1 RISK FACTORS

In this section, the risk factors which the Issuer considers to be material risks relating to the Issuer and the Bonds are illustrated. The Issuer's assessment of the materiality of each risk factor is based on the probability of their occurrence and the expected magnitude of their negative impact. The assessment of the materiality of each risk factor is illustrated with a rating of low, medium or high. The description of the risk factors below is based on information available and estimates made on the date of this Prospectus.

The risk factors are presented in categories where the most material risk factors in a category are presented first under that category. Subsequent risk factors in the same category are not ranked in order of materiality or probability of occurrence. Where a risk factor may be categorised in more than one category, such risk factor appears only once and in the most relevant category for such risk factor.

RISK FACTORS SPECIFIC AND MATERIAL TO THE ISSUER

1.1 Risks relating to the Issuer's business activities and the real property industry and market

1.1.1 Macroeconomic factors

The Issuer's business is to a considerable extent affected by macroeconomic factors such as the general economic climate, regional economic development, fluctuations in employment, production capacity for rental housing, changes in infrastructure, population growth, population structure as well as inflation and interest rates. Macroeconomic factors also include international conflicts impacting the global economy, such as Russia's military invasion of Ukraine. Since the invasion, geopolitical tensions have increased which have had a negative effect on the world economy through, for example, increased prices for energy, fuel and raw materials as well as increased inflation and interest rate levels. In turn, this could have an adverse effect on the Swedish property market and the Issuer's access to financing.

Market disruptions, changes in the real interest rate or economic downturns in the global market may also affect the financial condition of the Issuer's tenants and thus affect their ability to enter into agreement with, and fulfil their contractual obligations towards, the Issuer. Such events can also mean that the Issuer's collaborations with its suppliers, such as construction companies, may not be maintained or entered into on terms that are favourable to the Issuer, as suppliers tend to become more price sensitive and more inclined towards litigious behaviour under such circumstances.

Inflation expectations influence the interest rates and therefore the Issuer's financing costs, and interest on debt owed to credit institutions and outstanding market loans constitute the Issuer's largest cost item. In the long term, changes in the interest rate will therefore have a significant effect on the Issuer's result and cash flow. In addition, changes in the general levels of interest and inflation rates affect the yield requirement and thus the market value of the Issuer's properties. There also is a risk that the Issuer will not be able to negotiate lease agreements with its tenants that fully compensate for the costs incurred if the

inflation rate increases. If the risks mentioned in this section materialises, it could have a negative impact on the Issuer's cash flow and overall financial position.

The Issuer deems the probability of risks relating to macroeconomic factors materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.1.2 *Changes in property value*

The Group's properties are reported at fair value in accordance with IFRS. The fair value of the properties amounted to MSEK 6,139 as of 30 September 2025, compared to MSEK 6,077 as of 31 December 2024.

The value is affected by a number of factors, such as (including but not limited to) operating costs, occupancy level, permitted use of the properties, required return and cost of capital. Unrealised value changes may have significant impact on the Issuer's net profit and could also affect financial commitments included in some of the Issuer's loan agreements (financial covenants). Furthermore, the property value is affected by supply and demand on the property market, and property valuations are mainly dependent on the properties' expected operating surplus and a potential buyer's required return. The return is further dependent on, inter alia, the Issuer's ability to fulfil the intended objectives of the properties which mainly consists of rental, and in some cases sales, of the properties as well as the costs and expenses associated to development and renovation of the properties. The fair value of the properties and the tenants' solvency, which may affect the Issuer's rental income, is also generally affected by general conditions in the economy, such as the GDP growth (Sw. *bruttonationalprodukt*), employment rate, inflation, changes in interest rate levels and amortisation requirements.

Decreased property values may, if materialised, negatively affect the Issuer's financial position and could also result in the Issuer or a company within the Group not being able to meet its financial covenants included in its respective loans facilities, which in turn could result in a loan facility being accelerated prior to maturity unless remedied.

The Issuer deems the probability of risks relating to decreased property value materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.1.3 *Risks related to property divestments*

The Group's property portfolio constitutes the main asset of the Group. Should the Issuer decide to or be forced to divest one or several properties, there is a risk that such divestment cannot be completed at terms favourable to the Issuer or at all. The Issuer's ability to divest properties at favourable terms depends on the development of the property market in the regions where the Issuer operates as well as the general economic development. There is a risk that potential buyers on the property market lacks liquid funds or other means to complete acquisitions, which could negatively affect the Issuer's ability to divest its properties on favourable terms. If the Group's properties are sold at a lower price than expected, or not at all, this could negatively affect the Issuer's financial position and earnings.

When divesting properties, there is also a risk that defects in the relevant properties will be identified by the new owner after the sale has been completed, which may entitle such new owner to reimbursement or corrective measures from the Issuer. Such claims could have a negative impact on the Issuer's reputation, operations, financial position and earnings.

The Issuer deems the probability of risks relating to property divestments materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.1.4 *Risks associated with the Issuer's projects*

The risks associated with construction, management and development of properties include, but are not limited to, constructional faults, necessary conversions for housing purposes, delayed planning processes and time schedules, hidden defects, deficiencies and other damages and pollution, and increased construction costs in general. These risks apply to both construction and development of properties, as well as for property management. Regarding, for example, pollution and hidden defects, there is a risk that these problems are not noticed until after completion of the project, which might negatively affect the Issuer.

Furthermore, the Issuer is dependent on suppliers for deliveries of material and customised solutions in connection with the Issuer's construction of housings. For example, the Issuer is dependent on a few bathroom suppliers for the deliveries of customised bathrooms to the Issuer's apartment units. If a specific supplier is unable to fulfil its obligation to supply the right equipment with the right quality and at the right time, or if the cooperation with a certain supplier is terminated or not well-functioning, it can lead to significant delays in the Issuer's construction projects. If agreements with important suppliers were to be terminated at short notice, there is also a risk that the Issuer will not be able to engage another supplier on the same terms or at such short notice which may lead to increased costs and delays.

The risks above may, if materialised, lead to delays in planned and ongoing projects, as well as higher costs for construction, development and management of the properties, which in turn could lead to decreased earnings.

The Issuer deems the probability of risks related to the Issuer's construction projects materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.1.5 *Risks related to increased operating and maintenance costs*

The Issuer's properties are rented by private individuals as well as commercial and public actors. The responsibility for operating and maintenance costs is regulated in the lease agreements. Operating and maintenance costs may, for example, refer to the costs of electricity, water, heat and cleaning as well as costs due to maintain the buildings' standard in the long term. The Issuer is also responsible for the technical operations of its properties which might be affected by constructional faults and other defects and damages.

The lease agreements between the Issuer and commercial or public actors normally stipulate that the rent should be adjusted to the same extent as the

Issuer's operating and maintenance costs changes. However, this is not generally the case for lease agreements with private individuals. In such lease agreements it is normally stipulated that the landlord is responsible for the increased costs. Approximately 66 per cent. of the Issuer's total lettable area as of 30 September 2025 consisted of rental apartments rented by private individuals meaning that there is a risk of increased operating and maintenance costs for the Issuer. If the Issuer is not able to compensate for such increased costs through renegotiation of the lease agreements, it could have a negative impact on the Issuer's earnings.

