Risk factors

In this section, the risk factors which the Company considers to be material risks relating to the Company and its direct and indirect subsidiaries and the contemplated senior unsecured floating rate bonds are illustrated. The Company's assessment of the materiality of each risk factor is based on the probability of its occurrence and the expected magnitude of its negative impact. The description of the risk factors below is based on information available and estimates made on the date of this Prospectus.

*The risk factors are presented in categories where the most material risk factors in a category are presented first under that category. Subsequent risk factors in the same category are not ranked in order of materiality or probability of occurrence. Where a risk factor may be categorised in more than one category, such risk factor appears only once and in the most relevant category for such risk factor. Terms not defined herein shall have the same meaning as ascribed to them in the terms and conditions for the Bonds (the “**Terms and Conditions**”).*

Risks related to the Company and the Group

1.1 Macroeconomic risk

The demand for the Group's products and services are influenced by fluctuations in the business cycle. Demand and general market trends are affected by several factors outside the Group's control, such as the state of the labour market and the stock markets, the availability of capital for the Group's customers, government regulations, interest rates, pandemics and fuel prices. The Group conducts business in Sweden, Norway, Luxembourg and Belgium. A deterioration in the economic conditions globally, and/or in each specific market where the Group operates may reduce the demand for the Group's products and services. Sweden is the Group's main market where 113 out of the Group's 160 facilities are located. Further, in 2022, 59% of the Group's annual turnover was generated on the Swedish market, and the turnover on the Norwegian market made up for 32% of the annual turnover. The Group is thus particularly sensitive to macroeconomic changes in Sweden and/or Norway.

The Group's car business, which comprises sales of both new and used cars and transport vehicles, plus supplementary services such as financing and insurance (the “Car Business”), generated approximately 75% of the Group's net turnover and 41% of the operational earnings in 2022. The Car Business, and especially the sale of new cars to private customers, is highly influenced by changes in the business cycle. In a worsened economic sentiment, some customers may choose to postpone or cancel their car purchases. Reduced demand for cars may also affect the value of cars in stock and cars sold with guaranteed residual values.

Moreover, in the event of a deep economic downturn, there is a risk that the Group's service business, which includes services and concepts that simplify car ownership, such as workshop services, automotive spare parts sales, wheel storage, car dismantling, store sales and online sales (the “Service Business”), would be adversely affected. The Service Business alone generated 58% of the Group's operational earnings in 2022, while it represented around 22% of the net turnover. Thus, should the macroeconomic sentiment

continue to worsen, the Group could further see a decrease in the demand for its car services, which may cause the Group's earnings to decrease significantly.

1.2 Risks related to authorisation and sales agreements

The Group's core business consists of the distribution and servicing of cars and transport vehicles in Sweden, Norway, Luxembourg and Belgium. The Car Business generated approximately 75% of the Group's net turnover and 41% of its operational earnings for 2022. For new car sales through new and existing facilities, the Group needs the approval of the respective general agent, as there are no special rules governing competition for new car sales in the EU. A car manufacturer and/or general agent can unilaterally recall a sales authorisation and terminate its sales agreements with the Group. Most of the Group's sales authorisation agreements with general agents run for an in-definitive period and may be terminated by either party subject to 24 months' notice. Volvo, BMW and Toyota are the Group's most important business partners. The Group's current, five-year agreement with BMW expires on 30/9 2023, and the Group has received a new offer on the same principal terms. The Group is particularly dependent on its continued ability to deliver Volvo and BMW cars, since about 36% of all new cars delivered by the Group in 2022 were Volvo cars and approximately 31% were BMW cars. Thus, the recall, termination or renegotiation of authorisation agreements on less favourable terms, a change in balance between the manufacturer/general agent in respect of Volvo, BMW or Toyota would cause the Group's turnover and earnings to decrease. Further, a car manufacturer and/or general agent can become insolvent or default under its obligations, which could lead to market disturbances such as disruptions to the supply chain.

In particular, the Group could see its sales authorisation recalled, or that a sales agreement is terminated due to a car manufacturer and/or general agent moving, fully or partly, into own sales channels – especially digital sales channels. The Group also has digital sales channels for used cars and accessories. However, these digital sales channels do not comprise a significant part of the Group's net sales. Some car manufacturers/ general agents have established their own digital sales channels and announced a future target for direct sales of cars to customers. If and to what extent a car manufacturer/general agent, which the Group is collaborating with, moves, fully or partly, into own sales channels, or indirectly through subsidiaries, there is a risk that the Group's sales will decrease significantly.

1.3 Development of the Service Business and cars sold by the Group

The Group's business is dependent on the Group's ability to develop services that appeal to the Group's customers. The Group's Service Business accounted for 58% of the Group's operational earnings in 2022. There is a continued need to recruit more technicians to meet the servicing demands due to new technologies, since the Service Business is rapidly growing (please refer to the risk factor "Key employee dependency"). The annual turnover for the Service Business grew by around 4% in 2022. The development work requires resources and the ability to develop such new services relies on the Group having the size, structure and financial strength required. One of the main challenges for the continued results for the Group's Service Business is the increased number of electric cars, as electric cars bring lower servicing turnover than cars that run on fossil fuels. The Group expects the frequency of electric cars to continue to increase during the coming

years, meaning it will need to adapt its business to not only be able to maintain the current growth rate of the Service Business, but also to maintain its earnings at the current level.

Moreover, the Group is dependent on the abilities of its business partners, in particular Volvo, BMW and Toyota, to develop competitive products that incorporate the technological advances. One example is the development of car models that run on sustainable fuel alternatives. Future technological development of the products can influence the Group's Service Business, for example in relation to the complexity of the products and/or motor technique (please refer to the risk factor "Development of the Service Business"). Should the products not meet the requirements of the market, or if the preferences among the Group's customers would change in an unforeseen way, it would lead to additional costs and decreased earnings for the Group.

1.4 Risk for loss of strategic business locations

The Group leases some of its facilities used for sales and service of cars and office equipment. As a tenant, the Group runs the risk of not having its lease renewed at the end of the rental period. The premises leased by the Group have been selected for their strategic locations and have been adapted to meet the Group's specific requirements – most of the facilities in Sweden and Norway are certified according to ISO 14001. A loss of premises at strategic business locations would lead to additional costs and possible, loss of customers and thus sales for the Group.

1.5 Dependency on subsidiaries

The Company is the ultimate parent company of the Group and does not conduct any income generating business operations of its own. This means that the Company's ability to make required payments of interest on its debts and funding is directly affected by its subsidiaries' ability to transfer available cash resources to it. The Company itself does not provide a considerable part of the Group's turnover, nor does it contribute to the Group's operating earnings. In 2022, the profit from the Company recorded an operating loss in the amount of SEK –101,000,000 whereas the Group's operating profit amounted to SEK 2,102,000,000. Thus, the Company's subsidiaries generate a considerable share of the Group's operational earnings. The transfer of funds to the Company from its subsidiaries may be restricted or prohibited by legal and contractual requirements applicable to the respective subsidiaries. There is a risk that limitations or restrictions on the transfer of funds between companies within the Group, becomes more restrictive in the event that the Group experiences difficulties with respect to liquidity and its financial position.

