RISK FACTORS

Risk factors deemed to be of importance for the Group's business, future development and ability to meet its obligations under the terms and conditions of the Bonds (the "Terms and Conditions") and risks relating to the Bonds are described below. The risk factors presented below are categorised as "RISKS RELATING TO THE GROUP" and "RISKS RELATING TO THE BONDS" on the basis of whether they pertain to the Group or to the Bonds. The risk factors categorised as "RISKS RELATING TO THE GROUP", are categorised as risk factors pertaining to the Group and not as risk factors pertaining to the Issuer, as the major part of the business operations in the Group are conducted by the Issuer's subsidiaries. The materiality of the risk factors are disclosed by the use of a qualitative ordinal scale of low, medium or high. The assessment of the materiality of the risk factors have been based on the probability of their occurrence and the expected magnitude of their negative impact.

RISKS RELATING TO THE GROUP

THE GROUP'S FINANCIAL SITUATION

Medium level Risk

Funding of Project Companies and related risk

Property developments require substantial capital investment for land acquisitions and construction and it may take months or even years before positive cash flow can be generated. The Group covers its costs for land and finances property development on a stage-by-stage basis through shareholder loans, bank loans, intra group borrowings, third party loans and pre-sale income. If the Group, and ultimately the project companies Yan tai Jinghui Property Co., Ltd. (Ch. 烟台景晖置业有限公司, "Jinghui"), Yantai Zhuji Hammarby Ruiming Property Co., Ltd. (Ch. 烟台珠玑哈马碧瑞铭置业有限公司, "Ruiming"), Yantai Zhuji Hammarby Ruituo Property Co., Ltd. (Ch. 烟台珠玑哈马碧瑞拓置业有限公司, "Ruituo"), Chengde Changruida real estate Co., Ltd. (Ch. 承德昌瑞达房地产开发有限公司), Qingdao Junshi Property Co., Ltd. (Ch. 青岛君实置业有限公司), Shenyang White Peak Ruizhi real estate Co., Ltd. (Ch. 沈阳鼎峰瑞置房地产开发有限公司), Qingdao Sino-Sweden Huachuang Real Estate Development Co., Ltd. (Ch. 青岛中瑞华创房地产开发有限公司), Taian Ruifeng Real Estate Co., Ltd (Ch. 泰安瑞峰地产置业有限公司), and Yantai Jingsheng Real Estate Co., Ltd (Ch. 烟台景晟置业有限公司) (the "**Project Companies**") do not obtain sufficient funds, in a timely manner, for acquisition of land and/or property development by way of bank loans, intra group borrowings, third party loans, pre-sale income or otherwise it could lead to a breach under the land transfer agreements with the local governments and/or pre-sale contracts with the customers, as well as that property development operations are obstructed. This would, in turn, result in the Group incurring loss and additional costs, leading to the Group's business and profitability being materially and adversely affected.

Medium level risk

Limitations imposed by the PRC regulations and monetary policies

As the Project Companies may fund property development by bank loans, the Group is subject to the limitations in regulations and monetary policies in the People's Republic of China ("**PRC**"). For example, PRC banks are prohibited from extending loans to real estate companies for the purpose of funding the purchase of land use rights. Furthermore, PRC banks are not allowed to provide loans for property

development projects if the developer's own capital is less than 35 per cent. of the total investment amount of the project, or if the land use right certificate, the construction land planning permit, the construction works planning permit and the construction permit are not in place. In addition to such regulations limiting the Group's ability to use bank loans to finance their property development projects, the PRC government could take other initiatives further limiting the Project Companies' access to bank loan financing. Existing and future limitations in PRC regulations and PRC monetary policies could impede the Group in obtaining sufficient financing in a timely manner, or at all, whereby the property development project in question may be delayed or even cancelled. This could ultimately lead to that pre-sale income cannot be ensured, or that the price cap on pre-sales result in lack of liquidity and even greater needs for other sources of financing. If necessary bank financing is not available on favorable terms or at all, the Group's business, results of operation and financial condition could be materially and adversely affected.

Medium level risk

Property sales and changes in interest rates

The Project Companies may rely on bank loans to finance their property developments. Furthermore, many customers in mainland China finance their purchases of the properties developed by the Project Companies through mortgage loans.

The Group's costs for financing as well as the customers' ability to obtain mortgage loans, along with the associated finance costs, are affected by Loan Prime Rate ("LPR") and bank reserve requirement ratios set by the People's Bank of China ("PBOC"). Increases in such LPR will increase the interest costs for the property development business. Such an increase may also affect customers' ability to obtain mortgages on acceptable terms, which in turn may affect their ability to purchase the properties from the Group. Should the LPR increase to such extent that the Group cannot offset increased financing costs against sufficient income from property sale, especially where customers cannot access mortgage loans to finance their purchase of property, the Group may suffer material loss.

Medium level risk

Liquidity risk

The Group's business model is based on the procurement of land in mid-tier cities in mainland China, and the subsequent construction and pre-sales of residential properties on the acquired land. If the Group does not succeed in selling the residential properties in advance or the sales of properties is lower than what has been projected by the Group, due to e.g. decreased demand in the market, there is a risk that the Group will not generate enough profit to meet its liquidity needs and to pay fixed costs. If the Group fails to manage the liquidity risk adequately, this may have an adverse effect on the Group's business and financial position.

THE GROUP'S BUSINESS ACTIVITIES AND INDUSTRY

High level risk

Coronavirus disease (COVID-19) risk

The 2019 novel coronavirus ("COVID-19") outbreak is currently having an indeterminable adverse impact on the world economy. The COVID-19 outbreak may result in protracted volatility in international markets and/or result in a global recession as a consequence of disruptions to travel and

retail segments, tourism, and manufacturing supply chains. In particular, during the spring 2020 the COVID-19 outbreak caused stock markets worldwide to lose significant value and impacted economic activity in Asia and worldwide. The trading price of the Bonds may therefore be adversely affected by the economic uncertainty caused by COVID-19. As a response to the COVID-19 outbreak, the PRC government imposed a lockdown of certain regions of China. The Group's ongoing projects are currently located in Yantai city, Shandong Province; Qingdao City, Shandong Province; Taian city, Shandong Province; Chengde City, Hebei Province and Shenyang City, Liaoning Province and although the lockdown did not affect the aforementioned cities or provinces, the regions have been subject to certain restrictions, including e.g. travel bans and quarantine of overseas arrivals. These types of measures and other measures to limit the transmission of COVID-19 implemented by governments around the world may adversely impact the Group's operations. Any of these factors could have a material adverse effect on the Group's business, financial condition and results of operations.

Medium level risk

Dependence on the property market in mid-tier cities in mainland China

All of the Group's past, current and planned property development projects are located in mid-tier cities in mainland China. The property market in these cities is mainly driven by private customer demand, most customers being first time or upgrade buyers. The demand for residential properties in such cities is determined by, *inter alia*, the customers' financial condition and eligibility for mortgage financing. This may be affected by various factors, including the regional economic environment and any macroeconomic control measures or other regulatory initiatives implemented by the provincial or the central governments. Adverse movements in relation to such macroeconomic factors in these cities may interrupt the increase, or even cause a decrease, in demand for new property, and correspondingly, result in reduced profits, diminished expansion possibilities and ultimately loss, which would adversely affect the Group's business in mainland China.