If the above risks are materialised it could lead to increased costs for the Issuer, which in turn would have a negative effect on the Issuer's financial position and profit.

The Issuer deems the probability of the risks relating to increased operating and maintenance materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

1.1.6 *Risks due to rental value and rental income*

The Issuer is a real estate company mainly focused on development and production of rental housing, student housing and properties for public use, as well as long-term ownership and management of such properties. The rental income from the Issuer's properties for public use are normally based on marketable rent. For newly produced housings on the other hand, the rent can be determined (i) by agreement with tenants' associations regarding the housing's utility value (Sw. *bruksvärdeshyra*), (ii) by agreement with the tenants' associations regarding presumption rent (Sw. *presumtionshyra*) and (iii) by the landlord determining the rent. The Issuer is dependent on the tenants paying the agreed rents when due, and that the rent levels are reasonable to not risk that the rents are being subject to procedures at the rent tribunal (Sw. *hyresnämnden*). If tenants do not perform in accordance with their lease agreements it could have a negative effect on the Issuer's earnings.

Before initiating new projects, the Issuer estimates which rent level it may obtain after the project is completed. When producing new housings, agreements with tenants are normally not signed before the project is initiated meaning that there is a risk that the occupancy level will not meet the estimations made by the Issuer. Furthermore, the rent has normally not been negotiated with the tenants' association when the project is initiated, meaning that there is a risk that the rental income will be less than the Issuer estimated beforehand which may affect the projects' profitability and the valuation of the properties. The estimated rent may also turn out to be calculated on incorrect bases and assumptions, which may result in the actual rental incomes being lower than estimated, affecting the investment's profitability.

The Issuer is also exposed to risks related to single tenants. In Kiruna for example, the Issuer owns a property for public use rented by the Institute of Space Physics (Sw. *Institutet för rymdfysik*) and Luleå University of Technology (Sw. *Luleå tekniska universitet*) amongst others. As of 30 September 2025, the annual rental value for this property was MSEK 15 per year, which corresponds to approximately 6 per cent. of the Group's total annual rental value. If important single tenants were to terminate their lease agreements, it could lead to lower

occupancy levels and reduced rental incomes, and as a result lower fair values for the properties.

Above mentioned risks related to rental value and rental income may, if they are materialised, have a negative effect on the Issuer's earnings and financial position.

The Issuer deems the probability of the risks materialising to be *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

1.1.7 *Dependence on retaining and recruiting key employees*

The Issuer is dependent on about 12 key employees. These employees have extensive knowledge of the property market and the Issuer's operations. The experience and commitment of these employees are important for the Issuer's future development. In addition to current employees, the Issuer also needs to recruit new employees with special skills or experience in order to expand further.

If the Issuer fails to recruit new employees, or if key employees leave the Issuer and suitable and experienced replacements cannot be recruited, this could have a negative effect on the Issuer's ability to conduct its operations.

The Issuer deems the probability of such risks materialising to be *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

1.1.8 *Risks associated with the Issuer's geographical concentration of properties*

The supply and demand for properties, and consequently the valuation of properties, varies between different geographical markets which could develop differently. Currently, the Issuer has projects in many parts of Sweden but mainly in and around university and college (Sw. *högskola*) cities.

The demand may decrease in the geographical markets the Issuer operates in, even if the demand does not decrease in Sweden as a whole. Reduced demand may lead to lower occupancy levels, less opportunity to increase the rent levels or reduced property values.

A decreased demand for properties on the Issuer's geographical markets may result in decreased earnings and a negative effect on the Issuer's financial position and profit.

The Issuer deems the probability of above mentioned risks materialising to be *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

1.2 **Legal and regulatory risks**

1.2.1 *Environmental risks*

Property management and investments implies potential environmental risks. The Swedish Environmental Code (Sw. *miljöbalken* (1998:808)) states that business operators that have contributed to pollution are responsible for remediation of the relevant polluted property. If the responsible person or entity is unable to remediate a polluted property, the person or entity acquiring the property, under certain circumstances, is liable for remediation. Since the Issuer from time to time acquires properties as part of its operations, claims for remediation of polluted or environmentally damaged property could be directed

at the Issuer for remediation. For example, the Issuer has an ongoing project on a property in Sundsvall which is suspected to be polluted and in need of remediation due to the property's prior use.

Further, since many of the Issuer's properties are used for residential purposes, the Issuer normally must conduct its operations in accordance with higher environmental requirements than what would be the case if the properties were used for other purposes. This results in a higher risk of being obliged to remediate properties in order to be able to use the properties for residential purposes.

However, as most of the Issuer's properties are acquired from Swedish municipalities, the Issuer deems the probability of being forced to take remediation measures due to previous owners' pollution to be lower than usual. The Issuer's conclusion is based on the fact that municipalities should be able to remediate possible pollutions under their responsibility. For example, this has been the case on a property in Sundsvall. The municipality has in that case been forced and accepted to remediate the property due to pollution. If these risks materialise it could result in increased costs for the Issuer.

The Issuer deems the probability of environmental risks materialising to be *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.2.2 *Dependency on cash flow from its subsidiaries*

The Issuer is a holding company and the Group's operations are made through its subsidiaries. The Issuer is hence dependent on its subsidiaries in order to fulfil its obligations under the Bonds. The transfer and distribution of funds to the Issuer from its subsidiaries may be restricted or prohibited by legal and contractual requirements applicable to the respective subsidiary. Additionally, the companies within the Group are separate legal entities and have no obligations to fulfil the Issuer's obligations towards its creditors unless otherwise agreed. If the subsidiaries do not provide dividend income, or due to other circumstances, conditions, laws or other regulations are prevented from providing liquidity distributions to the Issuer, there is a risk that the Issuer will not be able to fulfil its obligations under the Bonds or other financial commitments.

The Issuer deems the probability of such risks materialising to be *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

1.3 Risks related to the Issuer's and the Group's financing

1.3.1 *Refinancing risks*

Refinancing risks refer to, inter alia, the risks of increased funding costs and unavailability to refinance existing loan facilities.

The Issuer's total project development and investment costs exceed the Issuer's cash and cash equivalents, while the cash flow from the investment properties is not enough to finance the Issuer's new production. The Issuer's operations are therefore partly financed by externally provided debt capital and as of 30 September 2025, the Group's interest-bearing liabilities amounted to MSEK 3,992 of which MSEK 484 will be due before 1 October 2026. The required capital for financing of both development of existing properties and future acquisitions is and may be provided by banks and other financial institutions.

If the Issuer cannot refinance, in full or in part, or extend the maturity dates of its loans and/or bonds or if a refinancing or extension is made with increased funding and/or margin costs, it might have a negative effect on the Issuer's possibilities to repay its debts and its operations and earnings.

The Issuer deems the probability of such risks materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *high*.