1.6 Key employee dependency

The Group has several key employees in leading positions, such as operational managers. They contribute with high expertise and long business experience, which is important for the development of the Group's operations. Most of the employment contracts for the Group's management, including the MD, lack non-compete clauses subject to the termination of the contract. If several of these key employees would leave the Group simultaneously it could negatively affect the Group's business, results and financial status. Most

key employees may terminate their employments with the Group subject to six (6) months' notice.

Moreover, several of the Group's employees are directly or indirectly involved in the development of new services and concepts (please refer to the risk factor "Development of the Service Business"). If the Group is not successful in recruiting and keeping competent personnel that contribute to such development within the Group, it may reduce the possibilities of future growth and continued earnings, specifically within the Service Business – a business segment which had an annual turnover growth of approximately 4% during 2022.

1.7 Acquisitions

A part of the Group's strategy is to work actively with the acquisition of companies and businesses, and strategic acquisitions will continue to be a part of the Group's growth strategy in the future. During the past few years, the Group has performed several acquisitions. Whether the Group achieves the anticipated benefits from each transaction depends, in part, upon the integration of the businesses involved, the performance and development of the underlying products, capabilities or technologies, the Group's correct assessment of assumed liabilities and the management of the operations in question. For example, the Group has suffered damages of about NOK 28,000,000 as a result of its acquisition of AS Insignia due to inadequate VAT reporting. According to the share purchase agreement, the seller's potential liability is limited to NOK 15,000,000. Accordingly, the Group's financial results could be adversely affected by unanticipated performance and liability issues, transaction-related charges, amortisation related to intangibles, warranties, charges for impairment of long-term assets and partner performance.

The Group is constantly evaluating add-on acquisitions. There is a risk that some acquisitions do not develop as planned or benefit the Group's operations as anticipated prior to the acquisition. Dilution of a company's brand, lack of understanding of the target company's business and other factors in connection with acquisitions of companies may prevent post integration-plans from being properly executed. Further, if acquisitions do not develop as anticipated, it will result in decreased earnings and possibly affect the Group's financial position.

1.8 Risks related to IT systems and processes

The Group's ability to effectively and securely manage business-critical operations highly depends on its IT systems, including its IT infrastructure, and processes working well and without interruption. There is a risk that these systems will be disrupted by, for example, software failures, computer viruses, hacking, ransomware attacks, sabotage or physical damage, and the high pace of change in the overall IT environment carries with it an increased risk of data breaches. For the performance of all of the Group's internal communication and the possibility to conduct all forms of work within the Group, and for the maintenance of all external communication and customer relations, the everyday functionality of the IT system is of vital importance. For the everyday performance of selling new and used cars, as well as the performance of the service offered within the Service Business, the functionality of the IT systems and processes is essential. For the employees of the Group the access to the IT systems enables them to process clients and

offer them the support and information necessary to adhere to the demands of the customers. A malfunction within these areas therefore constitutes a risk that would severely impair the performance of the Group and of the services offered towards its customers.

There is also a risk that such a failure, or major disruption or difficulties in maintaining, upgrading and integrating these systems, may lead to a worsened reputation for the Group among its customers. Further, some updates of the Group's operating systems are conducted by external suppliers, meaning that the Group depends on the functionality of the IT systems provided by such suppliers. The Group also uses the externally provided cloud-based service Microsoft Azure to store information. Furthermore, any intrusion into the Group's IT systems, for example, from increasingly sophisticated attacks by cyber-crime groups, could disrupt its business, result in the disclosure of confidential information and/or create significant financial and/or legal exposure and the risk for damage to Group's reputation and/or brand. The degree to which IT failures and the materialisation of any IT risk may affect the Group is uncertain and presents a significant risk to the Group's operations.

1.9 Relationship with the unions

Parts of the Group's workforce are members of, and represented by, various trade unions. There is a risk that conflicts occur between the Group and these unions. If such conflicts were to result in strike or lockout, this could cause interruptions in the Group's product and service offering. The Group currently maintains a workforce of approximately 5,000 employees in 4 countries. About 70% of these employees are employed within the Service Business, a segment which generated approximately 58% of the Group's total operational earnings in 2022. Continued operations within the Service Business is dependent on the employees' presence and performance. Conflicts in the Group's relationship with the unions resulting in a strike, would therefore pose a significant risk to the Group's continuous operations.

1.10 Warranties

The Group has warranty obligations towards its customers. There is a risk that the allocations made in the current administration of those commitments proves not to be sufficient. If materialised, there is a risk that it will cause a negative impact on the Group's earnings and financial position. At year-end 2022, the Group had outstanding warranty accruals amounting to SEK 49,000,000. A materialisation of warranties in excess of the outstanding warranty accruals would affect the Group's earnings.

1.11 Risks relating to privacy legislation regarding the processing of personal data

The Group's operations involve the processing of personal data, which means that the Group must comply with applicable privacy legislation regarding the collection and processing of information primarily related to customers and employees of the Group. Since 25 May 2018, the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC

(General Data Protection Regulation) (“GDPR”) has been applicable in all EU member states and has as such replaced previous national personal data legislation. GDPR entails extensive changes to the EU personal data regulation, with a strengthening of individual rights, stricter requirements on companies handling personal data and tougher sanctions, including considerable administrative fines. The adherence to the new regulation, GDPR, is of vital importance and a failure to do so stipulates a risk that the Group will be required to pay considerable fines. The fines could be as high as 4% of the Group’s total turnover. Based on the figures for 2022, payable fines would amount to about SEK 1,400,000,000. In addition to this, the Group could also be forced to pay damages to individuals. Therefore, if the Group fails to comply with privacy and personal data legislation, it could face sanctions or other penalties, which could lead to increased costs and reputational damage to the Group.

Legal risks

1.12 Legislation and regulations

The Group’s main markets are extensively regulated, specifically the parts of the Group’s activities which can have an environmental impact such as fuel sales, car washing, paint shops and large workshops. In Sweden, such activities must be reported according to the Swedish Environmental Code (Sw. *Miljöbalken*). The businesses that require authorisation subject to the Swedish Environmental Code includes car washes, handling of fuels, oils and chemical products as well as the sale of fuels. There is a risk that tougher environmental requirements relating to above-mentioned activities will come into force, which could force the Group to change its methods and use of chemicals within the Service Business and fuel business which comprises the sale of fuels and car washes. In turn, this may lead to increased costs for the Group.