The Group's current and ongoing projects are located in Yantai city, Shandong Province; Qingdao City, Shandong Province; Taian city, Shandong Province; Chengde City, Hebei Province and Shenyang City, Liaoning Province. Accordingly, fluctuations in the performance of the real estate market in the aforementioned areas will greatly influence the business and prospects of the Group. The fluctuations of supply and demand in the aforementioned real estate markets can be caused by economic, social, political, regulatory and other factors, all of which are beyond the Group's control. Any local abundance in respect of real property, or local economic downturn in the aforementioned cities, will have direct effect on the residential housing price levels as well as the customers' ability to purchase and sell residential housing. Further, the success of the Group is dependent on the Group making accurate estimates in relation to its property development projects regarding e.g. costs of production of its projects and demand in the real estate market. Failure to accurately estimate such factors or a decrease in demand due to geographic area specific factors would have a material effect on the Group's prospects of maintaining profitability and a decrease in demand from the Group's main customer group would result in reduced income and loss which will negatively impact the business, financial condition and results of operations of the Group.

Medium level risk

Construction risk

Property investments, construction and property management always contain a technical risk related to the operations of the Group's properties (and properties in general), including, but not limited to, construction issues, hidden defects, damage (including through fire or other natural disasters) and

pollution. These types of technical problems could result in significant unforeseen costs relating to the Group's properties. If the Group encounters any such issues in relation to its properties or if the Group becomes liable for damages caused to the residents of the Group's properties in the future this could substantially increase the costs relating to the properties, which could negatively impact the business, financial condition and results of operations of the Group.

Medium level risk

Competition in the primary markets

Due to stringent market control in first and second tier cities, an increasing number of property developers have begun property development in mid-tier cities. The Group's major competitors comprise of large national and regional property developers, some of which may have longer track records, greater financial and marketing etc. To some extent, the Group also competes with other foreign investors. During the past few years, several foreign-related registration/approval procedures in the real estate industry have been cancelled and the new Foreign Investment Law (which came into force 1 January 2020) treats foreign investments in the property sector equally to domestic equivalents. As PRC public policy thereby facilitates foreign investors' investments in the Chinese property development market, it is highly likely that foreign capital will contribute to a greater share of the Chinese real estate market in the future, leading to increased competition for the Group. Increased competition in relation to the Group's products and customer segments could lead to the Group losing market shares to its competitors resulting in that the Group's ability to maintain profitability is impaired. The Group may also be forced to change its business model to some, or even material, extent which could be costly and time-consuming. Adverse changes to the competitive landscape in which the group operates may therefore have material negative impact on the Group's profitability and future prospects.

LEGAL AND REGULATORY RISK

Medium level risk

Contractual and legal risk related to the pre-sales

The Group derives nearly all of its income from the pre-sale of residential housing. If the Project Companies fail to complete the development where units are pre-sold, they will incur contractual liability for breach under the pre-sale contract in relation to the purchaser of the pre-sold unit. Such breach might also occur during the property development process. In particular, if the delivery under a pre-sales contract is delayed, the Project Companies (except for Qingdao Junshi Property Co., Ltd.) will be liable for a penalty fee in relation to duration of the delay. For Qingdao Junshi Property Co., Ltd., due to local governmental regulation on the pre-sale contract, if the delivery under a pre-sales contract is delayed by up to 30 days, Qingdao Junshi Property Co., Ltd. will be liable for a penalty fee in relation to duration of the delay. If the delay is longer than 30 days, the buyer has a right to withdraw from the pre-sales contract. If the PRC authorities would impose a ban on pre-sales of development property or implement further restrictions, such as requiring the fulfilment of additional conditions for a pre-sale permit or further restrictions on the use of pre-sale proceeds, this would extend the time period required for recovery of the capital outlay and the Project Companies may have to seek alternative means to finance various stages of the property development, which, in turn, will have an adverse effect on the business, results of operations and future prospects of the Group. Furthermore, a total ban on pre-sales could have a material adverse effect on the Group's operations and business prerequisites.

Medium level risk

Purchase restriction and price-curbing policies in PRC

As a general rule in mainland China, local government in cities with high housing price levels may implement purchase restrictions and/or price-curbing policies for a specified period. The Group's current and currently planned target cities are not subject to such policies and have a lower degree of restrictions in place, but the Group may in the future invest in cities where stricter policies and restrictions are in place. Furthermore, there are nationwide lending restrictions in relation to the Group's potential customers which require 30 per cent. down payment for the first house of a family, and 40 or 50 per cent. down payment for the second house of a family. In case of abundance in the property market, increased competition, or where generally lower residential housing price levels drive demand for ownership of multiple properties, such lending restrictions may impede the Group's expansion as customer's access to mortgage financing may decrease. Should any purchase restriction and/or price-curbing policies be applied at all or to a greater extent, or should the Group's customers to a greater extent be hindered to invest in residential property due to decreased access to financing, the sales and business performance of the Group as well as the Group's future prospects would be adversely affected.

Medium level risk

The PRC government may adopt further measures to slow down growth in the property sector

Along with general economic growth in China, domestic and foreign investments in the property sectors have increased significantly in the past few years. In response to concerns over the rapid increase in property investment, PRC government has introduced certain measures, for instance by way of policy, to curtail property developments. Such policies and measures are primarily applied in first and second tier cities, but also several third and fourth tier cities have now adopted their own policies to pre-regulate the potential increase of housing prices. If this trend expands to other cities where the Group currently operate and if the Group fails in its adaption to new policies, regulations and measures that may come into effect from time to time, or if changes to such new policies occur, it would cause business disruption. This would, in turn, lead to increased costs, whereby the Group's future prospects and results of operations would be adversely affected.

Medium level risk

Restrictions on foreign exchange regulations may decrease the flexibility on fund transferring

The PRC government currently implements a foreign exchange control system. Particular foreign exchange policies are in place for the real estate sector, the policies of which constitute a part of the government restrictions on foreign investment in the property sector in order to curtail the overheating of the property sector. At present, and according to articles 3 and 5 of The Ministry of Foreign Trade and Economic Cooperation of the People's Republic of China and the State Administration for Industry and Commerce of the People's Republic of China about the Interim Provisions on the Domestic Investment of Foreign-funded Enterprises (Ch. 商务部、国家工商行政管理局关于外商投资企业境内投资的暂行规定), the Project Companies can make investments through its subsidiaries operating in encouraged and approved industries in China when such subsidiaries raise profits. Future restrictions imposed by PRC government may however affect the Group's ability to make further investments through its subsidiaries in China as capital contributions made to the Group's subsidiaries in China are subject to the foreign exchange regulations in the PRC.

The restrictions imposed by such regulations may decrease the flexibility on fund transferring, including repatriation of funds to the Group, and adversely affect the Group's ability to fund and expand its business in China.

Medium level risk

Extensive governmental regulations

As real estate developers incorporated in China, the Project Companies must comply with various laws and regulations established by national and local authorities. The overall policy in China is to adopt stringent policies on the residential house purchases in order to control the growth of the market, including, but not limited to, limiting availability of housing loans, raising the minimum down payment requirements and limiting the maximum amount of residential housing units that can be owned by one individual. Such restrictive policies have primarily been applied to first and second tier cities. Yantai city, Shandong Province; Qingdao City, Shandong Province; Taian city, Shandong Province; Chengde City, Hebei Province and Shenyang City, Liaoning Province have not been regarded as first-tier cities and are, therefore, not subject to such strict policies, but if stricter policies on residential house purchases would be adapted, combined with the Project Companies' potential failure to adapt their respective operations to the new policies, it would result in the business, financial conditions and earning results of the Group being adversely affected.