1.3.2 *Interest rates risk*

Changed interest rates will affect the Issuer's interest expenses, which represent the Issuer's single largest cost item. Changes in the market interest rate could result in changed fair values of the Issuer's properties, changes in cash flow and fluctuations in the Issuer's profit. The Issuer is exposed to interest rate risks due to its interest-bearing liabilities, such as the Bonds.

Since most of the Issuer's operations concern rental for residential purposes, which is inherently associated with rigid rent levels, it may cause difficulties for the Issuer to increase its revenues to compensate for higher interest costs. This could result in the Issuer having less opportunity to pay interest and amortisation costs related to its financings, resulting in a risk that the Issuer or a company within the Group is in breach of its loan facility agreements.

The Issuer has entered into interest rate hedging agreements in accordance with the Issuer's financial policy which partially reduces the Issuer's exposure to floating rates and thereby increased interest rates. However, if the interest rates decrease below the fixed swap rate, the hedging agreements result in higher costs than what floating interest rates would entail as well as negative value changes of the fair value of the hedging agreements. The Issuer's net interest costs (Sw. *räntenetto*) were MSEK -185 during the last twelve-month period (1 October 2024 to 30 September 2025), according to the Issuer's financial report for the third quarter 2025. Based on an interest sensitivity analysis (Sw. *känslighetsanalys räntekostnader*) regarding cash flow in the same report, a +/- 1 % change of the interest rate would affect the Group's cash flow during following twelve months (1 October 2025 to 30 September 2026) with approximately +/- MSEK 3. On 30 September 2025, the Issuer held interest rate swaps with a nominal value of MSEK 3,319.

The Issuer deems the probability of such risks materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.3.3 *Liquidity risks – amortisations and interest due*

Liquidity risk in relation to amortisations and interest due is the risk that the liquid assets of the Issuer are not sufficient or not available to meet its payment obligations at the relevant maturity date at all or without increasing the cost of obtaining such necessary liquidity. The Issuer is also dependent on available liquidity in order to fulfil its obligations including, inter alia, paying interest and amortisation costs related to its other financing.

If the Issuer does not have sufficient liquidity to fulfil its obligations, this could result in increased costs, penalties or event of defaults, hence affect the Issuer's financial position.

The Issuer deems the probability of such risks materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *high*.

1.3.4 *Liquidity risks – project development*

Liquidity risk in relation to the Issuer's project developments is the risk that liquid assets, in addition to available external financing, of the Issuer are not sufficient to finance ongoing or planned projects, acquisitions and operations. In order to continue to grow the business and expand the Issuer's operations and investments in the future, access to liquid funds will be necessary.

If the Issuer does not have sufficient liquidity to fulfil its planned or ongoing projects this could result in decreased growth and expansion as well as increased costs and penalties, hence affect the Issuer's financial position.

The Issuer deems the probability of such risks materialising to be *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

RISK FACTORS SPECIFIC AND MATERIAL TO THE BONDS

1.4 Risks relating to the value of the Bonds and the bond market

1.4.1 *Risk related to listing of the Bonds, liquidity and the secondary market*

Pursuant to the Terms and Conditions, the Issuer undertakes to ensure that the Bonds are admitted to listing on Nasdaq Stockholm, or, if such admission to trading is not possible to obtain or maintain, another Regulated Market, within a certain stipulated time period. There is a risk that the Bonds will not be admitted to listing, and even if the Bonds are admitted to listing on Nasdaq Stockholm or another Regulated Market, the Bonds may not always be actively traded and there is a risk that there will not always be a liquid market for trading in the Bonds. This may result in the Bondholders not being able to sell their Bonds when desired or at a price level which allows for a profit comparable to similar investments with an active secondary market. Lack of liquidity in the market may have a negative impact on the market value of the Bonds. Further, the nominal value of the Bonds may not be indicative compared to the market price of the Bonds. It should also be noted that during a given time period it may be difficult or impossible to sell the Bonds on reasonable terms, or at all, due to, for example, severe price fluctuations, close down of the relevant market or trade restrictions imposed on the market.

The Issuer deems the probability of risks related to listing of the Bonds, liquidity and the secondary market materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.4.2 *European Benchmarks Regulation*

The process for determining interest-rate benchmarks, such as STIBOR, is subject to a number of statutory rules and other regulations. Some of these rules and regulations have already been implemented, whilst some are due to be

implemented in the near future. The most extensive initiative in this respect is the Benchmark Regulation (Regulation (EU) 2016/1011 of the European parliament and of the council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014) (the “**Benchmark Regulation**”). The Benchmark Regulation came into force on 1 January 2018 and addresses the provision of benchmarks, the contribution of input data to benchmarks and the use of benchmarks within the European Union. There is a risk that the Benchmark Regulation will affect how certain benchmarks are determined and how they will develop which, in turn, could lead to increased volatility in relation to STIBOR and, thus, in relation to the interest rate of the Bonds. There is also a risk that increased administrative requirements may discourage stakeholders from participating in the production of benchmarks, or that some benchmarks cease to be provided. If this were to happen in respect of STIBOR it could potentially be detrimental to the Bondholders. More specifically, should STIBOR be discontinued or cease to be provided, the Terms and Conditions provides for an alternative calculation of the interest rate for the Bonds. There is a risk that such alternative calculation results in interest payments less advantageous for the Bondholders or that such interest payment do not meet market interest rate expectations.

The Issuer deems the probability of risks related to European Benchmarks Regulation materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *medium*.

1.5 Risks relating to the nature of the Bonds

1.5.1 *Credit risk towards the Issuer*

The Bonds constitute unsecured debt obligations of the Issuer and the Bondholders carry a credit risk relating to the Issuer and the Group. The Bondholders’ ability to receive payment under the Bonds is therefore dependent on the Issuer’s ability to meet its payment obligations, which in turn is dependent upon the performance of the Group’s operations and its financial position and also, the availability of capital. There is a risk that the Group’s financial position is affected by several factors, which have been mentioned above. An increased credit risk is likely to cause the market to charge the Bonds a higher risk premium, which can affect the Bonds’ value negatively. Further, if the Issuer’s financial position deteriorates, it is likely to affect the Issuer’s possibility to receive debt financing at the time of the maturity of the Bonds. There is a risk that this could have a material adverse effect on the value of the Bonds.

The Issuer deems the probability of the credit risk materialising to be *medium*. If the risk would materialise, the Issuer considers the potential negative impact to be *high*.

1.5.2 *Risk related to the Bonds being unsecured*

The Bonds constitute direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among them and at least *pari passu* with all other direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer, except obligations which are preferred by mandatory regulation and except as

otherwise provided in the Terms and Conditions. Thus, a Bondholder will normally receive payment after any creditor with secured assets or other creditor with higher ranking claims in the event of the Issuer's liquidation, company reorganisation or bankruptcy. Consequently, a Bondholder may not recover any or full value in the event of the Issuer's liquidation, bankruptcy or company reorganisation. There is a risk that a Bondholder could lose the entire, or parts of, its investment in the event of the Issuer's bankruptcy, reorganisation or winding-up.