Further, there is a risk that the Group’s operations are negatively affected by changes in regulations, taxes, custom duties, tariffs, charges and subsidies, price and currency controls, and public law regulations and restrictions in the countries where the Group operates (please refer to the risk factor “Tax risks”). Also, new tax regulations regarding subsidization of electric cars within some countries can affect the Group and its business.

The increased demand for electrical cars in Sweden and Norway during the last years has partly been due to favourable tax systems for low emission vehicles such as electric cars. The tax rules were changed in the end of 2022. Consequently, the Group has seen a decrease in demand for electric cars and other low-emission vehicles. Further disadvantageous amendments to such legislations in Sweden and/or Norway could decrease the demand for new cars, resulting in decreased earnings for the Group.

1.13 Legal disputes, claims, investigations and injunctions

The Group is, from time to time, involved in legal disputes, and subject to investigations and injunctions from authorities. However, the Group is not currently a party to any legal procedures or arbitration proceedings that have or have recently had a significant impact on the Group’s financial position or profitability. Nor is the board of directors of the Group aware of any circumstances that might lead to such legal procedures or arbitration

proceedings. There is a risk that the Group, or any of its trading partners, in the future becomes involved in legal processes with a negative outcome for the Group, which could result in increased costs for the Group and depending on the nature of the dispute or injunction, damages to the Group's reputation.

1.14 Tax risks

The Group operates in multiple tax jurisdictions. It conducts business in Sweden, Norway, Luxembourg and Belgium, and its operations are conducted in accordance with the Group's understanding and interpretation of applicable tax legislation, tax treaties and other regulations in all mentioned jurisdictions, as well as in accordance with the Group's understanding and interpretation of the relevant tax authorities. There is a risk that the Group's understanding and interpretation of the mentioned laws, treaties and regulations is not performed correctly. In addition to this, there is a risk that the tax authorities in the separate countries take decisions and make assessments that differ from those conducted by the Group. If a governmental authority successfully makes negative tax adjustments regarding an entity of the Group or if the applicable laws, treaties, regulations or governmental interpretations thereof or administrative practice in relation thereto change, including retroactive changes, the Group's past or current tax position may be challenged. The Group is constantly seeking opportunities to expand its business. As mentioned above, the Group has during recent years acquired companies in countries outside of Sweden and it wishes to continue with a similar approach to expand its business. This also imposes the risk of having to operate within new jurisdictions and thereby having to understand and interpret even more tax regulations, and thereby expose the Group for new and unknown risks.

1.15 Environmental risks

The Group owns 16 properties, which entail environmental risks. Further, under Swedish law, a party who has conducted operations which have caused contamination is responsible for remediation of the contaminated property. If such party is not able to carry out or pay for the remediation of the contaminated property, a party who has later acquired the property and had knowledge of the contamination at the time of acquisition or is deemed to ought to have detected it, the party which has acquired the property will be liable for remediation. Considering that the Group provides fuel sales, car washing, paint shops and large workshops, which are activities that must be reported under the Swedish Environmental Code (please refer to the risk factor "Legislation and regulations"), there is a risk that the Group's operations will contaminate sites and that it will be held liable for such remediation. As for car washing, the wastewater from the car washing-facilities passes through separators to eliminate heavy metals, oil and chemicals from leaking out into nature. Similar heavy metals, oil and chemicals can occur in the wastewater from the Group's wheel washers and scrubbers. The Group's activities together with the risk of inheriting liability from previous property owners in accordance with the above, constitutes a risk for remediation claims in respect of properties acquired or possessed by the Group. Depending on the scope and specific details of the contamination, such claims could entail significant costs for the Group.

Financial risks

1.16 Valuation risk in relation to certain assets

The Group has assets and liabilities that are initially valued using different expertise, such as goodwill and customer relations. At the end of 2022, the Group's goodwill was valued to SEK 1,520,000,000 and its customer relations was valued to SEK 998,000,000, a total increase of SEK 425,000,000 compared to 2021, comprising approximately 22% of the Group's total non-current assets in 2022. The valuation models used for the calculations of e.g. goodwill and customer relations are complex and based on forward looking assumptions, which give rise to a risk of wrong conclusions due to assumptions being used for the valuation models.

1.17 Currency risk

The Group is exposed to different types of currency risks, meaning that the Group could suffer losses due to adverse currency movements. The Group is exposed to foreign exchange rate risk mainly from Euro ("EUR") and Norwegian Krone ("NOK"). The foremost exposure comes from currency risk fluctuations on translation of the assets and liabilities of foreign subsidiaries to the Company's functional currency, called translation exposure. Further, the Group is exposed through cash flow from loans and investments in foreign currencies, called financial exposure.

For example, based on the figures for 2022, a change in the exchange rate for NOK and EUR by +/- 10% against SEK, the pre-tax impact would be +/- SEK 55,000,000 against NOK, and +/-SEK 16,000,000 against EUR. Adverse exchange rate movements could therefore have a material adverse effect on the Group's financial position and operational results.

1.18 Interest rate risks

Interest rate risk is defined as a decrease in profits caused by a change in market interest rates. The Group's sources of funds are primarily equity, cash flow from operating activities and borrowings. Interest rate risk arises when the interest rates cannot be changed simultaneously on the funding and lending sides. A deterioration of the Group's net interest due to an unfavourable and significant change in the Group's funding costs (which is not a result of a change in the market rates) could have a material adverse effect on the Group results of operations. Currently, the Group's borrowings mainly have floating rate which means that the Group is exposed to interest rate risk. As of 31 December 2022, a general increase in the interest rate by 1 percentage point was expected to reduce the Group's profit before tax exclusive IFRS 16 by approximately SEK -18,000,000. Higher market interest rates would thus result in increased interest costs for the Group.

1.19 Financing and liquidity risk

The Group is exposed to different types of financing risks relating to its existing loans, including debenture loans, and other financial liabilities. The existing credits, include i.e.

the Group's credit facilities of SEK 2,300,000,000 with DNB Bank ASA, filial Sverige and Nordea Bank Abp, filial i Sverige, for which the Group has provided collateral securities. Further, the Group has issued unsecured bonds on several occasions, which will mature in the period 2023-2025. The total amount outstanding of such previously issued bonds (excluding the Bonds) was, at year-end 2022, SEK 1,300,000,000.

In order to meet its future capital needs, the Group is dependent on sufficient cash flow, liquid assets and external capital. The Group cannot always control the availability of external capital since the availability depends on credit availability within the financial markets, the Group's credit capacity, general market conditions and the Group's credit rating. The Group is influenced by the global and national economic situations, and a worsened economic sentiment could affect the Group's cash flow (please refer to the risk factor "Macroeconomic risk"). The availability of external capital could also be affected by the fact that, in the Group's contractual agreements with the banks, there are restrictions regarding the Group's right to provide collateral or guarantees. There is thus a risk that the Group cannot meet its payment obligations at maturity due to insufficient liquidity, or that the Group is unable to obtain adequate financing and/or refinance its existing loans on acceptable terms. A failure to meet its current or future financial commitments and to renew or refinance current or future credit facilities on acceptable terms and conditions, would in turn have a material adverse effect on the Group's liquidity and financial position.

