and no later than twenty (20) Business Days after the effective date of the notice.

- 15.5 If the Agent, in breach of these General Terms and Conditions, has not convened a Noteholders' Meeting within five (5) Business Days after having received such notice, the requesting person may convene the Noteholders' Meeting itself. If the requesting person is a Noteholder, the Issuer shall upon request from such Noteholder provide the Noteholder with necessary information from the register kept by the CSD and, if no person to open the Noteholders' Meeting has been appointed by the Agent, the meeting shall be opened by a person appointed by the requesting person.
- 15.6 At a Noteholders' Meeting, the Issuer, the Noteholders (or the Noteholders' representatives/proxies), the Agent and the Administrative Agent for the relevant Loan may attend along with each of their representatives, counsels and assistants. Further, the directors of the board, the managing director and other officials of the Issuer and the Issuer's auditors may attend the Noteholders' Meeting. The Noteholders' Meeting may decide that further individuals may attend. If a representative/proxy shall attend the Noteholders' Meeting instead of a Noteholder, the representative/proxy shall present a duly executed proxy or other document establishing its authority to represent the Noteholder.
- 15.7 Without amending or varying these General Terms and Conditions, the Agent may, in consultation with the Administrative Agent for the relevant Loan, prescribe such further regulations regarding the convening and holding of a Noteholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Noteholders to vote without attending the meeting in person.

16 WRITTEN PROCEDURE

- 16.1 The Agent shall instigate a Written Procedure no later than five (5) Business Days after receipt of a request from the Issuer or the Noteholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such person who is registered as a Noteholder for the Loan on the Record Date prior to the date on which the communication is sent. If the Written Procedure has been requested by the Noteholder(s), the Agent shall send a copy of the notice to the Issuer.
- 16.2 Should the Issuer want to replace the Agent, it may send a communication in accordance with Clause 16.1 to each Noteholder under the relevant Loan with a copy to the Agent.
- 16.3 A communication pursuant to Clause 16.1 shall include (i) each request for a decision by the Noteholders, (ii) a description of the reasons for each request, (iii) a specification of the Business Day on which a person must be registered as a Noteholder (or other authorised holder pursuant to Clause 4 (*Right to act on behalf of a Noteholder*)) in order to be entitled to exercise voting rights in respect of the Loan (such Business Day not to fall earlier than the effective date of the communication pursuant to Clause 16.1), (iv) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney, and (v) the stipulated time period within which the Noteholder must reply to the request (such time period to last at least ten (10) Business Days but not more than twenty (20) Business Days from the communication pursuant to Clause 16.1). The reasons for, and contents of, each proposal as well as any applicable conditions and conditions precedent shall be specified in the notice. If a proposal concerns an amendment to any Loan Terms, such proposed amendment must always be set out in detail. If the voting shall be made electronically, instructions for such voting shall be included in the communication.
- 16.4 If the Agent, in breach of these General Terms and Conditions, has not instigated a Written Procedure within five (5) Business Days after having received such notice, the requesting person may instigate a Written Procedure itself. If the requesting person is a Noteholder of the Loan, the Issuer shall upon request from such Noteholder provide the Noteholder with necessary information from the register kept by the CSD.

- 16.5 When the requisite majority consents of the total Adjusted Nominal Amount of a Loan pursuant to Clauses 14.5 and 14.6 have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 14.5 or 14.6, as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

17 AMENDMENTS AND WAIVERS

- 17.1 The Issuer, the Agent and the Issuing Dealers may agree on adjustments to clear and obvious errors in these General Terms and Conditions.
- 17.2 The Issuer, the Agent and the Issuing Dealer(s) for a Loan may agree on adjustments to clear and obvious errors in the Final Terms.
- 17.3 Changes to, or waivers of, Loan Terms in cases other than those set forth in sections 17.1 to 17.2, may be made by the Issuer and the Agent (acting on behalf of the Noteholders) agreeing in writing to amend any Loan Terms or waive any provision in any Loan Terms, provided that the Agent is satisfied that such amendment or waiver:
- (a) is not detrimental to the interest of the Noteholders, or is made solely for the purpose of rectifying obvious errors and mistakes;
 - (b) is made pursuant to Clause 18 (*Replacement of Base Rate*);
 - (c) is required by applicable law, a court ruling or a decision by a relevant authority; or
 - (d) has been duly approved by the Noteholders in accordance with Clause 14 (*Decisions by Noteholders*).
- 17.4 The Issuer and the Dealers under the MTN Programme may from time to time agree to increase or decrease the Framework Amount. Information about such amendment shall promptly be published by the Issuer through a press release.
- 17.5 A new dealer may be engaged by agreement between the Issuer, the dealer in question and the Dealers. A Dealer may resign as a Dealer, but an Administrative Agent in respect of a specific Loan may not resign unless a new Administrative Agent is appointed in its place.
- 17.6 The Agent shall promptly notify the Noteholders and the Administrative Agent of any amendments or waivers made in accordance with Clause 17.1, setting out the date from which the amendment or waiver will be effective. The Issuer shall ensure that any amendments to the Loan Terms are published in the manner stipulated in Clause 9.3.4 and that any amendments to Loan Terms are duly registered with the CSD and each other relevant organisation or authority.
- 17.7 An amendment or waiver to Loan Terms shall take effect on the date determined by the Noteholders' Meeting, in the Written Procedure or by the Agent, as the case may be.