INTERNAL CONTROL RISK

Medium level risk

There is a need to obtain land use right certificate and other relevant certificates with respect to the acquired land through bidding

The acquisition of land where the Group operates is carried out by way of public bidding and the relevant local government signs Letter of Acceptance and a Land Use Right Transfer Agreement with the winning bidder after such auction in order to transfer the use right of the land to the bidder. Bidders that participate in such land auctions compete with the highest price, and it is, therefore, not certain that the Group will be able to compete with highest price in such auctions.

In order to carry out property development operations, the relevant company that is to carry out the operations must obtain a Real Estate Developer Certificate, a Land-use-right Certificate, an Approval/filing of the Environment Impact Assessment, a certificate of project filing, a Construction Land Planning Permit, a Construction Planning Permit, a Construction Permit and one or several Pre-sale Permits. The relevant Group Companies apply gradually for such certificates, permits and approvals. As of 5 November 2020, the Project Companies have signed nine land transfer agreements with the Land and Resource Bureau after public bidding. As of 5 November 2020, Yantai Zhuji Hammarby Ruiming Property Co., Ltd., and Qingdao Junshi Property Co., Ltd., have received all the above-mentioned certificates, permits and approvals. Yantai Jinghui Property Co., Ltd., Yantai Zhuji Hammarby Ruituo Property Co., Ltd., and Chengde Changruida real estate Co., Ltd. have received the Pre-sale Permit partially and received all the other above-mentioned certificates, permits and approvals. Shenyang White Peak Ruizhi real estate Co., Ltd. has received all the aforementioned certificates, permits and approvals except for the Pre-sale Permit. Qingdao Sino-Sweden Huachuang Real Estate Development Co., Ltd. has received all the above-mentioned certificates, permits and approvals except for a Land-use-right Certificate and the Pre-sale Permit. If such permits and approvals are not obtained in relation to the Group's future operations following an expansion of the Group's

business activities it could have a materially adverse effect on the business, financial condition and results of the Group.

If the Project Companies or any future Group Company carrying out property development operations fail to win public land auctions or fail to obtain, or experience material delay in obtaining the above-mentioned certificates, permits or approvals, the signing and/or performance of certain necessary business agreements, the project construction, and consequently the pre-sales may be delayed, leading to severe business interruptions and losses and even breach of contract. Should such risks materialise, the business, financial condition and results of operations of the Group would be materially adversely affected.

Medium level risk

The local government may impose fines on the Project Companies or take back the land if the development is not in accordance with the terms set out in the land transfer contract

The acquisition of land where the Group operates is carried out by way of public bidding. Subject to meeting certain regulatory requirements and upon payment of a deposit, bidders are entitled to bid online and the winner is the bidder offering the highest auction price. Once the public auction is finished, the relevant government will sign a Letter of Acceptance and a Land Use Right Transfer Agreement with the final bidder to transfer the use right of the land to the bidder. Such agreement may impose a certain price increase if the purchase price is not paid in a timely manner. Furthermore, if the purchase price is not paid within a certain stipulated time period, the government is entitled to take back the land whereby the purchase price is repaid. If the Group fails to compete with the highest price in such auction, it could materially and adversely affect the Group's business, results of operations and financial condition.

Where the Group acquires land successfully, the relevant Group Company enters into a Land Use Right Transfer Agreement with the local government that stipulates certain terms regarding, *inter alia*, payment of the purchase price. The Project Companies have purchased land from the local government and thereby entered into a Land Use Right Transfer Agreement. If the Project Companies fail to perform under such agreements, including the failure to pay the land purchase price within a certain stipulated time period, the failure to adhere to the specified use of the land and the time for commencement as well as failure to complete the development, the government may impose penalties, liquidated damages and/or take back the land. As of 5 November 2020, Taian Ruifeng Real Estate Co., Ltd. (hereinafter referred to as "**Ruifeng**") has signed a Land Use Right Transfer Agreement regarding certain land at a purchase price amounting to CNY 789,811,200.00, out of which 50 per cent. shall be paid within 30 days from the date that the Land Use Right Transfer Agreement was signed, and the remaining 50 per cent. shall be paid within 1 year from the date that the Land Use Right Transfer Agreement was signed. If payment is not made when due, the price will be increased by 0.1 per cent. per day over a period of 60 days. If the purchase price has not been paid following the 60 day period, the local government is entitled to terminate the agreement and reclaim the land. There is a risk that the Group fails to finance the purchase price in relation to the Land Use Right Agreement entered into by Ruifeng. If the Project Companies do not comply with the contract terms, the land may be taken back by the government and the project companies would lose the opportunity to develop the property, which would materially and adversely affect the Group's business, results of operations and financial condition.

Medium level risk

The Group may not be able to effectively manage expansion and growth

The Group has historically focused on developing properties in mid-tier cities in China, and has expanded progressively in such cities and plans to further explore such markets. The Group also seeks new opportunities domestically in the Shandong, Hebei and Liaoning provinces, where the Group currently obtains more market experience.

Any Group expansion is primarily based on the Group's forward-looking assessment of market prospects, including the probable rate of urbanisation. Such expansion is dependent on the uniqueness and effectiveness of the assessment of the market prospects as well as the assessment methodology concluded by experience. In relation to the cities where the Group is already established, the Group may rely on its expertise and market knowledge. As the Group however enters into new markets, it may lack the same level of familiarity with contractors, business practices and customs and may encounter unexpected or increased competition from developers with an established presence in such areas. If the Group's assessments would turn out to be inaccurate it could lead to expansions failing and financial development being inhibited which would cause business disruption. Furthermore, such expansion may place a substantial strain on the Group's financial resources. Should the Group's expansion efforts prove to be unsuccessful, it could lead to increased costs and divert the management's focus from the day-to-day business operations of the Group. Failure of such expansion efforts may materially and adversely affect the business, results of operations future prospects of the Group.

Medium level risk

Dependence on independent contractors

The Group engages, most often through a formal bidding process, independent contractors to provide services, including but not limited to construction, piling and foundation, engineering, interior decoration, mechanical and electrical installation and utilities installation. Completion of the Group's development projects is therefore dependent on such individual contractors' provision of services that meet the Group's standards in terms of quality, safety and project timelines. If the services rendered by such independent contractors or their subcontractors, as the case may be, does not meet the Group's requirements and needs in a timely manner or at all the Group may need to replace the contractor or take other actions to mitigate risk of loss, which could inflate project costs and delay the completion, and correspondingly, adversely affect the business, prospects, financial condition and results of operations of the Group.