1.20 Credit risk

The Group is exposed to different credit risks. Cars sold by the Group are, to a great extent, financed by Volvofinans AB, either through leasing or purchase on credit agreements. The Group's rights and liabilities under said agreements are assigned to Volvofinans AB. Should the customer default under its obligations, Volvofinans AB has a right to reassign the agreement to the Group. Hence, the Group assumes a credit risk if the customer's debt exceeds the residual value of the car. At the end of 2022, the total value of the contracts containing recourse obligations for the Group amounted to approximately SEK 4,700,000,000.

If the Group's customers default under their obligations, the Group will miss out on payments on its trade receivables. Such a risk constitutes a so-called customer credit risk. There is a risk that the Group's customers do not fulfil their obligations towards the Group, and as a consequence, negatively impact the Group's operations, earnings and financial position. At the end of 2022, the Group possessed trade receivables to a total amount of approximately SEK 1,800,000,000. Further, if any of the Company's subsidiaries default under its obligations or becomes insolvent, the Company could be forced to make payments under parent company-guarantees. If the risk would materialise, it would adversely affect the Company's financial position. As the Company is dependent on its subsidiaries (please refer to the risk factor "Dependency on subsidiaries"), the Company and the business of the Group would be negatively affected by defaults or insolvencies amongst its subsidiaries.

Risks relating to the Bonds

1.21 Credit risks

The Bonds represent an unsecured obligation of the Company, and an investment in the Bonds carries with it a credit risk relating to the Company and the Group. The Company has incurred, and may further incur, other financial indebtedness than the Bonds and provide security for such indebtedness. If the Company's financial position deteriorates it is likely that the credit risk associated with the Bonds will increase as there would be an increased risk that the Company cannot fulfil its obligations under the Terms and Conditions. The Company's financial position is affected by numerous risk factors, some of which have been outlined above and in the event of bankruptcy, reconstruction or winding-up of the Company, the holders of the Bonds normally receive payment after any priority creditors have been paid in full. Thus, there is a risk that investors in the Bonds lose all or part of their respective investment if the Company is declared bankrupt, carries out a reconstruction or is wound-up.

An increased credit risk could result in the market pricing the Bonds at a higher risk premium, which could adversely affect the market value of the Bonds. Another aspect of the credit risk is that a deteriorated financial position could result in a lower credit rating, which could affect the Company's ability to refinance the Bonds on favourable terms or at all, which in turn could adversely affect the Company's financial position. Another aspect of the credit risk is that there is a risk that any deterioration in the financial position of the Group will reduce the possibility for the Group to meet interest payments and redeem the Bonds.

1.22 Risk related to interest rate structure and benchmarks

The market value of the Bonds depends on several factors, with one of the most important factors being the market interest rates. The Bonds will bear a floating rate interest at the rate of STIBOR plus a margin, and the interest rate will be determined for each interest period. Hence, the interest rate is to a certain extent adjusted for changes in the general interest rate levels. There is a risk that the market value of the Bonds is adversely affected by changes in market interest rates. An increase in the general interest levels could adversely affect the market value of the Bonds. As the market rate of interest is largely dependent on the Swedish and international economic development and the actions of central banks, this is a risk factor which the Company and the Group cannot control.

Further, the process for determining STIBOR and other interest rate benchmarks ("Benchmarks") is subject to a number of regulatory reforms. The most comprehensive initiative on this area is the Benchmarks Regulation (Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds) (the "BMR") which came into force on 1 January 2018 and regulates the provision of Benchmarks, the contribution of input data to Benchmarks and the use of Benchmarks within the EU. Increased administrative requirements and the regulatory risks associated therewith could lead to participants no longer wanting to participate in the determination of Benchmarks, or that certain Benchmarks are discontinued. The degree to which amendments to and application of the BMR may affect

the Bondholders is uncertain and presents a low significant risk to the return on the Bondholder's investment.

There is a risk that the Benchmark Regulation may affect how certain benchmarks are calculated and how they will develop which, in turn, could lead to increased volatility in relation to STIBOR and any other Successor Base Rate, and, thus, in relation to the interest rate of the Bonds. There is also a risk that increased administrative requirements may discourage stakeholders from participating in the production of benchmarks, or that some benchmarks cease to be provided. If this were to happen in respect of STIBOR and any other Successor Base Rate it could potentially be detrimental to the Bondholders. More specifically, should STIBOR be discontinued or cease to be provided, the Terms and Conditions provides for an alternative calculation of the interest rate for the Bonds. There is a risk that such alternative calculation results (including the determination of any Successor Base Rate) in interest payments less advantageous for the Bondholders or that such interest payment do not meet market interest rate expectations.

1.23 Risks relating to admission to trading

The Company has undertaken to ensure that the Bonds are admitted to trading on Nasdaq Stockholm (or another regulated market) within 120 days from the First Issue Date. However, the Company is dependent upon the approval of Nasdaq Stockholm or another Regulated Market, whereas there is a risk that the Bonds will not be admitted to trading on a Regulated Market.

Furthermore, even if the Bonds are admitted to trading on a Regulated Market, the securities are not always traded actively. Hence, there is a risk that the Bonds may not always be actively traded, especially considering the relatively high nominal amount of each Bond; SEK 2,000,000. Consequently, there is a risk that the holders of the Bonds will be unable to sell their Bonds when desired or at a price level which allows for a profit. Moreover, there is a risk that lack of liquidity in the market has an adverse effect on the market value of the Bonds. Further, the nominal value of the Bonds may not be indicative compared to the market value of the Bonds. It should also be noted that during a given time period it may be difficult or impossible to sell the Bonds on reasonable terms, or at all, due to, for example, severe price fluctuations, close down of the relevant market or trade restrictions imposed on the market.

1.24 Structural subordination and insolvency of subsidiaries

Almost all assets are owned by and all revenues are generated in subsidiaries of the Company. Thus, the Company is dependent upon receipt of sufficient income related to the operation of and the ownership in such entities to make payments under the Bonds. The subsidiaries have no obligation to make payments to the Company of any surpluses generated from their business. The subsidiaries' ability to make payments is restricted by, among other things, the availability of funds, corporate restrictions and law.

Furthermore, in the event of insolvency, liquidation or a similar event relating to any of the subsidiaries, all creditors of such subsidiary would be entitled to payment in full out of the assets of such subsidiary before the Company, as a shareholder, would be entitled to any payments. Thus, the Bonds are structurally subordinated to the liabilities of the

subsidiaries. The Group and its assets may not be protected from any actions by the creditors of any subsidiary of the Group, whether under bankruptcy law, by contract or otherwise. In addition, defaults by, or the insolvency of, certain of the Company's subsidiaries could result in the obligation of the Company to make payments under parent company financial guarantees in respect of such subsidiaries' obligations. This could have a material adverse effect on the Company's financial position and results of operations and on the Bondholders' recovery under the Bonds.