18 REPLACEMENT OF BASE RATE

18.1 General

- 18.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Noteholders in accordance with the provisions of this Clause 18 shall at all times be made by such Independent Adviser, the Issuer or the Noteholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.

- 18.1.2 If a Base Rate Event has occurred, this Clause 18 shall take precedent over the fallbacks set out in paragraphs (b) to (d) of the definition of STIBOR and paragraphs (b) to (d) of the definition of EURIBOR.

18.2 Definitions

In this Clause 18:

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“**Base Rate Amendments**” has the meaning set forth in Clause 18.3.4.

“**Base Rate Event**” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period of the relevant Loan) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period of the relevant Loan) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer, the Agent or the Administrative Agent to calculate any payments due to be made to any Noteholder using the applicable Base Rate (for the relevant Interest Period of the relevant Loan) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period of the relevant Loan);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (Sw. *krishanteringsregelverket*), or in respect of EURIBOR, from the equivalent entity with insolvency or resolution powers over the Base Rate Administrator, containing the information referred to in (b) above; or
- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in (b) to (e) above will occur within six (6) months.

“Base Rate Event Announcement” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“Independent Adviser” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“Relevant Nominating Body” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“Successor Base Rate” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Notes, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply mutatis mutandis to such new Successor Base Rate.

18.3 **Determination of Base Rate, Adjustment Spread and Base Rate Amendments**

- 18.3.1 Without prejudice to Clause 18.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer’s expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 18.3.2.
- 18.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer’s expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate.
- 18.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 18.3.2, the Noteholders shall, if so decided at a Noteholders’ Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer’s expense) for the purposes set forth in Clause 18.3.1. If an Event of Default has occurred and is continuing, or if the Issuer fails to carry out any other actions set forth in Clause 18.3 to 18.6, the Agent (acting on the instructions of the Noteholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer’s cooperation.
- 18.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice (**“Base Rate Amendments”**).
- 18.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Interest Determination Date in relation to the next succeeding Interest Period, they shall become effective with effect from and including the

commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

18.4 **Interim measures**

18.4.1 If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Interest Determination Date in relation to the next succeeding Interest Period or if such Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Interest Determination Date, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

18.4.2 For the avoidance of doubt, Clause 18.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 18. This will however not limit the application of Clause 18.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 18 have been taken, but without success.

18.5 **Notices etc.**

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Administrative Agent and the Noteholders in accordance with Clause 22 (*Notices and press releases*) and the CSD. The notice shall also include information about the effective date of the amendments. If the Notes are admitted to trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

18.6 **Variation upon replacement of Base Rate**

18.6.1 No later than giving the Agent notice pursuant to Clause 18.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 18.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 18. The Successor Base Rate, the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Administrative Agent and the Noteholders.

18.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 18.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Noteholders, without undue delay effect such amendments to the Loan Terms as may be required by the Issuer in order to give effect to this Clause 18.

18.6.3 The Agent and the Administrative Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 18. Neither the Agent nor the Administrative Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Administrative Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional

duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Administrative Agent in the Loan Terms.

18.7 Limitation of liability for the Independent Adviser

Any Independent Adviser appointed pursuant to Clause 18.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Loan Terms, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

19 APPOINTMENT AND REPLACEMENT OF THE AGENT

19.1 Appointment of Agent

19.1.1 By subscribing for Notes, each initial Noteholder appoints the Agent to act as its agent in all matters relating to the Notes and the Loan Terms, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these General Terms and Conditions) in any legal or arbitration proceedings relating to the Notes held by such Noteholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer. By acquiring Notes, each subsequent Noteholder confirms such appointment and authorisation for the Agent to act on its behalf.

19.1.2 Each Noteholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Loan Terms. The Agent is under no obligation to represent a Noteholder which does not comply with such request.

19.1.3 The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Loan Terms.

19.1.4 The Agent is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Loan Terms and the Agency Agreement and the Agent's obligations as Agent under the Loan Terms are conditioned upon the due payment of such fees and indemnifications.