The Issuer deems the probability of risks related to the Bonds being unsecured materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *high*.

1.5.3 *Risks relating to insolvency of subsidiaries and structural subordination*

A significant part of the Issuer's revenues relates to the Issuer's subsidiaries. In the event of the insolvency or liquidation of (or a similar event relating to) one of the Issuer's subsidiaries, all creditors of such subsidiary would be entitled to payment in full out of the assets of such subsidiary before the Issuer (as a shareholder) would be entitled to any payments. Thus, the Bonds will be structurally subordinated to the liabilities of the subsidiaries and there is a significant risk, should a subsidiary be subject to, inter alia, an insolvency or liquidation proceeding, that the Issuer will not be entitled to any payments. The Issuer and its assets may not be protected from any actions by the creditors of a subsidiary, whether under bankruptcy law, by contract or otherwise.

The Issuer deems the probability of risks related to insolvency of subsidiaries and structural subordination materialising to be *medium*. If the risks would materialise, the Issuer considers the potential negative impact to be *high*.

1.5.4 *Risks related to green Bonds*

The Bonds are defined as "green" according to the Issuer's Green Finance Framework. The Issuer's Green Finance Framework, as well as market practice for green bonds, may be amended and develop after the First Issue Date. The Issuer's failure to comply with the Green Finance Framework does not constitute an event of default under the Terms and Conditions and would not permit the Bondholders to exercise any early redemption rights or receive any other type of compensation for non-compliance with the Green Finance Framework. There is however a risk that a failure to comply with the Green Finance Framework could have a material adverse effect on the market value of the Bonds as a less favourable investment.

The Issuer deems the probability of risks related to green Bonds materialising to be *low*. If the risks would materialise, the Issuer considers the potential negative impact to be *low*.

Use of Proceeds:

The Net Proceeds shall be applied in accordance with the principles set out in the Issuer's Green Finance Framework. For full details, please see the Green Finance Framework which is available on the Issuer's website, www.k2a.se.

Green Finance
Framework:

The Issuer's Green Finance Framework, as stated from time to time, applies to the Bonds. A failure by the Issuer to apply the Net Proceeds of the Bonds in accordance with the Green Finance Framework does

not give the Bondholders a right to require that the Issuer shall repurchase or redeem any of their Bonds. Further, no Event of Default under the Terms and Conditions will occur should the Bonds no longer be defined as “green” Bonds. The relevant Bondholders are in such case not entitled to early repayment or repurchase of Bonds or other compensation.

The Green Finance Framework has been developed in alignment with the Green Bond Principles 2021 and Green Loan Principles 2021 and applies to the Issuer’s issuance of green debt instruments such as green bonds, green hybrids, green commercial papers and green loans.

The Net Proceeds shall be used to finance or re-finance, eligible projects providing distinct environmental benefits (“**Green Eligible Assets**”) including (i) green and energy efficient buildings and (ii) energy efficiency relating to e.g. installation of solar panels, heat pumps, converting to LED lighting, improvements in ventilation systems, extension of district heating and cooling systems.

The evaluation and selection process for Green Eligible Assets is a key process in ensuring that the proceeds from the Bonds are allocated to assets and activities which meet the criteria in the Green Finance Framework.

The selection of Green Eligible Assets is managed by a dedicated group, the Green Finance Committee (“**GFC**”). Members of the GFC consist of the Issuer’s CEO, CFO and Chief Sustainability Officer. All decisions are made in consensus, and that applies to the selection process of Green Eligible Assets as well. A list of Green Eligible Assets is kept by the Finance Department and the Chief Sustainability Officer is responsible for keeping this list up to date.

The Net Proceeds may not, according to the Green Finance Framework, be used to finance fossil fuel energy generation, nuclear energy generation, the weapons and defence industries, potentially environmentally negative resource extraction, gambling or tobacco.

The Net Proceeds will be tracked by using a spreadsheet where all issued amounts of Green Financing Instruments will be inserted. The spreadsheet will also contain the list of Green Eligible Assets. Information available in the spreadsheet will in

turn serve as basis for regular reporting and will be verified by an external part.

Any unallocated proceeds temporary held by the Issuer will be placed on the Issuer's ordinary bank account. Should there be any unallocated proceeds, the Issuer strives to allocate them within one year.

To enable investors, lenders, and other stakeholders to follow the development of the assets and projects funded by the Bonds, a Green Finance Report will be made available on the Issuer's website, www.k2a.se. The Green Finance Report will include an allocation report and an impact report and will be published quarterly and annually as long as there are Bonds outstanding.

Allocation reporting includes e.g. total amount of the Bonds and other green financing instruments issued, share of proceeds used for financing/re-financing, share of unallocated proceeds (if any) and examples of the relevant Green Eligible Assets.

Impact reporting aims to disclose the environmental impact of the Green Eligible Assets financed under the Green Finance Framework and includes information regarding green buildings such as type of certification including level, if any (e.g. Miljöbyggnad Silver), information on the energy use in kWh/m²/year and/or estimated annual greenhouse gas emissions reduced or avoided (tCO₂e), and information regarding energy efficiency such as amount of energy saved per m², and/or estimated annual greenhouse gas emissions reduced or avoided (tCO₂e).

To confirm the transparency and robustness of the Issuer's Green Finance Framework, it is verified and approved by an external party. The second opinion by CICERO Shades of Green is available on the Issuer's website, <https://investerare.k2a.se/sv/grona-obligationer> and through the link CICERO Shades of Green Second Opinion.

4 THE ISSUER AND ITS OPERATIONS

4.1 Company description

The Issuer's legal and commercial name is K2A Knaust & Andersson Fastigheter AB (publ) and its registration number is 556943-7600. The Issuer was incorporated in Sweden and founded as well as registered with the Swedish Companies Registration Office (Sw. *Bolagsverket*) on 27 September 2013. The Issuer is a public limited liability company (Sw. *publikt aktiebolag*) subject to, inter alia, the Swedish Companies Act (Sw. *aktiebolagslag (2005:551)*) and the Swedish Annual Accounts Act (Sw. *årsredovisningslag (1995:1554)*). The seat of the Issuer is in Stockholm. The Issuer's operations are governed by Swedish law.

The Issuer's head office and registered address is Karlavägen 104 (4th floor), 115 26 Stockholm. The Issuer's legal identifier code (LEI code) is 549300Q62J8QZJ5TGJ71. The telephone number of the Issuer is 010-510 55 10. The website of the Issuer is www.k2a.se. Information made available on the Issuer's website does not form part of this Prospectus unless such information is incorporated by reference into this Prospectus.

According to the Issuer's articles of association, the purpose and business of the Issuer is to directly and/or indirectly own and manage real estate, conduct consultative activities regarding property management and financing, engage in securities trading, and thereto pertaining business.

4.2 Business and operations

The Issuer's main business idea is to engage in long-term ownership, development and management of rental housing and properties for public use in Stockholm, Mälardalen and at a number of university cities in Sweden, such as Gävle, Karlstad, Kiruna, Lund, Sundsvall, Umeå, Uppsala, Växjö and Örebro.