1.25 No action against the Company and Bondholders' representation

In accordance with the Terms and Conditions, Nordic Trustee & Agency AB (the "Agent") will represent the Bondholders in all matters relating to the Bonds and the Bondholders are prevented from taking unilateral action against the Company. Consequently, individual Bondholders do not have the right to take legal action to declare any default by claiming any payment from the Company and may therefore lack effective remedies against it, unless and until a requisite majority of the Bondholders agree to take such action. Consequently, there is a risk that the market value of the Bonds will decrease, while a requisite majority is not willing to take necessary legal actions against the Company. The unwillingness of a majority of Bondholders to act could thus damage the value of other Bondholders' investments in the Bonds. However, there is a risk that an individual Bondholder, in certain situations, could bring its own action against the Company (in breach of the Terms and Conditions), which could adversely affect an acceleration of the Bonds or other action against the Company for example, would an individual Bondholder initiate a bankruptcy proceeding against the Company, such proceeding could, despite being in breach of the Terms and Conditions, be legally valid, and consequently, cause damage to the Company and/or the other Bondholders.

Under the Terms and Conditions, the Agent will in some cases have the right to make decisions and take measures, including the right to agree to amend and waive provisions under the Terms and Conditions on behalf of all Bondholders. Consequently, there is a risk that the actions of the Agent affect a Bondholder's rights under the Terms and Conditions in a manner that is undesirable or negative for some Bondholders. Consequently, the materiality of such risk is dependent on the preferences of each Bondholder.

1.26 Risks related to put options

According to the Terms and Conditions, the Bonds are subject to prepayment at the option of each Bondholders (put options) upon the occurrence of a Change of Control Event, a Listing Failure Event or a De-Listing Event. Since a part of the Group's financing consists of the Bonds there is, however, a risk that the Company will not have sufficient funds at the time of such prepayment to make the required prepayment of the Bonds, which could adversely affect the Company, e.g. by causing insolvency or an event of default under the Terms and Conditions, and thus adversely affect all Bondholders and not only those that choose to exercise the option.

1.27 Bondholder's meetings and written procedures

The Terms and Conditions include certain provisions regarding Bondholders' meetings and written procedures. Such meetings or written procedures may be held in order to decide on matters relating to the Bondholders' interests. The Terms and Conditions allow for stated majorities to bind all Bondholders, including Bondholders who have not taken part in the meeting or written procedure and those who have voted differently to the required majority at a duly convened and conducted Bondholders' meeting or written procedure. Consequently, the actions of the majority in such matters could impact a Bondholder's rights in a manner that would be undesirable for some of the Bondholders.

Business overview

Business concept

The Group's business concept is to be a full-service supplier with one of the widest ranges of products and services on the market and offers assistance with everything related to car ownership during the entire life cycle of the car, from a purchase of a new car to recycling of parts from a dismantled car. The customers are to be treated as guests and the Group aim to create a better customer experience.

The Group is a European car dealership chain and provides servicing and sales of cars and transport vehicles plus supplementary services such as financing and insurance solutions to facilitate the car purchase process. As of 30 June 2023, the Group had 157 facilities in Sweden, Norway, Luxembourg and Belgium in addition to one online auction site in Sweden. A part of the Group's strategy is to expand its business via acquisitions.

The Group's Service Business includes a well-developed range of services and service concepts that are continuously developed to simplify car ownership for the customers throughout the life cycle of the car. The Service Business includes workshop services, spare parts, wheel storage, rim repair, car dismantling, store sales and e-commerce. There is a continued need to recruit more technicians to meet the demand for servicing. As for challenges within the Service Business, new technologies for new cars place demands on ongoing employee training. One long-term challenge is that electric cars are believed to bring lower servicing turnover than cars that run on fossil fuels. The number of electric cars sold is expected to increase in the years ahead, provided the tax systems are favorable. The Group plans to gradually adapt its business in line with the changing stock of cars.

The Group's Car Business includes sales of both new and used cars and transport vehicles, plus supplementary services such as financing and insurance solutions. The Group sells cars from Volvo, BMW, Mini, Toyota, Lexus, Mercedes-Benz, Porsche, Volkswagen, Audi, Skoda, Seat, Cupra, Nissan, Jaguar, Land Rover, XPENG, Renault, Dacia, Alpine and transport vehicles from Toyota, Mercedes-Benz, Volkswagen, Nissan and Renault and trucks from Mercedes-Benz. As for challenges within the Car Business, if the market slows down, it could have an adverse effect on sales of new cars. Sales of used cars, however, tend to increase in a market with lower sales of new cars. The sales of new cars are dependent on continuing agreements together with general agents which allows the Group to continue to sell cars of the respective general agent's brands.

The Group's Fuel Business comprises the sale of fuels and car washes located in Sweden. As for challenges within the Fuel Business, the Group has experienced some difficulties with obtaining approval for new locations so as to extend service and replace facilities that have been closed. Further, the increasing number of electric and hybrid cars could affect fuel sales in the longer term.

The Group owns some real estate but leases most of its facilities for its operations. Moreover, the Group's IT-systems and the functionality of external and internal communication is significant in nature and carried out by inhouse resources.

Vision

The Group's vision is to be the best service company in the business through consideration for our customers, colleagues and the world we live in. The Group strives to be the best service company in the business and to create a sustainable business by offering attractive and innovative solutions for the mobile human being. The solutions include full-service workshops, showrooms offering high availability and a customer service that is available every day, round the clock. Through consideration and professional pride, the Group establishes a relationship with the customer that is crucial to the customer's choice. The Group's customer relations distinguish Bilja from other players in the business.

1.2.4 A notice shall be deemed to be sent by way of press release if it is made available to the public within Sweden promptly and in a non-discriminatory manner.

- 1.2.5 No delay or omission of the Agent or of any Bondholder to exercise any right or remedy under the Finance Documents shall impair or operate as a waiver of any such right or remedy.
- 1.2.6 The selling restrictions, the privacy notice and any other information contained in this document before the table of contents section do not form part of these Terms and Conditions and may be updated without the consent of the Bondholders and the Agent.