The construction law of PRC provides that a project owner shall apply for construction permit from the local government before commencing the construction work. There is a risk that the contractor commences the construction work without such a permit, whereby both the project owner and the contractor would be subject to administrative fines. For the project owner, the fine could range from one up to two per cent. of the total contract value of the construction. Such violation would also be made public, thus affecting the reputation of the project owner. If the Group cannot take sufficient measures to prevent a contractor from violating the said law and related regulations, and fails to take such measures it would subject Project Companies to administrative penalty, which, if materialised, would adversely affect the business results of operation and financial condition of the Group.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE RISK

Medium level risk

Potential liability for environmental damages

The Project Companies are subject to a variety of laws and regulations concerning the protection of the environment in mainland China, the compliance with which may significantly delay certain development projects. Moreover, each property development project is required by law and regulations to undergo an environmental assessment with a subsequent submission of an environmental impact assessment report or form, as the case may be, to the relevant government authorities for approval before commencement of construction. Failure to obtain such approval before construction starts will result in penalties. If the Group, when expanding its operations, faces the same or similar requirements for a certain project and its efforts to complete such assessments are insufficient it could cause delay or increased costs. Furthermore, if stricter or materially different regulations are adopted in the future, the Group or any future company of the Group may fail to comply with such regulations or that the costs of compliance can be offset against income from the relevant property development project. Should any future development projects be delayed or strained with additional costs due to that the environmental impact assessment cannot be carried out in an adequate manner, it would result in administrative fines, increased cost, delay of projects and breach of contract, which would adversely affect the Group's business, results of operations and financial condition.

Low level risk

The Project Companies maintain a certain amount of indebtedness and may be subject to risk of inadequate fund in the land development financing

The Project Companies have incurred certain levels of debt in relation to early stage project expenses, such as deed tax, fees of planning and design. In order to meet its payment obligations as they fall due, the Project Companies are dependent on sufficient levels of cash-flow. Should the Project Companies lack sufficient cash to service its debt in a due and timely manner, there is a risk that the Project Companies are in default and need to obtain additional short-term financing for such obligations and also additional long-term financing for the subsequent development. Should the Project Companies be in default under their payment obligations additional costs will be incurred and the Group's access to financing be impaired, all of which would have negative impact on the financial condition, results of operations and future prospects of the Group.

Low level risk

Potential losses not covered by insurance

The Group normally requires that its independent contractors procure all necessary insurance coverage for construction works and installation, as well as procure third party liability insurance. If any independent contractor fails to procure such insurance coverage in a timely manner or at all, and any risks remain uninsured due to that the Project Companies has not insured such risks, there is a risk that uninsured risks, if they materialise, lead to claims for damages, whether from contractual counterparties, third parties or otherwise, which could result in direct loss, damaged reputation and liability in relation to the Group's projects. This would, in turn, adversely affect the business, financial conditions and results of operations of the Group.

RISKS RELATING TO THE BONDS

RISK RELATED TO THE NATURE OF THE BONDS

Medium level risk

Change of general partner

Following any potential change in the general partner, White Peak IV Limited, of the fund, White Peak Real Estate IV L.P., to such effect that White Peak IV Limited ceases to be the sole general partner of the fund, the fund may be managed by general partners whose interest may conflict with those of the bondholders. The general partner sets the strategy for the fund and will thus control its policies and operational course. Should a change in the composition of the general partner occur, there is a risk that inter alia the fund will not be as profitable as otherwise anticipated due to e.g. changes in the fund's strategies. If such an event were to arise, it could have a negative impact on the Group's operations, earnings and financial position. However, the bondholders have according to the Terms and Conditions a right of prepayment of the Bonds (put option) if a change in the general partner occurs prior to an equity listing event. There is thus a risk that the Issuer does not have enough liquidity to repurchase the Bonds if the bondholders use its right of prepayment, see further under Section "Put options" below.

Medium level risk

Put Options

The Bonds are, according to the Terms and Conditions, subject to mandatory repurchase (put options) if (i) a change in the general partner occurs prior to an equity listing event, (ii) one or more persons (other than certain cornerstone investors) acquire control over the Issuer following an equity listing event, or (iii) certain key persons, being Gerard De Geer, Jesper Jos Olsson, Peter Leimdörfer and Eric Hao, ceases to be investors in and/or actively involved in the White Peak Group (as defined below) to such extent that less than two key persons continues to be investors and actively involved in the White Peak Group. There is a risk that the Issuer will not have sufficient funds at the time of such prepayment to make the required prepayment of the Bonds which could adversely affect the Issuer, e.g. by causing insolvency or an event of default under the Terms and Conditions, and thus adversely affect all bondholders and not only those that choose to exercise the option.

Medium level risk

Risks related to early redemption

Under the Terms and Conditions, the Issuer has reserved the possibility to redeem all outstanding Bonds before the final redemption date. If the Bonds are redeemed before the final redemption date, the holders of the Bonds have the right to receive an early redemption amount which exceeds the nominal amount in accordance with the Terms and Conditions. However, there is a risk that the market value of the Bonds is higher than the early redemption amount and that it may not be possible for bondholders to reinvest such proceeds at an effective interest rate as high as the interest rate on the Bonds and may only be able to do so at a significantly lower rate. It is further possible that the Issuer will not have sufficient funds at the time of the mandatory prepayment to carry out the required redemption of Bonds.

Medium level risk

Green bonds

The Net Proceeds from the Bond Issue, and any subsequent issue of Bonds, will be used for general corporate purposes, including acquisitions of land, building rights and property development, in each

case in accordance with the Issuer's green bond framework (the "**Green Bond Framework**") applicable from time to time. As such, the Bonds will comply with the Green Bond Framework as it appeared on 5 July 2019 and any changes made to the Green Bond Framework after the initial issuance of the Bonds will not influence the Bonds issued in the Bond Issue. However, the Issuer's Green Bond Framework as well as the prevailing market practices and market standards for green bonds may develop or change after the issuance of the Bonds, which may entail changes to the Green Bond Framework applicable in relation to any subsequent issuance of Bonds and may also entail changed conditions for the Issuer.

There is currently no clear definition, whether legal or otherwise, or market consensus as to what constitutes, a "green" or an equivalently-labelled project or what is precisely required for that a particular project may be defined as "green" or equivalently labelled. Accordingly, there is a risk that any projects, asset or uses defined in the Green Bond Framework will not meet current or future investor expectations regarding such "green" or other equivalently-labelled performance objectives. There is also a risk that future developments in the definitions of "green" projects, towards which proceeds may be applied in accordance with the Green Bond Framework, render the eligible projects for the Bond Issue, as described in the Green Bond Framework, obsolete.

The proceeds from each Bond Issue are to be applied, *inter alia*, in accordance with the Green Bond Framework. There is a risk that such use of proceeds cannot satisfy present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor is required to comply, whether according to applicable law or regulations or by such investor's own by-laws, other governing rules or investment portfolio mandates. Furthermore, the Bonds categorise as a different type of bond investment than such debt instruments that a presumptive bond investor may have invested in historically. There is a risk that the Bonds issued in accordance with the Green Bond Framework do not correspond to, or otherwise meet, the expectations of investors, the current request for such investments on the market for bonds in general or green bonds in particular or that investors may lack the mandate to invest in green bonds.

A failure by the Issuer to meet the Green Bond Framework does not constitute an Event of Default under the Terms and Conditions. Bondholders do not either have a put option or any other right to prepayment in case of the Issuer's failure to comply with the Green Bond Framework. Hence, there is a risk that the expectations of investors, insofar such expectations are related to the compliance with the Green Bond Framework, are not met.

Low level risk

Risk relating to third party certification

The Issuer has appointed the Center for International Climate and Environmental Research ("**CICERO**") for an independent, research-based evaluation of the Green Bond Framework to determine its environmental robustness. The evaluation resulted in a second opinion dated on 20 June 2019 (the "**Second Opinion**") according to which the Green Bond Framework has obtained a Medium Green shading. CICERO is neither responsible for how the Green Bond Framework is implemented and followed up by investors, authorities (as applicable) or other stakeholders, nor is CICERO responsible for the outcome of investments in projects described as eligible projects in the Green Bond Framework. There is a risk that the suitability or reliability of any opinions issued by CICERO or any other third party, relied on in connection with any issue of Bonds or for post-issuance review of any kind, may be questioned by the Issuer, a potential investor, the bondholders or any third party. As any such opinion or certification is current only as of the date of its initial issuance, there is a risk that such opinion or certification is deemed irrelevant at a later stage or by any investors in the Bonds.