As of 30 September 2025, the Issuer's property portfolio consisted of a total of 2,034 rental apartments. The total lettable area amounted to approximately 112,919 square meters, the fair value of the investment objects amounted to approximately MSEK 5,227 and the total rental value amounted to approximately MSEK 288. Rental housing constituted the largest category, corresponding to approximately 64 per cent. of the rental value, while student housing constituted approximately 11 per cent. of the rental value and properties for public use approximately 25 per cent. Geographically, Stockholm and Mälardalen constituted the Issuer's largest market with 75 per cent. of the rental value, while other university cities accounted for 15 per cent. of the rental value and other locations 10 per cent. of the rental value.

As of 30 September 2025, the Issuer had projects with the purposes of producing 3,211 apartments with an estimated total rental value of approximately MSEK 355. As of the aforementioned date, none of these apartments were in production.

The Issuer is active in all parts of the value chain - from the initial customer analysis and land acquisition to production and construction of the apartments and finally leasing and management of the apartments.

The Issuer conducts analyses to investigate what is most important to potential tenants. Such studies have proven that a well-planned layout and high functionality are normally more important to the tenants than the size of the apartment.

The Issuer normally acquires land in two different ways; through land allocations and through off-market-transactions. In land allocation procedures, a municipality distributes land to one developer or a group of developers in connection with the municipality's planning of a new built environment. Normally, the developer who wins a land allocation has the exclusive right to negotiate with the municipality, for a certain period of time and under certain conditions, regarding the exploitation of the land that has been assigned to the developer. The off-market-transactions are privately negotiated transactions.

The Issuer also manage the leasing and management of the residences and properties. This, among other things, includes maintenance in order to maintain the long-term value of the properties.

The Issuer practices a sustainability perspective on both its production of apartments and its property management. The Issuer's production method contributes to an environmentally sustainable development of the property market. The production method involves manufacturing apartments mainly in wood, which is a versatile material and the only economically competitive renewable building material. Ecolabelling Sweden AB (Sw. *Miljömärkning Sverige AB*) has examined the Issuer's production process and awarded the Issuer with a licence to Nordic Swan Ecolabel (Sw. *Svanenmärka*) all upcoming and self-produced property productions.

In addition to companies directly or indirectly owned by the Issuer, the Issuer from time to time holds shares in companies through which properties are owned jointly with other investors. For example, the Issuer (through its subsidiaries) and Slättö Grade 1 AB are joint owners of Arborem Fastigheter AB. 6 OTHER INFORMATION

6.1 Legal and arbitrary proceedings

The Issuer is from time to time involved in governmental, legal or arbitration proceedings within its business. However, the Issuer has not been a party to any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened which the Issuer is aware of) during the previous twelve months from the date of this Prospectus which may have, or have had in the recent past, significant effects on the Issuer's financial position or profitability.

6.2 Certain material interests

Arctic Securities AS, filial Sverige, is Bookrunner in conjunction with the issuance of the Bonds. The Bookrunner (and closely related companies) has provided, and may in the future provide, certain investment banking and/or commercial banking and other services and facilities to the Issuer for which it has received, or will receive, remuneration. Accordingly, conflicts of interest may exist or may arise as a result of the Bookrunner having previously engaged, or in the future engaging, in transactions with other parties, having multiple roles or carrying out other transactions for third parties with conflicting interests.

6.3 Material changes and trend information

Subject to the issue of the Subsequent Bonds, there have been no significant changes to the Issuer's financial performance or position since 30 September 2025 (the end of the last period where financial information is available).

There has been no material adverse change in the prospects of the Issuer since 31 December 2024, being the end of the last financial period for which an audited financial report has been prepared, and there has been no recent events specific to the Issuer which to a material extent are relevant to the evaluation of the Issuer's solvency.

6.4 Material agreements

The Issuer has not concluded any material agreements not entered into in the ordinary course of its business which could result in a member of the Group being under an obligation or entitlement that is material to the Issuer's ability to meet its obligations to the Bondholders.

6.5 Statement in the audit report in the annual report for 2023

In the audit report in the annual report for 2023 (which has been incorporated into the Prospectus by reference), the auditor provided a note on significant uncertainties regarding the assumption of continued operations with reference to two bond loans of SEK 400 million and SEK 300 million respectively which, at the time of submitting the audit report, fell due in June and December 2024 respectively. The auditor's note in the audit report due to the above is stated in its entirety below (translated from Swedish). Page references in the text below relate to the annual report for 2023.

"Significant uncertainties regarding the assumption of continued operations

Without affecting our statements above, we would like to draw attention to the information provided in the management report on pages 69-70 under the heading "Risks and risk management", on page 72 under the heading "Refinancing risk", on page 97 under the heading "Future prospects" and in note 28 "Financial liabilities" on page 124. From this information it is clear that the company needs to strengthen its liquidity in order to meet its payment obligations, and primarily the two bond loans of SEK 400 million and SEK 300 million, respectively, which falls due in June and December 2024. These bond loans have, at the submission of this annual report, not yet been extended or refinanced. These conditions indicate that there are significant uncertainty factors that could lead to significant doubt about the company's ability to continue its operations. We have not modified our statements because of this."

Since the issuance of the audit report included in the annual report for 2023, the relevant bond loans have been redeemed. Consequently, the auditor has not provided a note on significant uncertainties regarding the assumption of continued operations in the audit report included in the annual report for 2024.

The outstanding amount will instead be held by the Issuer until the person that was registered as a Bondholder on the relevant Record Date has made a valid request for such amount. Should the CSD, due to a delay on behalf of the Issuer or some other obstacle, not be able to effectuate payments as aforesaid, the Issuer shall procure that such amounts are paid to the Persons who are registered as Bondholders on the relevant Record Date, as soon as possible after such obstacle has been removed.

- 14.4.8 Any decision which extends or increases the obligations of the Issuer or the Agent, or limits, reduces or extinguishes the rights or benefits of the Issuer or the Agent, under the Finance Documents shall be subject to the Issuer's or the Agent's consent, as applicable.
- 14.4.9 The Issuer may not, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any owner of Bonds (irrespective of whether such person is a Bondholder) for or as inducement to any consent under these Terms and Conditions, unless such consideration is offered to all Bondholders that vote in respect of the proposal at the relevant Bondholders' Meeting or in a

Written Procedure within the time period stipulated for the consideration to be payable (such time period to be no less than ten (10) Business Days).

- 14.4.10 A matter decided at a duly convened and held Bondholders' Meeting or by way of Written Procedure is binding on all Bondholders, irrespective of them being present or represented at the Bondholders' Meeting or responding in the Written Procedure. The Bondholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause the Issuer or the other Bondholders.
- 14.4.11 All costs and expenses incurred by the Issuer or the Agent for the purpose of convening a Bondholders' Meeting or for the purpose of carrying out a Written Procedure, including reasonable fees to the Agent, shall be paid by the Issuer.
- 14.4.12 If a decision is to be taken by the Bondholders on a matter relating to the Finance Documents, the Issuer shall promptly at the request of the Agent provide the Agent with a certificate specifying the number of Bonds owned by Group Companies or (to the knowledge of the Issuer) Affiliates as per the Record Date for voting, irrespective of whether such person is a Bondholder. The Agent shall not be responsible for the accuracy of such certificate or otherwise be responsible for determining whether a Bond is owned by a Group Company or an Affiliate.
- 14.4.13 Information about decisions taken at a Bondholders' Meeting or by way of a Written Procedure shall promptly be published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Bondholders' Meeting or Written Procedure shall at the request of a Bondholder be sent to it by the Issuer or the Agent, as applicable.