- 2.1 The Bonds are denominated in Swedish Kronor and each Bond is constituted by these Terms and Conditions. The Issuer undertakes to make payments in relation to the Bonds and to comply with these Terms and Conditions.
- 2.2 By subscribing for Bonds, each initial Bondholder agrees that the Bonds shall benefit from and be subject to the Finance Documents and by acquiring Bonds, each subsequent Bondholder confirms such agreement.
- 2.3 The nominal amount of each Initial Bond is SEK 2,000,000 (the “**Nominal Amount**”). The maximum Total Nominal Amount of the Bonds (the Initial Bonds and all Subsequent Bonds) may not exceed SEK 1,500,000,000 unless a consent from the Bondholders is obtained in accordance with Clause 14.4.2(a). The issue price of the Subsequent Bonds may be set at the Nominal Amount, a discount or a premium compared to the Nominal Amount. Each Subsequent Bond shall entitle its holder to Interest in accordance with Clause 8.1, and otherwise have the same rights as the Initial Bonds.
- 2.6 The Bonds constitute direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among them and at least *pari passu* with all other direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer, except obligations which are preferred by mandatory regulation and except as otherwise provided in the Finance Documents.
- 2.7 The Bonds are freely transferable, but the Bondholders may be subject to purchase or transfer restrictions with regard to the Bonds, as applicable, under local regulation to which a Bondholder may be subject. Each Bondholder must ensure compliance with such restrictions at its own cost and expense.

3 Use of Proceeds

- 3.1 The Issuer shall apply the Net Proceeds from the issue of the Initial Bonds towards (i) the market repurchase of all or some of the Existing Bonds and (ii) general corporate purposes (including acquisitions and investments) of the Group.

5 Bonds in Book-Entry Form

5.1 The Bonds will be registered for the Bondholders on their respective Securities Accounts and no physical notes will be issued. Accordingly, the Bonds will be registered in accordance with the Financial Instruments Accounts Act. Registration requests relating to the Bonds shall be directed to an Account Operator. The Debt Register shall constitute conclusive evidence of the persons who are Bondholders and their holdings of Bonds.

5.2 Those who according to assignment, Security, the provisions of the Swedish Children and Parents Code (*Sw. föräldrabalken (1949:381)*), conditions of will or deed of gift or otherwise have acquired a right to receive payments in respect of a Bond shall register their entitlements to receive payment in accordance with the Financial Instruments Accounts Act.

5.3 The Issuer and the Agent shall at all times be entitled to obtain information from the Debt Register. At the request of the Agent, the Issuer shall promptly obtain such information and provide it to the Agent. For the purpose of carrying out any administrative procedure that arises out of the Finance Documents, the Issuing Agent shall be entitled to obtain information from the Debt Register.

5.4 The Issuer shall issue any necessary power of attorney to such persons employed by the Agent, as notified by the Agent, in order for such individuals to independently obtain information directly from the Debt Register. The Issuer may not revoke any such power

of attorney unless directed by the Agent or unless consent thereto is given by the Bondholders.

- 5.5 The Issuer and the Agent may use the information referred to in Clause 5.3 only for the purposes of carrying out their duties and exercising their rights in accordance with the Finance Documents and the Agency Agreement and shall not disclose such information to any Bondholder or third party unless necessary for such purposes.

6 Right to act on behalf of a Bondholder

- 6.1 If any person other than a Bondholder (including the owner of a Bond, if such person is not the Bondholder) wishes to exercise any rights under the Finance Documents, it must obtain a power of attorney or other authorisation from the Bondholder or a successive, coherent chain of powers of attorney or authorisations starting with the Bondholder and authorising such person.
- 6.2 A Bondholder may issue one or several powers of attorney or other authorisations to third parties to represent it in relation to some or all of the Bonds held by it. Any such representative may act independently under the Finance Documents in relation to the Bonds for which such representative is entitled to represent the Bondholder.
- 6.3 The Agent shall only have to examine the face of a power of attorney or other authorisation that has been provided to it pursuant to Clause 6.2 and may assume that such document has been duly authorised, is valid, has not been revoked or superseded and that it is in full force and effect, unless otherwise is apparent from its face or the Agent has actual knowledge to the contrary.
- 6.4 The Bondholders may in accordance with Clause 14.4.3 appoint a Bondholders' Committee to represent their interests in relation to the Bonds and in accordance with Clause 14.4.4 delegate powers to such Bondholders' Committee. The Bondholders' Committee represents all Bondholders and exercises such delegated powers on behalf of all Bondholders.
- 6.5 The Bondholders' Committee will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it or any member thereof under or in connection with any Finance Document, unless directly caused by a breach of the powers delegated to it or by gross negligence or wilful misconduct.
- 6.6 These Terms and Conditions shall not affect the relationship between a Bondholder who is the nominee (Sw. *förvaltare*) with respect to a Bond and the owner of such Bond, and it is the responsibility of such nominee to observe and comply with any restrictions that may apply to it in this capacity.

7 Payments in Respect of the Bonds

- 7.1 Any payment or repayment under the Finance Documents shall be made to such person who is registered as a Bondholder on the Record Date prior to an Interest Payment Date or other relevant payment date, or to such other person who is registered with the CSD

on such Record Date as being entitled to receive the relevant payment, repayment or repurchase amount.

- 7.2 Provided that a Bondholder has registered an income account (*Sw. avkastningskonto*) for the relevant Securities Account on the applicable Record Date, the CSD shall procure that principal, interest and other payments under the Bonds are deposited to such income account on the relevant payment date. If an income account has not been registered on the Record Date for the payment, no payment will be effected by the CSD to such Bondholder. The outstanding amount will instead be held by the Issuer until the person that was registered as a Bondholder on the relevant Record Date has made a valid request for such amount. Should the CSD, due to a delay on behalf of the Issuer or some other obstacle, not be able to effect payments as aforesaid, the Issuer shall procure that such amounts are paid to the persons who are registered as Bondholders on the relevant Record Date as soon as possible after such obstacle has been removed.
- 7.3 If, due to any obstacle for the CSD, the Issuer cannot make a payment or repayment, such payment or repayment may be postponed until the obstacle has been removed. Interest shall accrue in accordance with Clause 8.4 during such postponement.
- 7.4 If payment or repayment is made in accordance with this Clause 7, the Issuer shall be deemed to have fulfilled their obligation to pay, irrespective of whether such payment was made to a person not entitled to receive such amount (unless the Issuer has actual knowledge of the fact that the payment was made to the wrong person).
- 7.5 The Issuer is not liable to gross-up any payments under the Finance Documents by virtue of any withholding tax, public levy or the similar.

8 Interest

- 8.1 Each Initial Bond carries Interest at the Interest Rate applied to the Nominal Amount from (but excluding) the First Issue Date up to (and including) the relevant Redemption Date. Any Subsequent Bond will carry Interest at the Interest Rate applied to the Nominal Amount from (but excluding) the Interest Payment Date falling immediately prior to its issuance (or the First Issue Date if there is no such Interest Payment Date) up to (and including) the relevant Redemption Date.
- 8.2 Interest accrues during an Interest Period. Payment of Interest in respect of the Bonds shall be made to the Bondholders on each Interest Payment Date for the preceding Interest Period.
- 8.3 Interest shall be calculated on the basis of the actual number of days in the Interest Period in respect of which payment is being made divided by 360 (actual/360-days basis).
- 8.4 If the Issuer fails to pay any amount payable by it under the Terms and Conditions on its due date, default interest shall accrue on the overdue amount from (but excluding) the due date up to (and including) the date of actual payment at a rate which is 200 bps (2 percentage points) higher than the Interest Rate. The default interest shall not be capitalised. No default interest shall accrue where the failure to pay was solely attributable to the Agent or the CSD, in which case the Interest Rate shall apply instead.