Furthermore, the providers of such opinions and certifications are currently not subject to any specific regulatory or other regime or oversight, and there is a risk, upon such requirements becoming mandatory, that such providers will be deemed as not being reliable or objective in the future.

RISK RELATING TO SECURITY

Low level risk

Enforcement of transaction security

The Issuer's obligations towards the bondholders is secured by a first priority pledge over the shares in the Issuer which is governed by Hong Kong law, and any enforcement of such security would need to be enforced in accordance with the procedures prescribed by the laws of Hong Kong. Further, it is not certain that the proceeds of any enforcement sale of the security assets would be sufficient to satisfy all amounts then owed to the bondholders or that such enforcement sale may be carried out without substantial delay. If the proceeds of an enforcement are not sufficient to repay all amounts due under or in respect of the Bonds, then the bondholders will only have an unsecured claim against the Issuer and its remaining assets (if any) for the amounts which remain outstanding under or in respect of the Bonds.

Low level risk

Security over assets granted to third parties

Subject to certain limitations from time to time, the Issuer or any Group Company may incur additional financial indebtedness and provide additional security for such indebtedness. If security is granted in favour of a third party debt provider, the bondholders will, in the event of bankruptcy, re-organisation or winding-up of the Issuer, be subordinated in right of payment out of the assets being subject to security provided to such third party debt provider. In addition, if any such third party debt provider holding security provided by the Group were to enforce such security due to a default by any Group Company under the relevant finance documents, such enforcement could have a significant negative effect on the Group's assets, operations and, ultimately, the financial position of the bondholders.

Low level risk

Risks relating to sharing the security

The Transaction Security is shared with other parties, including the lender under a term loan facility agreement entered into between the Issuer and a Swedish bank (the "**Term Loan Facility**"). The Issuer, the Agent, Security Agent (being per the date of Prospectus Nordic Trustee & Agency AB (publ)) and the lender under the Term Loan Facility have entered into an intercreditor agreement, dated 3 August 2020, (the "**Intercreditor Agreement**") providing for, amongst other things, pro rata sharing of the Transaction Security between the Bonds and the lender under the Term Loan Facility.

It is not certain that the proceeds of any enforcement sale of the security assets would be sufficient to satisfy all amounts then owed to the bondholders and the providers under the Existing Bonds or the lender under the Term Loan Facility. If the proceeds of an enforcement are not sufficient to repay all amounts due under or in respect of the Bonds, then the bondholders will only have an unsecured claim against the Issuer and its remaining assets (if any) for the amounts which remain outstanding under or in respect of the Bonds. Furthermore, if the Issuer incur additional debt that will share the

security under the Intercreditor Agreement, the security position of the current bondholders may be impaired.

The Security Agent will in accordance with the Intercreditor Agreement in some cases take instructions from a senior representative, being those senior creditors whose senior debt at that time aggregate to more than 50 per cent. of the total senior debt. If the outstanding senior debt towards other senior creditors than the bondholders exceeds the obligations under the Bonds, the bondholders will therefore not be in a position to control the enforcement procedure.

RISK RELATED TO SUBSIDIARIES

Medium level risk

The Issuer is dependent on its subsidiaries

A significant part of the Group's assets and revenues relate to the Issuer's subsidiaries. Accordingly, the Issuer is dependent upon receipt of sufficient distributions and cash flow related to the operation of and its ownership in the subsidiaries to enable it to make payments under the Bonds. Consequently, the Issuer is dependent on the subsidiaries' results of operations, availability of cash and their legal ability to make dividends or other value transfers which may from time to time be limited by corporate restrictions and law. Should the Issuer not receive sufficient cash distributions from its subsidiaries, the investor's ability to receive payment under the Terms and Conditions may be adversely affected.

The Group or its assets may not be protected from any actions by the creditors of any subsidiary of the Group, whether under bankruptcy law, by contract or otherwise. In addition, defaults by, or the insolvency of, certain subsidiaries of the Group could result in the obligation of the Group to make payments under the relevant parent company's financial or performance guarantees in respect of such subsidiaries' obligations or the occurrence of cross defaults on certain borrowings of the Group which would have a negative effect on the Issuer's business, financial position, earnings and results.

RISK RELATING TO THE BONDHOLDERS' RIGHTS AND REPRESENTATION

Low level risk

The rights of bondholders depend on the Agent's actions and financial standing

By subscribing for, or accepting the assignment of, any Bond, each bondholder will accept the appointment of the Agent to act on its behalf and to perform administrative functions relating to the Bonds. The Agent shall have, among other things, the right to represent the bondholders in all court and administrative proceedings in respect of the Bonds. However, the rights, duties and obligations of the Agent as the representative of the holders of the Bonds are subject to the provisions of the Terms and Conditions, and there is no specific legislation or market practice in Sweden (under which laws the Terms and Conditions are governed) which would govern the Agent's performance of its duties and obligations relating to the Bonds. There is a risk that a failure by the Agent to perform its duties and obligations properly or at all will adversely affect the enforcement of the rights of the bondholders.

The Agent may be replaced by a successor Agent in accordance with the Terms and Conditions. Generally, the successor Agent has the same rights and obligations as the resigned Agent. It may be difficult to find a successor Agent with commercially acceptable terms or at all. Further, there is a risk

that that the successor Agent would breach its obligations under the above documents or that insolvency proceedings would be initiated against it.

There is a risk that materialisation of any of the above risks will have a material adverse effect on the enforcement of the rights of the bondholders and the rights of the bondholders to receive payments under the Bonds.

Low level risk

No action against the Issuer and bondholders' representation

In accordance with the Terms and Conditions, the Agent represent all bondholders in all matters relating to the Bonds and the bondholders are prevented from taking actions on their own against the Issuer. Consequently, individual bondholders do not have the right to take legal actions to declare any default by claiming any payment from the Issuer and may therefore lack effective remedies unless and until a requisite majority of the bondholders agree to take such action. However, there is a risk that an individual bondholder, in certain situations, could bring its own action against the Issuer (in breach of the Terms and Conditions), which could negatively impact an acceleration of the Bonds or other action against the Issuer.

To enable the Agent to represent bondholders in court, the bondholders and/or their nominees may have to submit a written power of attorney for legal proceedings. The failure of all bondholders to submit such a power of attorney could negatively affect the legal proceedings. Under the Terms and Conditions, the Agent, in some cases, have the right to make decisions and take measures that bind all bondholders. Consequently, there is a risk that the actions of the Agent in such matters will impact a bondholder's rights under the Terms and Conditions in a manner that is undesirable for some of the bondholders. There is also risk that a Swedish court will not recognise the Agent's right to represent bondholders in court, solely with reference to the Terms and Conditions. Thus, if such a written power of attorney may not be obtained from the bondholders, there is a risk that the Agent will not be able to represent the bondholders in court, which would have a negative impact on the bondholders' possibility to have a legal matter regarding the bonds tried by a court.