19.1.5 The Agent may act as agent or trustee for several issues of securities issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

19.2 Duties of the Agent

19.2.1 The Agent shall represent the Noteholders in accordance with the Loan Terms. However, the Agent is not responsible for the execution, validity, perfection or enforceability of the Loan Terms. The Agent shall keep the latest version of these General Terms and Conditions and the Final Terms available on the website of the Agent.

19.2.2 Upon request by a Noteholder, the Agent may distribute to the Noteholders under the Loan any information from such Noteholder which relates to the Notes under a Loan (at the discretion of the Agent). The Agent may require that the requesting Noteholder reimburses any costs or expenses incurred, or to be incurred, by the Agent in doing so (including a reasonable fee for the work of the Agent) before any such information is distributed. The Agent may upon request by a Noteholder disclose the identity of any other Noteholder who has consented to the Agent in doing so.

19.2.3 When acting in accordance with the Loan Terms, the Agent is always acting with binding effect on behalf of the Noteholders. The Agent shall carry out its duties under the Loan Terms in a reasonable, proficient and professional manner, with reasonable care and skill.

- 19.2.4 The Agent's duties under the Loan Terms are solely mechanical and administrative in nature and the Agent only acts in accordance with the Loan Terms and upon instructions from the Noteholders, unless otherwise set out in the Loan Terms. In particular, the Agent is not acting as an advisor (whether legal, financial or otherwise) to the Noteholders of any outstanding Loan or any other person and no opinion or advice by the Agent will be binding on the Noteholders.
- 19.2.5 The Agent is entitled to delegate its duties to other professional parties, but the Agent shall remain liable for the actions of such parties under the Loan Terms.
- 19.2.6 The Agent shall treat all Noteholders under a Loan equally and, when acting pursuant to the Loan Terms, act with regard only to the interests of the Noteholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Loan Terms.
- 19.2.7 The Agent shall, subject to Clause 19.2.7, be entitled to disclose to the Noteholders of a Loan any event or circumstance directly or indirectly relating to the Issuer or the Notes. Notwithstanding the foregoing, the Agent may if it considers it to be beneficial to the interests of the Noteholders delay disclosure or refrain from disclosing certain information other than in respect of an Event of Default that has occurred and is continuing.
- 19.2.8 The Agent is entitled to engage external experts when carrying out its duties under the Loan Terms. The Issuer shall on demand by the Agent pay all costs for external experts engaged after the occurrence of an Event of Default, or for the purpose of investigating or considering (i) an event which the Agent reasonably believes is or may lead to an Event of Default (ii) a matter relating to the Issuer which the Agent reasonably believes may be detrimental to the interests of the Noteholders under any Loan Terms (iii) when the Agent is to make a determination under any Loan Terms, (iv) in connection with any Noteholders' Meeting or Written Procedure or (v) as otherwise agreed between the Issuer and the Agent. Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the relevant Loan Terms shall be distributed in accordance with Clause 13 (*Distribution of proceeds*).
- 19.2.9 The Agent shall enter into agreements with the CSD, and comply with such agreement and the CSD regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under any Loan Terms.
- 19.2.10 Notwithstanding any other provision of any Loan Terms to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.
- 19.2.11 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Noteholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- 19.2.12 The Agent shall give a notice to the Noteholders (i) before it ceases to perform its obligations under any Loan Terms by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under such Loan Terms or the Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 19.2.11.
- 19.2.13 Unless it has actual knowledge to the contrary, the Agent may assume that all information provided by or on behalf of the Issuer (including by its advisors) is correct, true and complete in all aspects. The Agent is not liable for information provided to the Noteholders by or on behalf of the Issuer or by any other person.

19.3 **Limited liability for the Agent**

- 19.3.1 The Agent will not be liable to the Noteholders for damage or loss caused by any action taken or omitted by it under or in connection with any Loan Terms, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect loss.
- 19.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts engaged by the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Noteholders to delay the action in order to first obtain instructions from the Noteholders.
- 19.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to any Loan Terms to be paid by the Agent to the Noteholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 19.3.4 The Agent shall have no liability to the Noteholders for damage caused by the Agent acting in accordance with instructions of the Noteholders given in accordance with Clause 14 (*Decisions by Noteholders*) or a demand by Noteholders given pursuant to Clause 12.1.
- 19.3.5 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, any Loan Terms shall not be subject to set-off against the obligations of the Issuer to the Noteholders under such Loan Terms.