15 Amendments and Waivers

- 15.1 The Issuer and the Agent (acting on behalf of the Bondholders) may agree in writing to amend and waive any provision in a Finance Document or any other document relating to the Bonds, provided that the Agent is satisfied that such amendment or waiver:
 - (a) is not detrimental to the interest of the Bondholders as a group;
 - (b) is made solely for the purpose of rectifying obvious errors and mistakes;
 - (c) is required by any applicable regulation, a court ruling or a decision by a relevant authority;

(d) has been duly approved by the Bondholders in accordance with Clause 14 (*Decisions by Bondholders*) and it has received any conditions precedent specified for the effectiveness of the approval by the Bondholders; or

(e) is made pursuant to Clause 16 (*Replacement of Base Rate*).

15.2 Any amendments to the Finance Documents shall be made available in the manner stipulated in Clause 10.3 (*Availability of Finance Documents*). The Issuer shall ensure that any amendments to the Finance Documents are duly registered with the CSD and each other relevant organisation or authority. The Issuer shall promptly publish by way of press release any amendment or waiver made pursuant to Clause 15.1(a) or (c), in each case setting out the amendment in reasonable detail and the date from which the amendment or waiver will be effective.

15.3 An amendment to the Finance Documents shall take effect on the date determined by the Bondholders Meeting, in the Written Procedure or by the Agent, as the case may be.

16 Replacement of Base Rate

16.1 General

16.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Bondholders in accordance with the provisions of this Clause 16 shall at all times be made by such Independent Adviser, the Issuer or the Bondholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.

16.1.2 If a Base Rate Event has occurred, this Clause 16 shall take precedent over the fallbacks set out in paragraph (b) to (d) of the definition of STIBOR.

16.2 Definitions

In this Clause 16:

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

(a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or

- (b) if (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“**Base Rate Amendments**” has the meaning set forth in Clause 16.3.4.

“**Base Rate Event**” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Bondholder using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (Sw. *krishanteringsregelverket*) containing the information referred to in (b) above; or
- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in (b) to (e) above will occur within six (6) months.

“Base Rate Event Announcement” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“Independent Adviser” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“Relevant Nominating Body” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Sw. *Finansiella stabilitetsrådet*) or any part thereof.

“Successor Base Rate” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Bonds, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply mutatis mutandis to such new Successor Base Rate.

16.3 Determination of Base Rate, Adjustment Spread and Base Rate Amendments

- 16.3.1 Without prejudice to Clause 16.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer’s expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 16.3.2.
- 16.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer’s expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating, and finally deciding the applicable Base Rate.

- 16.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 16.3.2, the Bondholders shall, if so decided at a Bondholders' Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer's expense) for the purposes set forth in Clause 16.3.2. If an Event of Default has occurred and is continuing, or if the Issuer fails to carry out any other actions set forth in Clause 16.3 to 16.6, the Agent (acting on the instructions of the Bondholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer's cooperation.
- 16.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice ("**Base Rate Amendments**").
- 16.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

16.4 Interim measures

- 16.4.1 If a Base Rate Event set out in any of the paragraphs (a) to (e) of the Base Rate Event definition has occurred but no Successor Base Rate and Adjustment Spread have been finally decided prior to the relevant Quotation Day in relation to the next succeeding Interest Period or if such Successor Base Rate and Adjustment Spread have been finally decided but due to technical limitations of the CSD, cannot be applied in relation to the relevant Quotation Day, the Interest Rate applicable to the next succeeding Interest Period shall be:
- (a) if the previous Base Rate is available, determined pursuant to the terms that would apply to the determination of the Base Rate as if no Base Rate Event had occurred; or
 - (b) if the previous Base Rate is no longer available or cannot be used in accordance with applicable law or regulation, equal to the Interest Rate determined for the immediately preceding Interest Period.
- 16.4.2 For the avoidance of doubt, Clause 16.4.1 shall apply only to the relevant next succeeding Interest Period and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustments as provided in, this Clause 16. This will however not limit the application of Clause 16.4.1 for any subsequent Interest Periods, should all relevant actions provided in this Clause 16 have been taken, but without success.

16.5 Notices etc.

Prior to the Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments become effective the Issuer shall promptly, following the final decision by the Independent Adviser of any Successor Base Rate, Adjustment Spread and any Base Rate Amendments, give notice thereof to the Agent, the Issuing Agent and the Bondholders in accordance with Clause 22 (*Communications and press releases*) and the CSD. The notice shall also include information about the effective date of the amendments. If the Bonds are admitted to trading on a stock exchange, the Issuer shall also give notice of the amendments to the relevant stock exchange.

16.6 Variation upon replacement of Base Rate

- 16.6.1 No later than giving the Agent notice pursuant to Clause 16.5, the Issuer shall deliver to the Agent a certificate signed by the Independent Adviser and the CEO, CFO or any other duly authorised signatory of the Issuer (subject to Clause 16.3.3) confirming the relevant Successor Base Rate, the Adjustment Spread and any Base Rate Amendments, in each case as determined and decided in accordance with the provisions of this Clause 16. The Successor Base Rate, the Adjustment Spread and any Base Rate Amendments (as applicable) specified in such certificate will, in the absence of manifest error or bad faith in any decision, be binding on the Issuer, the Agent, the Issuing Agent and the Bondholders.
- 16.6.2 Subject to receipt by the Agent of the certificate referred to in Clause 16.6.1, the Issuer and the Agent shall, at the request and expense of the Issuer, without the requirement for any consent or approval of the Bondholders, without undue delay effect such amendments to the Finance Documents as may be required by the Issuer in order to give effect to this Clause 16.
- 16.6.3 The Agent and the Issuing Agent shall always be entitled to consult with external experts prior to amendments are effected pursuant to this Clause 16. Neither the Agent nor the Issuing Agent shall be obliged to concur if in the reasonable opinion of the Agent or the Issuing Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Agent or the Issuing Agent in the Finance Documents.

16.7 Limitation of liability for the Independent Adviser

Any Independent Adviser appointed pursuant to Clause 16.3 shall not be liable whatsoever for damage or loss caused by any determination, action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Independent Adviser shall never be responsible for indirect or consequential loss.