9 Redemption and Repurchase of the Bonds

9.1 Redemption at maturity

The Issuer shall redeem all, but not some only, of the outstanding Bonds in full on the Final Maturity Date with an amount per Bond equal to the Nominal Amount together with accrued but unpaid Interest. If the Final Maturity Date is not a Business Day, then the redemption shall occur on the first following Business Day.

9.2 Purchase of Bonds by Group Companies

9.2.1 Any Group Company may, subject to applicable regulations, at any time and at any price purchase Bonds on the market or in any other way.

9.2.2 Bonds held by a Group Company (including Bonds repurchased by the Issuer pursuant to Clause 9.5 (*Mandatory repurchase due to a Change of Control Event, a De-Listing Event or a Listing Failure Event (put option)*)) may at such Group Company's discretion be retained or sold. Bonds held by the Issuer may not be cancelled by the Issuer (except for any Bonds repurchased pursuant to Clause 9.5 (*Mandatory repurchase due to a Change of Control Event, a De-Listing Event or a Listing Failure Event (put option)*)) or in connection with a redemption or repurchase of the Bonds in full).

9.3 Voluntary total redemption (call option)

9.3.1 The Issuer may redeem all, but not some only, of the outstanding Bonds in full provided that the redemption is financed in part or in full by way of one or more issue(s) of Market Loans any time from (and including) the first Business Day falling six (6) months prior to the Final Maturity Date to (but excluding) the Final Maturity Date, at an amount equal to one hundred (100) per cent. of the Nominal Amount together with accrued but unpaid Interest.

9.3.2 Redemption in accordance with Clause 9.3.1 shall be made by the Issuer giving not less than ten (15) Business Days' notice and not more than thirty (30) Business Days' notice to the Bondholders and the Agent, in each case calculated from the effective date of the notice. The notice from the Issuer shall specify the Redemption Date and also the Record Date on which a person shall be registered as a Bondholder to receive the amounts due on such Redemption Date. The notice is irrevocable but may, at the Issuer's discretion, contain one or more conditions precedent that shall be satisfied prior to the Record Date. Upon fulfilment of the conditions precedent (if any), the Issuer shall redeem the Bonds in full at the applicable amount on the specified Redemption Date.

9.4 Early redemption due to illegality (call option)

9.4.1 The Issuer may redeem all, but not some only, of the outstanding Bonds at an amount per Bond equal to the Nominal Amount together with accrued but unpaid Interest on a Redemption Date determined by the Issuer if it is or becomes unlawful for the Issuer to perform its obligations under the Finance Documents.

9.4.2 The applicability of Clause 9.4.1 shall be supported by a legal opinion issued by a reputable law firm.

9.4.3 The Issuer may give notice of redemption pursuant to Clause 9.4.1 no later than twenty (20) Business Days after having received actual knowledge of any event specified therein (after which time period such right shall lapse). The notice from the Issuer is irrevocable, shall specify the Redemption Date and also the Record Date on which a person shall be registered as a Bondholder to receive the amounts due on such Redemption Date. The Issuer shall redeem the Bonds in full at the applicable amount on the specified Redemption Date.

9.5 Mandatory repurchase due to a Change of Control Event, a De-Listing Event or a Listing Failure Event (put option)

9.5.1 Upon the occurrence of a Change of Control Event, a De-Listing Event or a Listing Failure Event, each Bondholder shall during a period of twenty (20) Business Days from the effective date of a notice from the Issuer of the Change of Control Event, a De-Listing Event or Listing Failure Event, as the case may be, pursuant to Clause 10.1.3 (after which time period such right shall lapse), have the right to request that all, or some only, of its Bonds be repurchased at a price per Bond equal to one hundred and one (101) per cent. of the Nominal Amount together with accrued but unpaid Interest. However, such period may not start earlier than upon the occurrence of the Change of Control Event, a De-Listing Event or the Listing Failure Event, as the case may be.

If a Bondholder has so requested, and acted in accordance with the instructions in the notice from the Issuer, the Issuer shall, or shall procure that a person designated by the Issuer will, repurchase the relevant Bonds and the repurchase amount shall fall due on the Redemption Date specified in the notice given by the Issuer pursuant to Clause 10.1.3. The Redemption Date must fall no later than forty (40) Business Days after the end of the period referred to in Clause 9.5.1.

9.5.3 The Issuer shall comply with the requirements of any applicable securities regulations in connection with the repurchase of Bonds. To the extent that the provisions of such regulations conflict with the provisions in this Clause 9.5, the Issuer shall comply with the applicable securities regulations and will not be deemed to have breached its obligations under this Clause 9.5 by virtue of the conflict.

9.5.4 The Issuer shall not be required to repurchase any Bonds pursuant to this Clause 9.5, if a third party in connection with the occurrence of a Change of Control Event, a De-Listing Event or a Listing Failure Event offers to purchase the Bonds in the manner and on the terms set out in this Clause 9.5 (or on terms more favourable to the Bondholders) and purchases all Bonds validly tendered in accordance with such offer. If Bonds tendered are not purchased within the time limits stipulated in this Clause 9.5, the Issuer shall repurchase any such Bonds within five (5) Business Days after the expiry of the time limit.

- 14.4.9 A Bondholder holding more than one Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- 14.4.10 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any owner of Bonds (irrespective of whether such person is a Bondholder) for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders that vote in respect of the proposal at the relevant Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable (such time period to be no less than ten (10) Business Days).
- 14.4.11 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any owner of Bonds (irrespective of whether such person is a Bondholder), nor make an offer to repurchase any Bonds, if receipt of such consideration or participation in such tender offer (as applicable) is conditional upon the Bondholder's consent to a proposal at a Bondholders' Meeting or in a Written Procedure.
- 14.4.12 A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. - 14.4.13 All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.

- 14.4.15 Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

15 Amendments and Waivers

- 15.1 The Issuer and the Agent (acting on behalf of the Bondholders) may agree in writing to amend and waive any provision in a Finance Document or any other document relating to the Bonds, provided that the Agent is satisfied that such amendment or waiver:

- (a) is not detrimental to the interest of the Bondholders as a group;
- (b) is made solely for the purpose of rectifying obvious errors and mistakes;
- (c) is required by any applicable regulation, a court ruling or a decision by a relevant authority;
- (d) has been duly approved by the Bondholders in accordance with Clause 14 (*Decisions by Bondholders*) and it has received any conditions precedent specified for the effectiveness of the approval by the Bondholders; or

- 15.2 Any amendments to the Finance Documents shall be made available in the manner stipulated in Clause 10.4 (*Availability of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority. - 15.3 An amendment to the Finance Documents shall take effect on the date determined by the Bondholders Meeting, in the Written Procedure or by the Agent, as the case may be.