19.4 **Replacement of the Agent**

- 19.4.1 Subject to Clause 19.4.6, the Agent may resign for all Loans, but not part of all Loans, made under this MTN Programme by giving notice to the Issuer and the Noteholders, in which case the Noteholders shall appoint a successor Agent at a Noteholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- 19.4.2 Subject to Clause 19.4.6, if the Agent is Insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- 19.4.3 A Noteholder (or Noteholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount of all outstanding Loans may, by notice to the Issuer (such notice may only be validly given by a person who is a Noteholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Noteholders, be given by them jointly), require that a Noteholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Noteholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Noteholders that the Agent be dismissed and a new Agent appointed.
- 19.4.4 If the Noteholders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of *resignation* was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Noteholders, the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- 19.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and *provide* such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Loan Terms of all outstanding Loans.

- 19.4.6 The Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and acceptance by *such* successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent.
- 19.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Loan Terms of all outstanding Loans, but shall remain entitled to the benefit of the Loan Terms and remain liable under the Loan Terms in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the relevant Noteholders shall have the same rights and obligations amongst themselves under the respective Loan Terms as they would have had if such successor had been the original Agent.

Such steps may only be taken by the Agent.
- 20.2 Clause 20.1 shall not apply if the Agent has been instructed by the Noteholders for the relevant Loan in accordance with the Loan Terms to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Noteholder to provide documents in accordance with Clause 19.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent under the Loan Terms or the Agency Agreement or by any reason described in Clause 19.2.11 such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 19.2.12 before a Noteholder may take any action referred to in Clause 20.1.
- 20.3 The provisions of Clause 20.1 shall not in any way limit an individual Noteholder's right to claim and enforce payments which are due to it under Clause 8.3 (*Mandatory repurchase due to a Change of Control Event or a De-listing (put option)*) or other payments which are due by the Issuer to some but not all Noteholders.

21 TIME-BAR

The Issuer is entitled to any funds set aside for payments in respect of which the Noteholders' right to receive payment has been time-barred and has become void.

- 21.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (Sw. *preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Notes, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

General

NP3 Fastigheter is a cash flow-oriented real estate company focused on commercial investment properties with high direct returns, primarily in northern Sweden. NP3 Fastigheter's vision is to create Sweden's most profitable long-term real estate company through good business acumen and with satisfied tenants, investors and stakeholders. Since the start of its business operations at the end of 2010, NP3 Fastigheter has had an active growth strategy and as per 31 March 2025 the Group owned 557 real properties with a total lettable area of 2,213,000 square meters and the Group's total property value amounted to SEK 23,708 million.

NP3 Fastigheter's property portfolio is divided into eight geographical areas with the following representation of the Group's total property value as per 31 March 2025: Sundsvall (SEK 4,415 million), Gävle (SEK 2,902 million), Dalarna (SEK 3,018 million), Östersund (SEK 3,442 million), Umeå (SEK 2,371 million), Skellefteå (SEK 2,641 million), Luleå (SEK 2,792 million) and Middle Sweden (SEK 2,128 million). Sundsvall is the largest geographical area representing approx. 19 per cent. of the Group's total property market value as per 31 March 2025. The properties are divided into five property categories: retail, industrial, logistics, offices and other. The property category "other" comprises hotels and community properties such as schools. Industrial constitutes the

largest property category, representing approx. 52 per cent. of the Group's total rental value. Retail is the second largest property category with approx. 21 per cent. of the Group's total rental value. Within the retail category, business-to-business retail accounts for approx. 23 per cent., car dealerships and inspection facilities for approx. 12 per cent., business-to-consumer retail for approx. 60 per cent. and fast-moving-consumer-goods for approx. 5 per cent. Business-to-consumer retail is dominated by discount chains such as DollarStore, ÖoB and Rusta. Within business-to-business, there are large tenants such as Mekonomen, Ahlsell and Swedol. Retail properties had a vacancy rate of 4 per cent which was somewhat lower than the average for the entire property portfolio, the latter being 7 per cent. The average remaining term of the Group's lease agreements as per 31 March 2025 in the retail category is 4,1 years, which is longer than the average for the entire portfolio.

As per 31 March 2025, the Group had 2,730 lease agreements and the average remaining term for all leases was 4.0 years. The ten (10) largest tenants in relation to lease value had 122 lease agreements with the Group, with a remaining term of 4.3 years and represented approx. 11 per cent. of the Group's total lease value.

Within the framework of NP3 Fastigheter's project operations, new constructions on the Group's building rights as well as development and refinement of existing properties are included to optimize the area for the tenant's operations. In addition, environmental improvement measures are carried out on existing properties. The goal of the project operations is to increase returns and create value growth through reduced vacancy and higher lease levels. NP3 Fastigheter does not speculate in new construction and construction is only initiated when a lease agreement has been entered into.