17 The Agent

17.1 Appointment of the Agent

- 17.1.1 By subscribing for Bonds, each initial Bondholder appoints the Agent to act as its agent in all matters relating to the Bonds and the Finance Documents, and authorises the Agent to act on its behalf (without first having to obtain its consent, unless such consent is specifically required by these Terms and Conditions) in any legal or arbitration proceedings relating to the Bonds held by such Bondholder, including the winding-up, dissolution, liquidation, company reorganisation (Sw. *företagsrekonstruktion*) or bankruptcy (Sw. *konkurs*) (or its equivalent in any other jurisdiction) of the Issuer and in relation to any mandatory exchange of the Bonds for other securities (including a right for the Agent to subscribe for any such new securities on behalf of the relevant Bondholder). By acquiring Bonds, each subsequent Bondholder confirms such appointment and authorisation for the Agent to act on its behalf.
- 17.1.2 Each Bondholder shall immediately upon request provide the Agent with any such documents, including a written power of attorney (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents. The Agent is under no obligation to represent a Bondholder which does not comply with such request.
- 17.1.3 The Issuer shall promptly upon request provide the Agent with any documents and other assistance (in form and substance satisfactory to the Agent), that the Agent deems necessary for the purpose of exercising its rights and/or carrying out its duties under the Finance Documents.
- 17.1.4 The Agent is entitled to fees for all its work in such capacity and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents and the Agency Agreement and the Agent's obligations as Agent under the Finance Documents are conditioned upon the due payment of such fees and indemnifications.
- 17.1.5 The Agent may act as agent or trustee for several issues of securities or other loans issued by or relating to the Issuer and other Group Companies notwithstanding potential conflicts of interest.

17.2 Duties of the Agent

- 17.2.1 The Agent shall represent the Bondholders in accordance with the Finance Documents.

- 17.2.2 When acting pursuant to the Finance Documents, the Agent is always acting with binding effect on behalf of the Bondholders. The Agent is never acting as an advisor to the Bondholders or the Issuer. Any advice or opinion from the Agent does not bind the Bondholders or the Issuer.
- 17.2.3 When acting pursuant to the Finance Documents, the Agent shall carry out its duties with reasonable care and skill in a proficient and professional manner.
- 17.2.4 The Agent shall treat all Bondholders equally and, when acting pursuant to the Finance Documents, act with regard only to the interests of the Bondholders as a group and shall not be required to have regard to the interests or to act upon or comply with any direction or request of any other person, other than as explicitly stated in the Finance Documents.
- 17.2.5 The Agent is always entitled to delegate its duties to other professional parties and to engage external experts when carrying out its duties as agent, without having to first obtain any consent from the Bondholders or the Issuer. The Agent shall however remain liable for any actions of such parties if such parties are performing duties of the Agent under the Finance Documents.
- 17.2.6 The Issuer shall on demand by the Agent pay all costs for external experts engaged by it (i) after the occurrence of an Event of Default, (ii) for the purpose of investigating or considering (A) an event or circumstance which the Agent reasonably believes is or may lead to an Event of Default or (B) a matter relating to the Issuer or the Finance Documents which the Agent reasonably believes may be detrimental to the interests of the Bondholders under the Finance Documents, and (iii) in connection with any Bondholders' Meeting or Written Procedure, or (iv) in connection with any amendment (whether contemplated by the Finance Documents or not) or waiver under the Finance Documents (including for the purpose of deciding whether the conditions set out in Clause 15.1 are fulfilled). Any compensation for damages or other recoveries received by the Agent from external experts engaged by it for the purpose of carrying out its duties under the Finance Documents shall be distributed in accordance with Clause 13 (*Distribution of Proceeds*).
- 17.2.7 The Agent shall, as applicable, enter into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Agent, as may be necessary in order for the Agent to carry out its duties under the Finance Documents.
- 17.2.8 Other than as specifically set out in the Finance Documents, the Agent shall not be obliged to monitor (i) whether any Event of Default has occurred, (ii) the performance, default or any breach by the Issuer or any other party of its

obligations under the Finance Documents, (iii) the financial condition of the Issuer and the Group, or (iv) whether any other event specified in any Finance Document has occurred or is expected to occur. Should the Agent not receive such information, the Agent is entitled to assume that no such event or circumstance exists or can be expected to occur, provided that the Agent does not have actual knowledge of such event or circumstance.

- 17.2.9 The Agent shall (i) review each Compliance Certificate delivered to it to determine that it meets the requirements set out in these Terms and Conditions and as otherwise agreed between the Issuer and the Agent, and (ii) verify that the Issuer according to its reporting in the Compliance Certificate meets the Maintenance Covenants, and (iii) if provided in connection with a Restricted Payment (which requires that the Incurrence Test is met), that the Incurrence Test is met as per the relevant test date, including calculations and figures in respect of the Incurrence Test, calculated *pro forma* including the Restricted Payment. The Issuer shall promptly upon request provide the Agent with such information as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 17.2.9.
- 17.2.10 The Agent shall ensure that it receives evidence satisfactory to it that Finance Documents which are required to be delivered to the Agent are duly authorised and executed (as applicable). The Issuer shall promptly upon request provide the Agent with such documents and evidence as the Agent reasonably considers necessary for the purpose of being able to comply with this Clause 17.2.10. Other than as set out above, the Agent shall neither be liable to the Issuer or the Bondholders for damage due to any documents and information delivered to the Agent not being accurate, correct and complete, unless it has actual knowledge to the contrary, nor be liable for the content, validity, perfection or enforceability of such documents.
- 17.2.11 Notwithstanding any other provision of the Finance Documents to the contrary, the Agent is not obliged to do or omit to do anything if it would or might in its reasonable opinion constitute a breach of any regulation.
- 17.2.12 If in the Agent's reasonable opinion the cost, loss or liability which it may incur (including reasonable fees to the Agent) in complying with instructions of the Bondholders, or taking any action at its own initiative, will not be covered by the Issuer, the Agent may refrain from acting in accordance with such instructions, or taking such action, until it has received such funding or indemnities (or adequate Security has been provided therefore) as it may reasonably require.
- 17.2.13 The Agent shall give a notice to the Bondholders (i) before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the

Issuer of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or (ii) if it refrains from acting for any reason described in Clause 17.2.12.

17.3 Liability for the Agent

- 17.3.1 The Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its negligence or wilful misconduct. The Agent shall never be responsible for indirect or consequential loss.
- 17.3.2 The Agent shall not be considered to have acted negligently if it has acted in accordance with advice from or opinions of reputable external experts provided to the Agent or if the Agent has acted with reasonable care in a situation when the Agent considers that it is detrimental to the interests of the Bondholders to delay the action in order to first obtain instructions from the Bondholders.
- 17.3.3 The Agent shall not be liable for any delay (or any related consequences) in crediting an account with an amount required pursuant to the Finance Documents to be paid by the Agent to the Bondholders, provided that the Agent has taken all necessary steps as soon as reasonably practicable to comply with the regulations or operating procedures of any recognised clearing or settlement system used by the Agent for that purpose.
- 17.3.4 The Agent shall have no liability to the Issuer or the Bondholders for damage caused by the Agent acting in accordance with instructions of the Bondholders given in accordance with the Finance Documents.
- 17.3.5 Any liability towards the Issuer which is incurred by the Agent in acting under, or in relation to, the Finance Documents shall not be subject to set-off against the obligations of the Issuer to the Bondholders under the Finance Documents.