Low level risk

Bondholders' meetings and written procedures

The Terms and Conditions allow for stated majorities to bind all bondholders, including bondholders who have not taken part in the meeting or written procedure and those who have voted differently to the required majority at a duly convened and conducted bondholders' meeting or written procedure. A bondholder may, for instance, be bound by a majority decision to accept changes to the core aspects of the bond terms, such as changes to the interest payment dates, changes to the interest rate, extension of the final maturity date or a changes of the transaction security. Consequently, there is a risk that the actions of the majority in such matters will impact a bondholder's rights in a manner that is undesirable for some of the bondholders.

DESCRIPTION OF MATERIAL AGREEMENTS

The following is a summary of the material terms of material agreements to which the Issuer is a party and considered as outside of the ordinary course of business. The following summaries do not purport to describe all of the applicable terms and conditions of such arrangements.

On 5 July 2019, the Issuer issued bonds in an initial aggregate amount of up to SEK 600,000,000 under the Issuer's existing green bond framework of up to SEK 1,000,000,000 with ISIN SE0012741064 (the "**2019 Bonds**"). The Subordinated Shareholder has granted shareholder loans to the Issuer and may grant further shareholder loans to the Issuer in the future.

In accordance with the Subordination Agreement, the Bondholders, the Agent, the Security Agent, any Eligible New Debt Creditors and any hedge counterparties (each as defined in the 2019 Terms and Conditions) and the Subordinated Shareholder agree that their respective claims against the Issuer shall rank in the following order of priority:

- first, the Senior Debt; and
- secondly, the Shareholder Debt (each as defined in the Subordination Agreement).

For the purpose of this section "*Subordination Agreement*", the below listed terms shall have the following meaning:

Senior Debt means all present and future obligations and liabilities of the Issuer to the Senior Creditors under the Finance Documents (including for the avoidance of doubt, all obligations and liabilities under the 2019 Bonds and the Bonds), any document evidencing Eligible New Debt and any hedging agreement (each as defined in the 2019 Terms and Conditions and the Terms and Conditions).

Shareholder Debt means all present and future payment obligations of the Issuer to the Subordinated Shareholder.

The Subordination Agreement is a finance document under the Terms and Conditions and thus also applies to the Bonds.

The commitment under the Term Loan Facility Agreement amounts to SEK 350,000,000. The loan under the Term Loan Facility Agreement may be applied for the purpose of (i) making acquisitions of properties, (ii) payment of management fees, (iii) project development of investments in the People's Republic of China or in another market approved by the Lender, (iv) development costs attributable to completed investments and (v) payment of transaction costs (including hedging costs and costs attributable to the establishment of the Loan) (each as defined in the Term Loan Facility Agreement). The Issuer shall repay the loan under the Term Loan Facility Agreement in full on 30 September 2022.

Intercreditor Agreement

The Issuer has entered into an intercreditor agreement dated 3 August 2020, between, the agent and the security agent under the 2019 Bonds and the Bonds, and the lender under a term loan facility (the "**Intercreditor Agreement**"). The parties to the Intercreditor Agreement have agreed that their respective claims against the Issuer shall rank in the following order of priority:

- (a) *first*, the Super Senior Hedging Obligations (as defined in the Intercreditor Agreement); and
- (b) *secondly*, the Senior Debt (*pari passu* between all indebtedness under the Bonds, the Term Loan Agreement and any Eligible New Debt) (each as defined in the Intercreditor Agreement).

For the purpose of this section "*Intercreditor Agreement*", the below listed terms shall have the following meaning:

Super Senior Hedging Obligations	means all present and future moneys, debts and liabilities due, owing or incurred from time to time by the Issuer to any Super Senior Hedge Counterparty under or in connection with any Super Senior Hedging Agreement (each as defined in the Intercreditor Agreement).
Senior Debt	means the Bonds Debt, the Term Loan Debt and any Eligible New Debt (each as defined in the Intercreditor Agreement).

Business, operations and market overview

The business and operations of the Group revolves around residential property development in Tier-Two and Tier-Three cities in mainland China and the Group is responsible for the whole development process from acquiring land use rights, constructing buildings to selling the apartments. The Group develops sustainable and environmentally friendly green projects by leveraging Swedish technology and expertise in China's rapidly growing urban areas. The development and constructions are done through the Group's Project Companies and the Group also engages independent contractors in pursuing its strategic objectives. The Group applies Swedish management principles to the city selection, product design and project selection and, therefore, offers a unique Scandinavian approach to investments in China's underserved residential property market.

The Group has a main focus on residential development in the Shandong, Liaoning and Hebei Provinces of mainland China and, currently, the Group has nine active ongoing projects in six cities across the Shandong, Liaoning and Hebei Provinces, in which the Issuer will aim to integrate the Swedish innovation, lifestyle and sustainability with eco-living zones through collaboration with market-leading Swedish companies.

The Group applies a prudent business model due to its data-driven approach. Further, the Group focuses on customers with low leverage and all land use rights that the Group acquires are already planned and 100 per cent. owned by the local government. The apartments are then pre-sold within 9-12 months from the acquisition of the land use rights, primarily against 100 per cent. upfront cash payment.

Regulated sector

The property sector in China is regulated. The process for acquiring land use rights in China is done through a bidding procedure which is complex and involves a number of formal documents to be produced and permits and licenses to be acquired, in order for a potential buyer to be eligible for acquisition, which is a business landscape the Group has learned to navigate. Another aspect of the regulated environment is limitations on financing property development projects, where banks are restricted from providing financing unless a number of formal documents are produced and the developers own capital investment in the property development project is not less than 35 per cent. of the total investment amount for the project. The Group has close relationships with its financiers

and has over the years developed internal procedures accustomed for the financing climate in China. Other regulations and limitations include purchase restrictions and price curbing policies.

- (f) Any matter not covered by Clause 16(e) shall require the consent of Bondholders representing more than 50 per cent. of the Adjusted Nominal Amount for which Bondholders are voting at a Bondholders' Meeting or for which Bondholders reply in a Written Procedure in accordance with the instructions given pursuant to Clause 18(c). This includes, but is not limited to, any amendment to, or waiver of, the terms of any Finance Document that does not require a higher majority (other than an amendment permitted pursuant to Clause 19(a)(i) or 19(a)(ii)), an acceleration of the Bonds or the enforcement of any Transaction Security.

- (g) Quorum at a Bondholders' Meeting or in respect of a Written Procedure only exists if a Bondholder (or Bondholders) representing at least fifty (50) per cent. of the Adjusted Nominal Amount in case of a matter pursuant to Clause 16(e), and otherwise twenty (20) per cent. of the Adjusted Nominal Amount:

 - (ii) if in respect of a Written Procedure, reply to the request.
- If a quorum exists for some, but not all, of the matters to be dealt with at a Bondholders' Meeting or by a Written Procedure, decisions may be taken in the matters for which a quorum exists.
- (h) If a quorum does not exist at a Bondholders' Meeting or in respect of a Written Procedure, the Agent or the Issuer shall convene a second Bondholders' Meeting (in accordance with Clause 17(a)) or initiate a second Written Procedure (in accordance with Clause 18(a)), as the case may be, provided that the relevant proposal has not been withdrawn by the Person(s) who initiated the procedure for Bondholders' consent. The quorum requirement in Clause 16(g) shall not apply to such second Bondholders' Meeting or Written Procedure.
- (i) Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as appropriate.
- (j) A Bondholder holding more than one Bond need not use all its votes or cast all the votes to which it is entitled in the same way and may in its discretion use or cast some of its votes only.
- (k) The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Bondholder for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders that consent at the relevant Bondholders' Meeting or in a Written Procedure within the time period stipulated for the consideration to be payable or the time period for replies in the Written Procedure, as the case may be.
- (l) A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other Bondholders.
- (m) All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- (n) If a decision shall be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies or (to the knowledge of the Issuer) Affiliates, irrespective of whether such Person is directly registered as owner of such Bonds. The Agent shall not be responsible for the accuracy

of such certificate or otherwise be responsible to determine whether a Bond is owned by a Group Company or an Affiliate.