16 Replacement of Base Rate

16.1 General

- 16.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Bondholders in accordance with the provisions of this Clause 16 shall at all times be made by such Independent Adviser, the Issuer or the Bondholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.

- 16.1.2 If a Base Rate Event has occurred, this Clause 16 shall take precedent over the fallbacks set out in paragraphs (b) to (d) of the definition of STIBOR.

16.2 Definitions

In this Clause 16:

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“**Base Rate Amendments**” has the meaning set forth in Clause 16.3.4.

“**Base Rate Event**” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Bondholder using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (Sw. *krishanteringsregelverket*) containing the information referred to in (b) above; or

- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in (b) to (e) above will occur within six (6) months.

“**Base Rate Event Announcement**” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“**Independent Adviser**” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“**Relevant Nominating Body**” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“**Successor Base Rate**” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Bonds, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply *mutatis mutandis* to such new Successor Base Rate.

16.3 Determination of Base Rate, Adjustment Spread and Base Rate Amendments

- 16.3.1 Without prejudice to Clause 16.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer’s expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 16.3.2.
- 16.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer’s expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating, and finally deciding the applicable Base Rate.
- 16.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 16.3.2, the Bondholders shall, if so decided at a Bondholders’ Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer’s expense) for the purposes set forth in Clause 16.3.2. If an Event of Default has occurred and is continuing,

or if the Issuer fails to carry out any other actions set forth in Clause 16.3 to 16.6 the Agent (acting on the instructions of the Bondholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer's cooperation.

16.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice ("**Base Rate Amendments**").

16.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

16.4 Interim measures

16.4.1 If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Quotation Day in relation to the next succeeding Interest Period or if such Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Quotation Day, the Interest Rate applicable to the next succeeding Interest Period shall be:

- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
- (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.

16.4.2 For the avoidance of doubt, Clause 16.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 16. This will however not limit the application of Clause 16.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 16 have been taken, but without success.

16.5 Notices etc.

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Issuing Agent and the Bondholders in accordance with Clause 22 (*Communications and Press Releases*) and the CSD. The notice shall also include information about the effective date of the amendments. If the Bonds are admitted to trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

16.6 Variation upon replacement of Base Rate

16.6.1 No later than giving the Agent notice pursuant to Clause 16.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 16.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 16. The Successor Base Rate the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Issuing Agent and the Bondholders.

16.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 16.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Bondholders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 16.

The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 16. Neither the Agent nor the Issuing Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

16.7 Limitation of liability for the Independent Adviser

Any Independent Adviser appointed pursuant to Clause 16.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

- 17.2.4 The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 17.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. The Agent shall, however, remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 17.2.6 The Issuer shall on demand by the Agent pay all costs for external experts engaged by it:
- (a) after the occurrence of an Event of Default;
 - (b) for the purpose of investigating or considering:

- (i) an event or circumstance which the Agent reasonably believes is or may lead to an Event of Default; or
 - (ii) a matter relating to the Issuer or the Finance Documents which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents;
 - (c) in connection with any Bondholders' Meeting or Written Procedure; or
 - (d) in connection with any amendment (whether contemplated by the Finance Documents or not) or waiver under the Finance Documents (including for the purpose of deciding whether the conditions set out in Clause 15.1 are fulfilled).
- 17.2.7 Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 13 (*Distribution of Proceeds*).
- 17.2.8 The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.
- 17.2.9 Other than as specifically set out in the Finance Documents, the Agent shall not be obliged to monitor (i) whether any Event of Default has occurred, (ii) the financial condition of the Issuer and the Group, (iii) the performance, default or any breach by the Issuer or any other party of its obligations under the Finance Documents, or (iv) whether any other event specified in any Finance Document has occurred or is expected to occur, and should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.
- 17.2.10 The Agent shall review each Compliance Certificate delivered to it to determine that it is in the form agreed between the Issuer and the Agent, and the Issuer shall promptly upon request provide the Agent with such information as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 17.2.10.
- 17.2.11 The Agent shall ensure that it receives evidence satisfactory to it that Finance Documents which are required to be delivered to the Agent are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 17.2.11. Other than as set out above, the Agent shall neither be liable to the Issuer or the Bondholders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.
- 17.2.12 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 17.2.13 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may

refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.

- 17.2.14 The Agent shall give a notice to the Bondholders:
- (a) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement; or
 - (b) if it refrains from acting for any reason described in Clause 17.2.13.

17.3 Liability for the Agent

- 17.3.1 The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.
- 17.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 17.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 17.3.4 The Agent shall have no liability to the Issuer or the Bondholders for damage caused by the Agent acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.
- 17.3.5 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.

17.4 Replacement of the Agent

- 17.4.1 Subject to Clause 17.4.6, the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- 17.4.2 Subject to Clause 17.4.6, if the Agent is Insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.

- 17.4.3 A Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.
- 17.4.4 If the Bondholders have not appointed a successor Agent within ninety (90) days after:
- (a) the earlier of the notice of resignation was given or the resignation otherwise took place; or
 - (b) the Agent was dismissed through a decision by the Bondholders,
- the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- 17.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 17.4.6 The Agent's resignation or dismissal shall only take effect upon the earlier of:
- (a) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent; and
 - (b) the period pursuant to Clause 17.4.4 having lapsed.
- 17.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 17.4.8 In the event that there is a change of the Agent in accordance with this Clause 17.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement. Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

18 The Issuing Agent

- 18.1 The Issuer shall when necessary appoint an Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and

The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Central Securities Depository Regulation (Regulation (EU) No 909/2014) and be authorised as a central securities depository in accordance with the Financial Instruments Accounts Act.

20 No Direct Actions by Bondholders

- 20.1 A Bondholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation or bankruptcy in any jurisdiction of the Issuer in relation to any of the obligations and liabilities of the Issuer under the Finance Documents. Such steps may only be taken by the Agent.
- 20.2 Clause 20.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 17.1.2), such actions within a reasonable period of time and such failure or inability is continuing. - 20.3 The provisions of Clause 20.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 9.5 (*Mandatory*

repurchase due to a Change of Control Event, a De-Listing Event or a Listing Failure Event (put option)) or other payments which are due by the Issuer to some but not all Bondholders.

The right to receive payment of interest (excluding any capitalised interest) shall be time-barred and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been time-barred and has become void.
- 21.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (Sw. *preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.