17.4 Replacement of the Agent

- 17.4.1 Subject to Clause 17.4.6, the Agent may resign by giving notice to the Issuer and the Bondholders, in which case the Bondholders shall appoint a successor Agent (which must be an independent financial institution or other reputable company which regularly acts as agent under debt issuances), at a Bondholders' Meeting convened by the retiring Agent or by way of Written Procedure initiated by the retiring Agent.
- 17.4.2 Subject to Clause 17.4.6, if the Agent is Insolvent, the Agent shall be deemed to resign as Agent and the Issuer shall within ten (10) Business Days appoint a

successor Agent which shall be an independent financial institution or other reputable company which regularly acts as agent under debt issuances.

- 17.4.3 A Bondholder (or Bondholders) representing at least ten (10) per cent. of the Adjusted Nominal Amount may, by notice to the Issuer (such notice shall, if given by several Bondholders, be given by them jointly), require that a Bondholders' Meeting is held for the purpose of dismissing the Agent and appointing a new Agent. The Issuer may, at a Bondholders' Meeting convened by it or by way of Written Procedure initiated by it, propose to the Bondholders that the Agent be dismissed and a new Agent appointed.
- 17.4.4 If the Bondholders have not appointed a successor Agent within ninety (90) days after (i) the earlier of the notice of resignation was given or the resignation otherwise took place or (ii) the Agent was dismissed through a decision by the Bondholders, the Issuer shall within thirty (30) days thereafter appoint a successor Agent which shall be an independent financial institution or other reputable company with the necessary resources to act as agent in respect of Market Loans.
- 17.4.5 The retiring Agent shall, at its own cost, make available to the successor Agent such documents and records and provide such assistance as the successor Agent may reasonably request for the purposes of performing its functions as Agent under the Finance Documents.
- 17.4.6 The Agent's resignation or dismissal shall only take effect upon the earlier of (i) the appointment of a successor Agent and acceptance by such successor Agent of such appointment and the execution of all necessary documentation to effectively substitute the retiring Agent, and (ii) the period pursuant to Clause 17.4.4 (ii) having lapsed.
- 17.4.7 Upon the appointment of a successor, the retiring Agent shall be discharged from any further obligation in respect of the Finance Documents but shall remain entitled to the benefit of the Finance Documents and remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Agent. Its successor, the Issuer and each of the Bondholders shall have the same rights and obligations amongst themselves under the Finance Documents as they would have had if such successor had been the original Agent.
- 17.4.8 In the event that there is a change of the Agent in accordance with this Clause 17.4, the Issuer shall execute such documents and take such actions as the new Agent may reasonably require for the purpose of vesting in such new Agent the rights, powers and obligation of the Agent and releasing the retiring Agent from its further obligations under the Finance Documents and the Agency Agreement.

Unless the Issuer and the new Agent agree otherwise, the new Agent shall be entitled to the same fees and the same indemnities as the retiring Agent.

18 The Issuing Agent

- 18.1 The Issuer shall when necessary appoint an Issuing Agent to manage certain specified tasks under these Terms and Conditions and in accordance with the legislation, rules and regulations applicable to and/or issued by the CSD and relating to the Bonds. The Issuing Agent shall be a commercial bank or securities institution approved by the CSD.
- 18.2 The Issuer shall ensure that the Issuing Agent enters into agreements with the CSD, and comply with such agreement and the CSD Regulations applicable to the Issuing Agent, as may be necessary in order for the Issuing Agent to carry out its duties relating to the Bonds.
- 18.3 The Issuing Agent will not be liable to the Bondholders for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless directly caused by its gross negligence or wilful misconduct. The Issuing Agent shall never be responsible for indirect or consequential loss.

19 The CSD

- 19.1 The Issuer has appointed the CSD to manage certain tasks under these Terms and Conditions and in accordance with the CSD Regulations and the other regulations applicable to the Bonds.
- 19.2 The CSD may be dismissed by the Issuer, provided that the Issuer has effectively appointed a replacement CSD that accedes as CSD at the same time as the old CSD is dismissed and provided also that the replacement does not have a negative effect on any Bondholder or the admission to trading of the Bonds on the Regulated Market. The replacing CSD must be authorised to professionally conduct clearing operations pursuant to the Central Securities Depository Regulation (Regulation (EU) No 909/2014) and be authorised as a central securities depository in accordance with the Financial Instruments Accounts Act.

20 No Direct Actions by Bondholders

- 20.1 A Bondholder may not take any steps whatsoever against any Group Company to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation, company reorganisation or bankruptcy in any jurisdiction of any

Group Company in relation to any of the obligations and liabilities of such Group Company under the Finance Documents. Such steps may only be taken by the Agent.

- 20.2 Clause 20.1 shall not apply if the Agent has been instructed by the Bondholders in accordance with the Finance Documents to take certain actions but fails for any reason to take, or is unable to take (for any reason other than a failure by a Bondholder to provide documents in accordance with Clause 17.1.2), such actions within a reasonable period of time and such failure or inability is continuing. However, if the failure to take certain actions is caused by the non-payment of any fee or indemnity due to the Agent under the Finance Documents or the Agency Agreement or by any reason described in Clause 17.2.12, such failure must continue for at least forty (40) Business Days after notice pursuant to Clause 17.2.13 before a Bondholder may take any action referred to in Clause 20.1.
- 20.3 The provisions of Clause 20.1 shall not in any way limit an individual Bondholder's right to claim and enforce payments which are due to it under Clause 9.5 (*Mandatory repurchase due to a Change of Control Event, a Listing Failure Event or a De-Listing Event (put option)*) payments which are due by the Issuer to some but not all Bondholders.

21 Prescription

- 21.1 The right to receive repayment of the principal of the Bonds shall be prescribed and become void ten (10) years from the Redemption Date. The right to receive payment of interest (excluding any capitalised interest) shall be prescribed and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Bondholders' right to receive payment has been prescribed and has become void.
- 21.2 If a limitation period is duly interrupted in accordance with the Swedish Act on Limitations (Sw. *preskriptionslag (1981:130)*), a new limitation period of ten (10) years with respect to the right to receive repayment of the principal of the Bonds, and of three (3) years with respect to receive payment of interest (excluding capitalised interest) will commence, in both cases calculated from the date of interruption of the limitation period, as such date is determined pursuant to the provisions of the Swedish Act on Limitations.

If the Issuer does not promptly issue a press release and the Agent considers it necessary to issue a press release containing such information before it can lawfully send a notice containing such information to the Bondholders, the Agent shall be entitled to issue such press release (to the extent it is able to do so).

23 Force Majeure

- 23.1.1 Neither the Agent nor the Issuing Agent shall be held responsible for any damage arising out of any legal enactment, or any measure taken by a public authority, or war, strike, lockout, boycott, blockade, natural disaster, insurrection, civil commotion, terrorism or any other similar circumstance (a “**Force Majeure Event**”).