- (o) Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to the Bondholders and published on the websites of the Group and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

17. Bondholders' Meeting

- (a) The Agent shall convene a Bondholders' Meeting by sending a notice thereof to each Bondholder no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons).
- (b) Should the Issuer want to replace the Agent, it may convene a Bondholders' Meeting in accordance with Clause 17(a) with a copy to the Agent. After a request from the Bondholders pursuant to Clause 20.4(c), the Issuer shall no later than five (5) Business Days after receipt of such request (or such later date as may be necessary for technical or administrative reasons) convene a Bondholders' Meeting in accordance with Clause 17(a).
- (c) The notice pursuant to Clause 17(a) shall include (i) time for the meeting, (ii) place for the meeting, (iii) agenda for the meeting (including each request for a decision by the Bondholders) and (iv) a form of power of attorney. Only matters that have been included in the notice may be resolved upon at the Bondholders' Meeting. Should prior notification by the Bondholders be required in order to attend the Bondholders' Meeting, such requirement shall be included in the notice.
- (d) The Bondholders' Meeting shall be held no earlier than fifteen (15) Business Days and no later than thirty (30) Business Days from the notice.
- (e) Without amending or varying these Terms and Conditions, the Agent may prescribe such further regulations regarding the convening and holding of a Bondholders' Meeting as the Agent may deem appropriate. Such regulations may include a possibility for Bondholders to vote without attending the meeting in person.

18. Written Procedure

- (a) The Agent shall instigate a Written Procedure (which may be conducted electronically) no later than five (5) Business Days after receipt of a request from the Issuer or the Bondholder(s) (or such later date as may be necessary for technical or administrative reasons) by sending a communication to each such Person who is registered as a Bondholder on the Business Day prior to the date on which the communication is sent.
- (b) Should the Issuer want to replace the Agent, it may send a communication in accordance with Clause 18(a) to each Bondholder with a copy to the Agent.
- (c) A communication pursuant to Clause 18(a) shall include (i) each request for a decision by the Bondholders, (ii) a description of the reasons for each request, (iii) a

specification of the Business Day on which a Person must be registered as a Bondholder in order to be entitled to exercise voting rights, (iv) instructions and directions on where to receive a form for replying to the request (such form to include an option to vote yes or no for each request) as well as a form of power of attorney, and (v) the stipulated time period within which the Bondholder must reply to the request (such time period to last at least fifteen (15) Business Days from the communication pursuant to Clause 18(a)). If the voting shall be made electronically, instructions for such voting shall be included in the communication.

- (d) When the requisite majority consents of the total Adjusted Nominal Amount pursuant to Clauses 16(e) and 16(f) have been received in a Written Procedure, the relevant decision shall be deemed to be adopted pursuant to Clause 16(e) or 16(f), as the case may be, even if the time period for replies in the Written Procedure has not yet expired.

19. Amendments and Waivers

- (a) The Issuer and the Agent and/or the Security Agent (as applicable) (in each case acting on behalf of the Bondholders) may agree to amend the Finance Documents or waive any provision in a Finance Document, provided that:
- (i) such amendment or waiver is not detrimental to the interest of the Bondholders, or is made solely for the purpose of rectifying obvious errors and mistakes;
 - (ii) such amendment or waiver is required by applicable law, a court ruling or a decision by a relevant authority; or
 - (iii) such amendment or waiver has been duly approved by the Bondholders in accordance with Clause 16 (*Decisions by Bondholders*).
- (b) The consent of the Bondholders is not necessary to approve the particular form of any amendment to the Finance Documents. It is sufficient if such consent approves the substance of the amendment or waiver.
- (c) The Agent shall promptly notify the Bondholders of any amendments or waivers made in accordance with Clause 19(a), setting out the date from which the amendment or waiver will be effective, and ensure that any amendments to the Finance Documents are published in the manner stipulated in Clause 11.3 (*Publication of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority, to the extent such registration is possible with the rules of the relevant CSD.
- (d) An amendment to the Finance Documents shall take effect on the date determined by the Bondholders Meeting, in the Written Procedure or by the Agent, as the case may be.

20. Appointment and Replacement of the Agent and the Security Agent

20.1 Appointment of Agent and the Security Agent

- (a) By subscribing for Bonds, each initial Bondholder:

- (i) appoints the Agent and the Security Agent to act as its agent and security agent (as applicable) in all matters relating to the Bonds and the Finance Documents, and authorises each of the Agent and the Security Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder including any legal or arbitration proceeding relating to the perfection, preservation, protection or enforcement of the Transaction Security; and
 - (ii) confirms the appointment under the Intercreditor Agreement of the Security Agent to act as its agent in all matters relating to the Transaction Security and the Security Documents, including any legal or arbitration proceeding relating to the perfection, preservation, protection or enforcement of the Transaction Security and acknowledges and agrees that the rights, obligations, role of and limitations of liability for the Security Agent is further regulated in the Intercreditor Agreement.
- (b) By acquiring Bonds, each subsequent Bondholder confirms the appointment and authorisation for the Agent and the Security Agent to act on its behalf, as set forth in Clause 20.1(a).
- (c) Each Bondholder shall immediately upon request provide the Agent and the Security Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent or the Security Agent, as applicable), that the Agent or the Security Agent (as applicable) deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. Neither the Agent nor the Security Agent is under any obligation to represent a Bondholder which does not comply with such request.
- (d) The Issuer shall promptly upon request provide the Agent and the Security Agent with any documents and other assistance (in form and substance satisfactory to the Agent or the Security Agent, as applicable), that the Agent or the Security Agent (as applicable) deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- (e) Each of the Agent and the Security Agent is entitled to fees for its respective work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agent's and the Security Agent's respective obligations as Agent and Security Agent (as applicable) under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- (f) Each of the Agent and the Security Agent may act as agent or trustee for several issues of securities issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

20.2 Duties of the Agent and the Security Agent

- (a) Each of the Agent and the Security Agent shall represent the Bondholders subject to and in accordance with the Finance Documents, including, *inter alia*, holding the Transaction Security pursuant to the Security Documents on behalf of the Bondholders and, where relevant, enforcing the Transaction Security on behalf of the Bondholders. Neither the Agent nor the Security Agent is responsible for the content,

valid execution, legal validity or enforceability of the Finance Documents or the perfection of the Transaction Security.

- (b) When acting in accordance with the Finance Documents, each of the Agent and the Security Agent is always acting with binding effect on behalf of the Bondholders. Each of the Agent and the Security Agent shall carry out its duties under the Finance Documents in a reasonable, proficient and professional manner, with reasonable care and skill.
- (c) Each of the Agent's and the Security Agent's duties under the Finance Documents are solely mechanical and administrative in nature and the Agent and the Security Agent only acts in accordance with the Finance Documents and upon instructions from the Bondholders, unless otherwise set out in the Finance Documents. In particular, neither the Agent nor the Security Agent is acting as an advisor (whether legal, financial or otherwise) to the Bondholders or any other Person.
- (d) Neither the Agent nor the Security Agent is obligated to assess or monitor the financial condition of the Issuer or compliance by the Issuer of the terms of the Finance Documents unless to the extent expressly set out in the Finance Documents, or to take any steps to ascertain whether any Event of Default (or any event that may lead to an Event of Default) has occurred. Until it has actual knowledge to the contrary, each of the Agent and the Security Agent is entitled to assume that no Event of Default (or any event that may lead to an Event of Default) has occurred.
- (e) Each of the Agent and the Security Agent is entitled to delegate its duties to other professional parties, but each of them shall remain liable for the actions of such parties under the Finance Documents.
- (f) Each of the Agent and the Security Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other Person, other than as explicitly stated in the Finance Documents.
- (g) Each of the Agent and the Security Agent is entitled to engage external experts when carrying out its duties under the Finance Documents. The Issuer shall on demand by the Agent and/or the Security Agent pay all costs for external experts engaged after the occurrence of an Event of Default, or for the purpose of investigating or considering (i) an event which the Agent reasonably believes is or may lead to an Event of Default, (ii) a matter relating to the Issuer or the Transaction Security which the Agent and/or the Security Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents or (iii) as otherwise agreed between the Agent and/or the Security Agent and the Issuer. Any compensation for damages or other recoveries received by the Agent and/or the Security Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 15 (*Distribution of Proceeds*).
- (h) Notwithstanding any other provision of the Finance Documents to the contrary, neither the Agent nor the Security Agent is obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any law or regulation.

- (i) If in the Agent's or Security Agent's (as applicable) reasonable opinion the cost, loss or liability which it may incur (including its respective reasonable fees) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, or the Bondholders (as applicable), the Agent or the Security Agent (as applicable) may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- (j) Unless it has actual knowledge to the contrary, each of the Agent and the Security Agent may assume that all information provided by or on behalf of the Issuer (including by its advisors) is correct, true and complete in all aspects.
- (k) Each of the Agent and the Security Agent shall give a notice to the Bondholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Agent or the Security Agent under the Finance Documents or (ii) if it refrains from acting for any reason described in Clause 20.2(i).

20.3 Limited liability for the Agent and the Security Agent

- (a) Neither the Agent nor the Security Agent will be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. Neither the Agent nor the Security Agent shall be responsible for indirect loss.
- (b) Neither the Agent nor the Security Agent shall be considered to have acted negligently if it has acted in accordance with advice addressed to it from or opinions of reputable external experts or if it has acted with reasonable care in a situation when it considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- (c) Neither the Agent nor the Security Agent shall be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by it to the Bondholders, provided that it has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by it for that purpose.
- (d) Neither the Agent nor the Security Agent shall have any liability to the Bondholders for damage caused by it acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.
- (e) Any liability towards the Issuer which is incurred by the Agent or the Security Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.
- (f) The Agent is not liable for information provided to the Bondholders by or on behalf of the Issuer or any other Person.

20.4 Replacement of the Agent and the Security Agent

- (a) Subject to Clause 20.4(f), each of the Agent and the Security Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent and/or the Security Agent at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- (b) Subject to Clause 20.4(f), if the Agent and/or the Security Agent is Insolvent, the Agent and/or the Security Agent (as applicable) shall be deemed to resign as Agent and/or the Security Agent (as applicable) and the Issuer shall within ten (10) Business Days appoint a successor Agent and/or a successor Security Agent (as applicable) which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (c) A Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice may only be validly given by a Person who is a Bondholder on the Business Day immediately following the day on which the notice is received by the Issuer and shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and/or the Security Agent and appointing a new Agent and/or the new Security Agent (as applicable). The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent and/or the Security Agent be dismissed and a new Agent and/or a new Security Agent (as applicable) be appointed.
- (d) If the Bondholders have not appointed a successor Agent and/or successor Security Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent and/or the Security Agent was dismissed through a decision by the Bondholders, the Issuer shall appoint a successor Agent and/or successor Security Agent (as applicable) which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.
- (e) The retiring Agent and/or the retiring Security Agent (as applicable) shall, at its own cost, make available to the successor Agent and/or the successor Security Agent (as applicable) such documents and records and provide such assistance as the successor Agent and/or successor Security Agent may reasonably request for the purposes of performing its functions as Agent and/or the Security Agent (as applicable) under the Finance Documents.
- (f) The Agent's and the Security Agent's resignation or dismissal shall only take effect upon the appointment of a successor Agent and/or the successor Security Agent (as applicable) and acceptance by such successor Agent and/or the successor Security Agent (as applicable) of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent and/or the retiring Security Agent (as applicable).
- (g) Upon the appointment of a successor, the retiring Agent and/or the retiring Security Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or

failed to take whilst acting as Agent and/or the Security Agent (as applicable). Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent and/or the Security Agent.

- (h) In the event that there is a change of the Agent and/or the Security Agent in accordance with this Clause 20.4, the Issuer shall execute such documents and take such actions as the new Agent and/or the new Security Agent may reasonably require for the purpose of vesting in such new Agent and/or the new Security Agent (as applicable) the rights, powers and obligation of the Agent and/or the Security Agent and releasing the retiring Agent and/or the retiring Security Agent (as applicable) from its respective further obligations under the Finance Documents. Unless the Issuer and the new Agent and/or the new Security Agent agrees otherwise, the new Agent and/or the new Security Agent shall be entitled to the same fees and the same indemnities as the retiring Agent and/or the retiring Security Agent (as applicable).

21. Appointment and Replacement of the Issuing Agent

- (a) The Issuer appoints the Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Bonds.
- (b) The Issuing Agent may retire from its assignment or be dismissed by the Issuer, provided that the Issuer has approved that a commercial bank or securities institution approved by the CSD accedes as new Issuing Agent at the same time as the old Issuing Agent retires or is dismissed. If the Issuing Agent is Insolvent, the Issuer shall immediately appoint a new Issuing Agent, which shall replace the old Issuing Agent as issuing agent in accordance with these Terms and Conditions.

22. No Direct Actions by Bondholders

- (a) A Bondholder may not take any steps whatsoever against the Issuer or with respect to the Transaction Security to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the liabilities of the Issuer under the Finance Documents.
- (b) Clause 22(a) shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 20.1(c)), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment by the Issuer of any fee or indemnity due to the Agent and/or the Security Agent under the Finance Documents or by any reason described in Clause 20.2(i), such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 20.2(k) before a Bondholder may take any action referred to in Clause 22(a).
- (c) The provisions of Clause 22(a) shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 9.4 (*Mandatory repurchase due to a Change of Control Event, Key Man Event or Listing Failure Event*

(put option)) or other payments which are due by the Issuer to some but not all Bondholders.

23. Prescription

- (a) The right to receive repayment of the principal of the Bonds shall be prescribed and become void ten (10) years from the Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be prescribed and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been prescribed and has become void.
- (b) If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (*Sw. preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

24.2 Press releases

The reservation in respect of strikes, lockouts, boycotts and blockades applies even if the Agent, the Security Agent or the Issuing Agent itself takes such measures, or is subject to such measures.
- (b) The Issuing Agent shall have no liability to the Bondholders if it has observed reasonable care. The Issuing Agent shall never be responsible for indirect damage with exception of gross negligence and wilful misconduct.
